Dear Denton ISD Students and Families,
In keeping with our commitment "to prepare every student for their future in today's world," the DISD wants your high school experience to be full of meaningful learning that prepares you for your future. This High School Course Catalog and Planning Guide will assist students and their families in thinking about their own future and selecting courses of study that will meet each student's individual needs, satisfying graduations requirements, and preparing our students for life after high school.

This guide is full of information that will assist you through the educational pathway designed to afford you the opportunity to fulfill your dreams and create your future. Please take note of the variety of course offerings in the areas of science, mathematics, arts, humanities, languages, social sciences, and career and technology.
 Challenge yourself to be all you can be and take advantage of the many course offerings and areas of study available to you.

It is our expectation that you will choose your courses wisely with the end result in mind. Careful planning requires good information and useful resources. Please take the opportunity to visit with your school counselor about the advantages of Schoolinks. Schoolinks is a resource provided free to DISD students and their families to connect what students do in the classroom to their life goals, including finding colleges and careers based on their personal skills and interests.

On behalf of the Denton ISD staff and the Board of Trustees, I wish you the best success in your high school years. After four years in high school, you will participate in commencement. This commencement is called high school graduation; however, it will not be the end of your educational career, in fact, it will be the beginning of a life filled with learning, accomplishments, trials and tribulations. I pledge our DISD commitment to assist you in any way possible to make your dreams a reality, meet your goals and exceed lofty expectations.

Very sincerely,

Jamie Wilson, Ed.D. Superintendent of Schools

Denton ISD Board Goals

## Mission Statement

Empowering lifelong learners to be engaged citizens who positively impact their local and global community

## Vision Statement

A premiere destination district committed to growth and excellence

## Teaching and Learning - In pursuit of excellence, we will:

- Develop and maintain a culture where learning remains our first priority
- Advocate and practice true accountability based on measurement of individual student progress over time, regardless of external mandates
- Cultivate a consistent, strong, district-wide balanced curriculum based on ongoing needs assessments supporting all students
- Establish high expectations with a curriculum fostering inquiry, critical thinking, civic responsibility and exemplary citizenship
- Cultivate a network of professional learning communities addressing the educational needs of every child in our district
- Incorporate best practices into teaching, learning, technology and leadership
- Foster and support an advanced digital learning environment
- Establish goals for individual campuses that incorporate both measurable and intangible factors

## Culture \& Climate - In pursuit of excellence, we will:

- Honor the dedication and professionalism of all staff
- Celebrate, respect and promote the value of diversity in our Denton ISD Community
- Support a working environment ensuring open and transparent communication
- Establish high expectations for success
- Instill in students a love of lifelong learning
- Foster a positive, welcoming environment encouraging parent and community partnerships
- Promote health, wellness and emotional well-being
- Effectively communicate achievements and recognitions to the Denton ISD community

## Growth \& Management - In pursuit of excellence, we will:

- Recruit, employ and retain high quality teachers
- Remain committed to providing equitable and outstanding opportunities for every student on every campus
- Work with the community in planning and facility development
- Utilize citizens' advisory committees to focus on short and long-term tasks
- Adjust policies and procedures to address rapid growth and changing demographics, nurturing our strong sense of community
- Demonstrate effective and efficient management of district resources
- Provide leadership and/or oversight to ensure District meets all fiscal, legal and regulatory requirements
- Encourage teachers and staff to pursue advanced degrees
- Pursue energy efficiency and conservation principles
- Develop a budget focused on student and professional learning
- Maintain a diverse workforce

## Opportunities for Students - In pursuit of excellence, we will:

- Support college, career, military and life readiness
- Engage students in extracurricular clubs and organizations
- Advocate for public education across the state and nation
- Develop academic skills and interpersonal relationships necessary for student success in college, the workplace and for life.

## High School Curriculum

In our district, as across the nation, many instructional modalities and program formats have been impacted by the COVID-19 pandemic. It is possible that some courses outlined in this planning guide continue to be impacted. As a district, we commit to ensuring that our students have the greatest opportunities possible to select and engage in the learning environments that best serve their needs, interests, and strengths.

The Denton Independent School District is dedicated in its mission of empowering students as lifelong and engaged learners who graduate from school fully prepared for their next steps in life. The District provides a wide range of programs that prepare students for post-high school experiences including college, a variety of careers, military service, participation in the arts, and other areas.

This course planning guide is provided to parents and students so that they can become familiar with the courses available. Although many of your courses will be determined by state graduation requirements, you will still have many other choices to make during your years of school. Your course selection should be guided largely by your interests and your plans for the future:

- What are your strengths and interests?
- Will you continue your education in college, in the military, or in a technical school?
- Do you want to learn a career skill and enter the full-time work force immediately after school?
- Are you interested in a technical field?
- Are you thinking of entering a profession that requires many years of specialized education?

The answers to these questions should impact your high school course selections.

## Know what Denton ISD has to offer...

This planning guide will assist in making decisions about your four-year high school plan. You are urged to consider each decision carefully. There are certain steps to follow that can help you make your choices. Find out all you can about the endorsements offered:

- compare the endorsements
- consider the advantages and disadvantages of each pathway within the endorsement
- choose the pathway that seems to have the most advantages for you

## Know about all the high school programs...

Your counselor and teachers will be helpful in advising you more specifically about the high school programs of study offered. Find out:

- Which endorsements are available
- The types of performance acknowledgements you can earn
- The number of credits needed in specific subject areas
- The prerequisites needed to begin certain course pathways
- Which elective courses are available at your school

Denton ISD High School Graduation Plan

| English (4 credits) | English I, English I Honors, or ESOL I <br> English II, English II Honors, or ESOL II <br> English III or AP English Language and Composition <br> English IV or AP English Literature and Composition |
| :---: | :---: |
| Mathematics (4 credits) | Algebra I or Algebra I Honors <br> Geometry or Geometry Honors <br> Algebra II or Algebra II Honors (recommended), or other math course One additional advanced math credit |
| Social Studies (4 credits) | World Geography, Honors World Geography, or AP Human Geography World History or AP World History U.S. History or AP U.S. History Government or AP Government Economics or AP Macro Economics |
| Science (4 credits) | Biology or Biology Honors <br> Chemistry or Chemistry Honors <br> Physics or AP Physics (recommended), or other science course One additional advanced science credit |
| World Languages (2 credits) | Two Levels in the Same Language |
| Fine Arts (1 credit) | Variety of Course Options |
| Physical Education (1 credit) | Foundations of Personal Fitness |
| Speech (.5 credit) | Professional Communications, Debate, AVID HS Elective Course, or Practicum in Entrepreneurship |
| College Transition <br> Elective (.5) | High School 101 |
| Electives (5 credits) | Elective 1, Elective 2, Elective 3, Elective 4, Elective 5 |
| Total: 26 Credits |  |

Dual credit courses may satisfy graduation requirements for required courses, advanced courses, elective credits, and endorsement requirements. Please see your counselor for more information about dual credit courses, blended courses, pre-requisites, and other allowable substitution courses.

At Denton HS, applicable IB courses are identified that substitute for required courses for graduation.

## Performance Acknowledgements

Students may earn a performance acknowledgement, indicated on the academic record/transcript, by meeting the requirements in the following areas:

| Outstanding Performance in Dual Credit Courses | At least 12 hours of college academic courses with a grade of 3.0 or higher -or- associates degree |
| :---: | :---: |
| Outstanding Performance in Bilingualism / Biliteracy | 4 credits of English with a minimum grade average of 80, <br> -and- one of the following: <br> 3 credits in the same world language with a minimum GPA of 80 Completion of a Level IV world language with a minimum GPA of 80 3 or higher on a world languages AP exam 4 or higher on a world languages IB exam <br> -and- For ELLs only, both of the following: <br> Participate in and meet the exit criteria for a bilingual or ESL program Score Advanced High on TELPAS |
| Outstanding Performance in AP/IB Examinations | 3 or higher on College Board AP exam -or- 4 or higher on IB exam |
| Outstanding Performance on a College Preparation Assessment | PSAT/NMSQT score that qualifies for recognition as a commended scholar by the College Board and National Merit Scholarship Corp as part of the NHRP or the NASP, <br> -or-Achieving the ACT readiness benchmark score on three of the five subject tests on the ACT Aspire exam <br> -or- SAT total score of 1310 or higher <br> -or- ACT composite score (excluding writing) of 28 or higher |
| Earning a State-, Nationally-, or Internationally- Recognized Business or Industry Certification or License | Performance on an exam or series of exams leading to: -nationally or internationally recognized business or industry certification -or- government-required credential to practice a profession as set forth in Chapter 74, Subchapter B of the Texas Administrative Code |

Endorsements consist of a related series of courses that are grouped together by interest or skill set. They provide students with in-depth knowledge of a subject areas. Students must select an endorsement upon entering the ninth grade. Not all campuses offer the courses required for each endorsement; students must meet with counselors for guidance in course selection. Students can earn an endorsement by completing the curriculum requirements for the endorsement, including a $4^{\text {th }}$ credit of math and science and 2 additional elective credits. Endorsement areas and their sub-categories include:

## STEM - Science, Technology, Engineering, and Mathematics

(Students may select one of the following)
Career and Technical Education courses related to STEM
Computer Science
Mathematics
Science
Combination of no more than two of these categories

## Business and Industry

(Students may select one of the following or a combination or areas)

Agriculture Technology Applications
Arts
Audio/Video
Finance
Marketing
Food and Natural Resources
Hospitality and Tourism
Information Technology
Manufacturing

Architecture and Construction
English electives in public speaking, debate, advanced broadcast journalism, advanced journalism including newspaper and yearbook

Technology and Communications Business Management and Administration Transportation or Distribution and Logistics

## Public Service

(Students may select one of the following or a combination or areas)

Human Services
Law
Corrections and Security
Health Science

## Arts and Humanities

(Students may select one of the following)
2 levels each in two languages other than English
4 levels in the same LOTE
Courses from one or two areas (music, theatre, art, dance) in fine arts

Public Safety
Education and Training
Government and Public Administration JROTC

## Multi-Disciplinary Studies

(Students may select one of the following)
4 advanced courses from other endorsement areas
4 credits in each foundation subject area, including English IV and chemistry and/or physics
4 credits in AP, IB, or dual credit selected from English, math, science, social studies, economics, LOTE, or fine arts

In Denton ISD, a student's grade point average (GPA) is calculated using the highest grade points earned for high school credit taken in grades 9-12 in approved courses in the following areas:

- Four courses in English (8 semesters);
- Four courses in mathematics (8 semesters);
- Four courses in science ( 8 semesters), to include physics
- Five courses in social studies (8 semesters); and
- Two courses in languages other than English (4 semesters).

Two separate processes are used for calculating GPA and class rank:

| Earned GPA | Ranking GPA |
| :---: | :---: |
| The Earned GPA is calculated by dividing the highest grade points earned to date in the approved courses, by the actual number of semesters of approved courses attempted to date. <br> The calculation of the Earned GPA serves a variety of purposes: <br> It is calculated "along the way" so students can reflect on their progress; and <br> It serves as the final GPA reported on transcripts. (Preliminary rankings provided to students prior to their senior year are based on the Earned GPA.) <br> In the Schoolinks system and beyond, Earned GPA is often referred to as Weighted GPA. | The Ranking GPA is calculated by dividing the highest grade points earned overall (at the end of a student's twelfth grade year) in the approved courses, by 36 (reflecting the 36 semesters indicated above). <br> The Ranking GPA becomes the final determiner of the official rank in the class for graduating seniors. <br> When a student completes the full 36 semesters in the course of study indicated above, the Ranking GPA is calculated using 36 semesters of grade points divided by 36 possible semesters. For a student, however, who completes fewer than the 36 semesters of the course of study indicated above, the Ranking GPA is still calculated using 36 as the divisor. Therefore, a student who completes the 36 eligible semesters will have a higher Ranking GPA than a student who, although successful in the courses taken, did not complete the full recommended course of study. |

*Beginning with the 2024-2025 senior cohort (freshmen in 2021-2022), grades earned via credit recovery are not included in Ranking GPA calculations.

Transcripts are never official until graduation. Because GPA and class rank shift often for a variety of reasons, students should monitor GPA and Class Rank closely. Earned GPA is reported to students twice per year, at the end of each semester, beginning in the $9^{\text {th }}$ grade. Ranking GPA is reported to students beginning grade 11.

NOTE: Transferring students who have elected for "no conversion" of a "Pass" or "Fail" designation on a transcript for any course listed on the GPA approved course list do not receive a Ranking GPA calculation and are not included in class ranking.

Courses identified as included in GPA are calculated whether the student took the class during the regular school year or through summer school, correspondence, credit by exam (recovery* or acceleration), or dual credit. Courses taken prior to $9^{\text {th }}$ grade for high school credit do not count in GPA calculations.

Denton ISD encourages students to take courses that align most closely to their academic and personal goals. Sometimes an unweighted course is the "just right" choice for a student, and sometimes selecting the honors or AP level course better equips the student to succeed at even higher levels and beyond high school.
*NOTE: Beginning with the 2024-2025 senior cohort (freshmen in 2021-2022), credit recovery courses are not included in Ranking GPA calculations.

Subjects marked with a (w) carry weighted GPA. Only IB courses aligned to weighted GPA-included courses also count in the GPA calculations and carry aligned GPA.

*In addition to the courses listed here, when a student transfers in to Denton ISD with credit already transcripted for a course listed in $\S 74.12$ (b) ( $2 \mathrm{~A}-\mathrm{B}$ ) [math courses] or $\S 74.12$ (b)(3 A-B) [science courses], the course may count toward GPA points provided it was earned while in grades $9-12$ and is needed for graduation credit. (The only transfer courses recognized for weighted grade points are those courses that also carry weighted grade points for Denton ISD students.)

## Local Credit Courses

Local credit courses are elective courses designed and offered by Denton ISD that are not part of the state elective course catalog. Local credit courses are not eligible for state credit; therefore, local credit courses do not count toward state graduation requirements. Grades earned in local credit courses are recorded on the transcript but are not counted in GPA. Examples of local credit courses in Denton ISD include: Academic Support, Military Drill I-IV, Partner Classes, Student Council II-IV, Student Athletic Trainer, Peer Assistance (beyond the first credit), and Personal Health \& Wellness

## No Credit Courses

Courses that are not designed as local electives are considered "no credit" courses. A student can be scheduled for a maximum of two no credit courses per semester. Examples of no credit courses in Denton ISD include: Office Aide, Mentor Aide, Teacher Aide, Counselor Aide, Attendance Aide, and Library Aide.

# .0.000 <br> ะ:...... <br> ะ  000 <br> <br> Courses for High School Credit <br> <br> Courses for High School Credit Taken Prior to High School 

 Taken Prior to High School}

Courses taken prior to $9^{\text {th }}$ grade for high school credit do not count in GPA calculations. This means that a student who earns high school credit in middle school will need to still complete the required 36 semesters of course required for Ranking GPA calculations.

For example, a student who earns Algebra I credit in middle school but then fails to complete 4 years of mathematics in grades 9-12 will have a negative impact on Ranking GPA. Likewise, a student who earns world language credits in middle school but then fails to complete 2 years of world languages in grades $9-12$ will have a negative impact on Ranking GPA.

In certain unusual situations where a transfer student earned high school credit for English I prior to high school, the student may access 8 semesters of English Language Arts courses for GPA purchases by electing to take both English III and AP English III, or English IV and AP English IV, as permitted by the Texas Education Agency.

| Letter Grades | Numerical Grades | Grade Points | Advanced Grade Points |
| :---: | :---: | :---: | :---: |
| A | 90-100 | 4.0 | 5.0 |
| B | 80-89 | 3.0 | 4.0 |
| C | 70-79 | 2.0 | 3.0 |
| F | Below 70 | 0.0 | 0.0 |

## 800000 -0.0.0. $-0.0 \cdot$ -0.0.0.8 $-0 \cdot 0 \cdot 0$

Courses transferred in from other public/private accredited schools included on the "Denton ISD Approved Courses for Denton ISD GPA and Rank Calculations" list are counted as part of the established 18 credits ( 36 semesters). The only transfer courses recognized for weighted grade points are those courses that also carry weighted grade points for Denton ISD students.

Since the systems used at outside institutions vary, different conversion methods may be needed. The district will always encourage the sending institution to supply numeric grades based on our system; however, final determination of how transfer courses will be counted as GPA is determined by Denton ISD. In the event numeric grades are not provided, these conversions shall apply to these specific situations:

## A. Conversion of University and College Letter Grades

University- or college-level grades transferred in are converted to their numeric equivalent and are assigned weighted grade points.

| University Grade | Numeric Equivalent |
| :---: | :---: |
| A | 97 |
| B | 87 |
| C | 77 |
| D* | 70 |
| F | 55 |
| Fail (or equivalent)** | 55 or "No Conversion" |
| Pass* | 70 or "No Conversion" |

*if considered passing, otherwise " 55 "
**Students with "Pass" or "Fail" designations on university or college transcripts may elect "No Conversion." The "Pass" or "Fail" designation remains on the high school transcript. Denton ISD student academic records that include "Pass" or "Fail" designations for any course listed on the GPA approved course list do not receive a GPA calculation and are not included in class ranking.
B. Conversion for Accredited Public/Private School Letter Grades

Also applies to correspondence courses, credit by exam, and other grades awarded similarly. If the course is recognized by Denton ISD as a course that should carry weighted GPA, then the college conversion table shall apply.

| Grades without + (pluses) and - (minuses) |  |
| :---: | :---: |
| Letter Grades | Numeric Equivalent |
| A | 95 |
| B | 85 |
| C | 75 |
| D* | 70 |
| F | 55 |

[^0]| Grades with + (pluses) and - (minuses) |  |
| :---: | :---: |
| Letter Grades | Numeric Equivalent |
| A + | 99 |
| A | 95 |
| A - | 92 |
| B + | 89 |
| B | 85 |
| B - | 82 |
| C + | 79 |
| C | 75 |
| C - | 72 |
| D + * | 70 |
| D * | 70 |
| D - * | 70 |
| F | 55 |

*if considered passing, otherwise " 55 "
C. Conversion for Accredited Public/Private School Letter Grades without + (pluses) and - (minuses) This conversion also applies to correspondence courses, credit by exam, and grades awarded similarly.

| Letter Grades | Numeric Equivalent |
| :---: | :---: |
| A | 95 |
| B | 85 |
| C | 75 |
| D* | 70 |
| F | 55 |

D. Conversion for Accredited Public/Private School "Pass" / "Fail" Designations

| Transfer Designation | Conversion Options |
| :---: | :--- |
| Pass** | 70 or "No Conversion" (For grades taken in Spring 2020 only, students <br> may elect for the 3 ${ }^{\text {rd }}$ <br> semester grade if an official grade report or other to documentation is <br> provided from the sending campus.) |
| Fail (or equivalent)** | 55 or "No Conversion" |

**Students with "Pass" or "Fail" designations on public or private school transcripts may elect "No Conversion." The "Pass" or "Fail" designation remains on the high school transcript. Denton ISD student academic records that include "Pass" or "Fail" designations for any course listed on the GPA approved course list do not receive a GPA calculation and are not included in class ranking.
E. Conversion for Non-Accredited Schools / Home School Students

Students entering the District from non-accredited public, private, or parochial schools, including home schools, must validate high school credit for courses using credit by exam methods [EHDB(Local)]. Under 19 TAC $\S 74.24(\mathrm{c})$, the passing standard of $70 \%$ for students to receive credit for courses they have already taken is applied [EHDB(Legal)]. The score earned on the Credit by Exam is recorded as the grade for the course. (See Credit by Exam section in this planning guide for more information).

## F. Conversion of Passing "D" Numerical Grades

This conversation applies to accredited public/private schools and universities/colleges where a numerical grade is provided for a " D " that is considered passing. Also applies to correspondence courses and other similar situations

| Letter Grade | Numerical Grade | Denton ISD Equivalent |
| :---: | :---: | :---: |
| D, | $60-69$ | 70 |
| if considered passing |  |  |

## Final Determination of Conversion

In the event the conversion tables listed are not appropriate, the building principal, in conjunction with the Director of Secondary Curriculum, shall determine and apply an appropriate conversion.

## GPA "Ties"

Denton ISD's rank calculation process creates the potential for multiple students to share the same Ranking GPA. The fact that many students could be tied throughout the system is recognized as one of the strengths not weaknesses - of the system. Externally, in the case of scholarships or college admissions, there may be the need or requirement on the part of the external agency to break ties.

The same specific set of approved and identified courses used to determine Ranking GPA are used to address ties. The numeric grades earned in the approved courses will be averaged and used to break ties as needed. In the event two or more students have the same Ranking GPA and the same numeric average over the established courses, no further tiebreakers will be utilized, and the students will be considered officially tied. Again, ties will be addressed only as required for external uses. Students with the same Ranking GPA will be considered tied for Denton ISD recognition purposes.

## Sample GPA Calculations for Earned and Ranking GPA

(Samples provided here are not intended as recommended courses of study.)

| 9TH GRADE |  | Fall Semester |  | Spring Semester |  |

## ORIGINAL CREDIT

Students needing to use an alternative method to earn original credit have several options in Denton ISD. These options are available during the school year and in the summer.

## Examination for Advancement (EA)

Students who wish to earn credit for a course they have not yet taken or in which they have not received prior instruction may apply for the "Exam for Advancement" (EA) credit by exam. Students with no prior instruction must earn an $80 \%$ or higher on the EA CBE; when a student is given credit on the basis of a EA, the student is not required to take the applicable end-of-course assessment.

## Correspondence and Distance Learning Courses

A correspondence program allows high school students to take a course for high school credit through distance learning at an institution approved by the district and the state of Texas. Students may earn a maximum of 2 state-required credits through correspondence courses and may be enrolled in only 1 course at a time. Students are responsible for all fees including registration, application, and any required textbooks and materials. Credit toward state graduation requirements may be granted for correspondence courses only if the following conditions apply:

- The student obtains approval from the counselor or principal prior to enrollment in the course;
- The student only enrolls in correspondence courses offered for this purpose by the University of Texas at Austin, Texas Tech University, or TxVSN (Texas Virtual School Network)
- The district agrees, in advance, that the course meets all state-required standards (TEKS); and
- The student, if in the senior year, submits the final correspondence course grade at least 30 days prior to the date of graduation.

## Concurrent and Dual Enrollment

Concurrent enrollment classes are university classes that receive university credit only; the high school student is admitted as a regular college student by the college or university. Students may enroll in concurrent enrollment under the following conditions:

- The student is classified as a senior;
- The student will complete all requirements for high school graduation through the high school;
- The student obtains approval from the counselor or principal prior to enrollment in the course;
- The student successfully applies to the college or university and passes the TSI assessment; and
- The college courses are counted as part of the student's high school course load; and
- Proof of enrollment must be filed with the high school registrar.

Students in Denton ISD may also have access to DUAL CREDIT courses in the summer; availability is determined by the district and the partnering university and required advance approval. Students must take both semesters of the course in the summer - e.g., ENGL 1301 and 1302 - so that the full year of state credit can be transcripted.

## Online Course

Professional Communications and Health are the approved Denton ISD original credit courses available through Edgenuity. For high school students moving into the district during or after their junior year, the following courses are also available when needed for graduation: Spanish I, Spanish II, Latin I, Latin II.

## CREDIT RECOVERY

Credit recovery is the term used to describe earning credit for a course the student has already taken but where credit was not earned. Situations that require credit recovery include - when the student completed the course but did not pass it, when the student earned a passing grade but failed to earn credit because of excessive absences, or when a student took a course in a non-accredited school.

Students who have taken a course and earned credit for it may not re-take the course. Exception: For the 202122 school year only, SB 1697 authorizes a parent to opt for a student to repeat a high school credit course taken in the 2020-21 school year, even if the student earned a passing grade in the course. The parent must elect in writing for the student to repeat a course. A student may not repeat a course if the district determines the student has met all the credits for graduation.

Students are limited to one credit recovery course at a time during the regular semester. NOTE: Beginning with the 2024-2025 senior cohort (freshmen in 2021-2022), grades earned through credit recovery are not included in Ranking GPA calculations.

STAAR EOC assessments and campus-developed exams (e.g., semester exams, unit tests) do not meet the state criteria for credit by examination and are not approved for this purpose. Students who do not earn credit for a course cannot use a passing score on the STAAR/EOC or campus-developed exams to earn credit for the course.

The NCAA does not accept high school credits for all credit recovery courses. Students who need to ensure that their recovery courses are NCAA approved should contact the NCAA Eligibility Center.

Though not all options are available on all campuses in all content areas, credit recovery options for Denton ISD students may include:

## Repeated Course

The student enrolls in and retakes the course in a traditional classroom setting. (F2F, Synchronous)

## Accelerated Course

The student is enrolled in face-to-face instruction during a section (a period of the day) specifically designated for credit recovery students in the same course or content area. The pacing of the course is accelerated; up to two semesters of credit can be recovered in one semester. (F2F, Synchronous)

## Online Course

The student enrolls in an asynchronous course where instruction and evaluation are provided by a Denton ISD certified teacher. The course content may be provided through either Edgenuity or another district approved course. The course is differentiated for the student and follows a determined learning pathway based on a diagnostic pre-assessment. (Virtual, Asynchronous)

Enrollment/scheduling options for online credit recovery are:
On Campus Enrollment, where the online course is part of the student's schedule. At a determined period of the day, the student attends the online course and has access to a face-to-face instructor who monitors and is available for assistance.

Off Campus Enrollment, where the online course is taken outside of the school day in addition to the student's regular schedule.

## Correspondence and Distance Learning Courses (Virtual)

Courses from TTU ISD, UT High School, and TxVSN are approved by the district and the state of Texas. All guidelines and requirements indicated above (in "Original Credit" section) apply when these courses are taken for credit recovery.

## Credit by Exam with Prior Instruction

Denton ISD provides CBE through arrangements made with Texas Tech University and the University of Texas. In credit recovery situations, the "Credit by Examination with Prior Instruction" policies apply [EHDB(Local)].
Students who have had prior instruction in a course may be awarded credit for the applicable course, subject to local district policy, if the student scores $70 \%$ or higher on the CBE. Evidence of "prior instruction" is determined by the district.

## Summer School

Students attempting to recover credit may enroll in the HS Summer Credit Recovery program. Online courses are made available to students, and instruction is provided by a Denton ISD certified instructor. The course is differentiated for the student and follows a determined learning pathway based on a diagnostic pre-assessment. Enrollment is typically off-campus. Students are limited to taking two HS Summer Credit Recovery courses at a time during the summer program.

## Night School

The student attends an additional period of the day on campus after regular school hours. Face-to-face instruction is provided by a certified teacher. In some cases, online courses may be used.

A Credit by Examination (CBE) is a formal assessment designed to provide students with an opportunity to receive full or partial credit for a course by demonstrating mastery of course outcomes, i.e., the Texas Essential Knowledge and Skills. Whether taken for credit recovery ("Credit by Exam with Prior Instruction") or as an exam for acceleration ("Credit by Exam without Prior Instruction"), approval for the use of a CBE must be made by the campus or district in advance of test administration.

Schools districts in Texas are required to have approval of the board for exams used for credit by exam (including for credit recovery and exams for acceleration). In Denton ISD, the board approved CBEs are: Texas Tech, UT High School, Stamp AVANT, CLEP, and AP (19 TAC 74.24(a)(4).

Per state guidelines, students may not attempt to earn credit by exam for the same high school subject more than two times.

> If a student fails to earn credit by examination for a course before the beginning of the school year in which the student would ordinarily be required to enroll in that course in accordance with the district's prescribed course sequence, the student must satisfactorily complete the course to receive credit for the course.

When a student earns credit by CBE, the school district is required to enter the examination score on the student's transcript. In Denton ISD, grade points for CBE are calculated in GPA. [NOTE: Beginning with the 20242025 senior cohort (freshmen in 2021-2022), CBE scores earned for credit recovery are not included in Ranking GPA calculations.]

Potential graduates who receive permission to register and complete exams any time after April 1st of the current school year may not receive test scores in time to participate in May commencement. A student who wishes to graduate in the current school year must either enroll in the necessary classes for the second semester or complete the CBE before the end of the first semester.

Note that courses taken prior to $9^{\text {th }}$ grade for high school credit do not count in GPA calculations; likewise, exams taken for high school credit only count toward GPA when they are taken after $8^{\text {th }}$ grade.

## Credit by Exam Quarterly Testing Windows

A student may take a specific examination only once during each window:

January 1 - March 31
April 1 - June 30
July 1 - September 30
October 1 - December 31

## Additional Credit by Exam Resources:

- TEC, §28.023: http://www.statutes.legis.state.tx.us/Docs/ED/htm/ED.28.htm\#28.023
- TAC, §74.24, Credit by Examination: http://ritter.tea.state.tx.us/rules/tac/chapter074/ch074c.html\#74.24
- Texas Tech University ISD: https://www.depts.ttu.edu/ttuisd/cbe.php
- Study Guide information must be directly obtained from TTU http://www.depts.ttu.edu/ttuisd/cbe.php or UT https://highschool.utexas.edu/cbe study guides.

## Grade Categories

| Courses | Major Summative | Minor Summative | Formative |
| :---: | :---: | :---: | :---: |
| Regular | $60 \%$ | $40 \%$ | $0 \%$ |
| Honors / AP / IB | $70 \%$ | $30 \%$ | $0 \%$ |

## Semester Averaging

All freshmen and sophomores are required to enroll in 8 courses.

Juniors may reduce this requirement to 7 courses, provided they meet the following criteria:

1. Be on track to graduate with designated class;
2. Have met passing standard on all state assessments;
3. Be in attendance a minimum of six instructional hours of the school day [FD(Local)] and,
4. Remain in compliance with compulsory attendance and discipline policies.

Seniors may reduce the requirement to 6 courses if they meet they meet the same criteria above and have administrator approval [FD(Local)]. The 6 courses in which the senior is enrolled must be credit-bearing. (This excludes no-credit and local-credit courses such as Student Aide.)

Course selections made during pre-registration are considered final. Any course change request after spring registration must be approved by the principal before the spring deadline. Once classes begin, students may not drop or add a course after the first four class days of attendance. To receive full credit for a course, students must be in attendance for $90 \%$ of the class. Students may change levels (e.g., Honors to non-honors) within a content area at the end of the first four weeks in the first grading period, after a parent-teacher conference, and if course loads permit. Requests to change courses at the beginning of school cannot be honored. Only changes related to graduation plans and/or computer errors will be addressed after school begins.

## Early Graduation

Students may graduate early only when they have met the "Denton ISD High School Graduation Plan."
Given district and state graduation requirements, students pursuing early graduation will need to "double up" (if pre-requisites allow) to complete all necessary courses over a 3 to $31 / 2$ year period. Because only 8 course credits are offered in the normal school year, and 26 credits minimum are required for graduation, early graduation candidates need to consider alternative methods for earning credit, such as correspondence courses (TTU or UT), dual credit courses in the summer, or exams for acceleration.

Students are strongly advised to take their core courses during the school year in the traditional setting to adequately prepare for state testing.

The commitment to this decision needs to begin during course selection for the sophomore year and will be subject to schedule change guidelines, policies, and deadlines.

Students pursuing early graduation following their junior year (i.e., 3 years of high school) are required to have passed all EOCs prior to graduation. Students pursuing early graduation following the fall semester of their senior year (i.e., $31 / 2$ years of high school) are required to have passed all EOCs prior to graduation or may qualify to graduate on the basis of a review by an Individual Graduation Committee (IGC).

## Grade Level Classification

A student's "grade level classification" is determined by the number of credits the student has earned prior to the beginning of the school year. Classifications remain the same throughout the school year unless corrections are necessary due to errors, except for students graduating that year who may be reclassified if needed from "junior" to "senior" at the end of the fall or spring semester. (This is to ensure that graduating students are classified as "seniors" prior to graduation.)

Note: A student's graduating "cohort" is different from a "grade level classification." The graduating cohort is established in the year in which a student enrolls and remains the same until graduation. Grade level classification is based on the number of credits earned.

Minimum grade classification requirements for classes are:

| Grade Level | Required Credits |
| :---: | :---: |
| $9^{\text {th }}$ Grade / Freshman | N/A |
| $10^{\text {th }}$ Grade / Sophomore | 6 Credits |
| $11^{\text {th }}$ Grade / Junior | 12 Credits |
| $12^{\text {th }}$ Grade $/$ Senior | 18 Credits |

## Counseling Services

The counseling department is an integral part of the overall school program. School counselors are available to assist students in the following areas:

- Course selection that best meets academic, career, or military goals
- Information regarding available classes or programs
- Planning for college, career, and military
- Assistance or guidance related to social, emotional, or mental health
- Resources to professional services outside Denton ISD
- Personal graduation planning (beginning in $8^{\text {th }}$ grade)

Students and parents are partners in the process and are encouraged to review the student's transcript regularly to verify accuracy and bring any errors to the attention of the counselors and registrar.

## SchooLinks

All middle and high school students and parents in Denton ISD have access to SchooLinks, an online platform that helps students understand their unique strengths, connect their interests to careers, set goals, and develop self-knowledge and personal motivation.

Log in to SchooLinks by selecting the "SchooLinks Login" button on the Denton ISD SSO Classlink site: https://myapps.classlink.com/home

Students can use SchooLinks to access college and scholarship information, career information, and standardized test scores. Students may request transcripts and link to college applications via SchooLinks.

## Go Center

Each high school campus houses a Go Center staffed by a group of current college students known as the GForce. The G-Force mentors make weekly visits to high school campuses and provide college enrollment guidance and post-secondary mentoring. G-Force mentors assist one-on-one with 9th-12th grade students to create a college-going culture.

## Counseling Course Selection Website

The "Denton ISD Course Selection" website is available to assist families as they work with their high school counselor to discuss courses of interest and consider the opportunities available.
https://sites.google.com/g.dentonisd.org/disd-course-selection-21-22/home

FAFSA (Free Application for Federal Student Aid)

In accordance with Texas Education Code (TEC), §28.0256, beginning with students enrolled in 12th grade during the 2021-2022 school year, each student must do one of the following in order to graduate:

- Complete and submit a Free Application for Federal Student Aid (FAFSA);
- Complete and submit a Texas Application for State Financial Aid (TASFA); or
- Submit a signed opt-out form.

Financial aid to help you pay for college or career school is available from a variety of sources including federal, state, school, and private sources. Federal student aid covers expenses such as tuition and fees, room and board, books and supplies, and transportation.

There are three types of federal student aid:

1) Grants: Financial aid that doesn't have to be repaid (unless you withdraw from school)
2) Work-Study: A work program through which you can earn money to help you pay for school
3) Loans: Borrowed money for college or career school; you must repay your loans, with interest

Apply for federal student aid using the Free Application for Federal Student Aid (FAFSA) form which can be completed at this link: https://studentaid.ed.gov or by downloading the myStudentAid app for iOS or Android. Remember, the first F in "FAFSA" stands for "free" - you do not have to pay to fill out the FAFSA form.

The FAFSA application opens on October 1 of each year, but students and parents can create an FSA ID prior to the opening date at https://StudentAid.Gov/FSAID. You will need to provide:

E-mail address

- Don't use the same e-mail address as your parent
- Don't use your Denton ISD email address because you will need to access it during college

FSA ID username

- Don't include personal information, such as your name or DOB
- If your selected username is already taken, you must create a different username.

FSA ID password

- Store your password in a safe place
- Social Security Number, date of birth and name (should match what is printed on your social security card)

Students and parents should gather other necessary documents/information prior to completing the FAFSA. Visit https://studentaid.gov/apply-for-aid/fafsa/filling-out\#gathering-the-documents-needed-to-apply for helpful information.

If you are a foreign student or non-citizen, you may be eligible to be classified as a Texas resident for tuition purposes. If so, you may be eligible to receive state financial aid. You can complete the Texas Application for State Financial Aid (TASFA) to determine potential aid. For more information visit College for All Texans at http://www.collegeforalltexans.com.

Assistance in completing the FAFSA or the TAFSA is provided on all high school campuses. Pay attention to social media, announcements, and emails to learn when FAFSA/TAFSA workshops are available.

## Post-Secondary Planning Tips

## Planning Tips for Seniors

## Throughout Senior Year

- Check school email regularly
- Request transcripts in Schoolinks once you have applied to your colleges
- Watch for scholarship and college application due dates
- Male students - register with the Selective Service https://www.sss.gov/Home/Registration when you turn 18

## August

- Review your transcript for accuracy
- Review current grade point average in Schoolinks
- Register for the ACT/SAT or TSIA if applicable (Free/reduced lunch students can receive a waiver from their counselor)
- Update essays or writing samples that may be required for applications
- Prepare/update a resume to include work experience, school and community activities/clubs, awards earned, leadership positions and volunteer experience
- Narrow down college, university, technical school choices
- NCAA/NAIA applicants verify with your counselor that you are on track to complete the Core Course Requirements and complete you NCAA/NAIA task checklist
- Listen to announcements and follow counseling department social media for scholarship information and visits from college and military representatives

## September

- Verify your high school graduation plan with your counselor
- Attend NorTex College Fair
- Visit college campuses, tour dorms, talk to admissions and financial aid officers
- Request recommendation letters from teachers, coaches, counselors if required via Schoolinks
- Continue to listen to announcements, follow social media sites and check email regularly to gather information about scholarships, future visits from college and military representatives, and upcoming financial aid workshops
- Visit campus Go Center to get help with college applications and create FSA ID for the Free Application for Federal Student Aid (FAFSA) at www.fafsa.ed.gov
- Watch for college housing registration and deposit dates

## October

- Complete the FAFSA (application opens on October 1)
- Complete college applications for the schools you are considering
- Request official transcripts for each college to which you are applying
- Explore financial aid options at your selected colleges
- Apply for any available scholarships - Denton Public School Foundation (DPSF) application opens in October
- Register and pay for AP/IB exams
- Order graduation invitations and cap and gown from Jostens

## November

- Complete college applications (pay close attention to application and scholarship deadlines)
- Submit DPSF scholarship application
- Review/update your resume for potential jobs
- Contact local businesses' personnel departments to learn about entry level positions for high school graduates and see the Career Counselor regarding the High School Works Program
- Consider shadowing workers or interning at potential job sites as your schedule allows
- Mark your calendar for certification exams and schedule review sessions
- Visit with military campus representatives to investigate opportunities in the military if applicable
- Request transcript via Schoolinks before Thanksgiving break for Dec. 1 college application deadlines

## December

- Take any remaining EOC/STAAR exams
- Review your schedule for the Spring semester

## January

- Complete and submit any college applications or scholarships by the determined deadlines
- Attend any additional informational sessions provided by campus regarding postsecondary planning
- Review your fall semester transcript for accuracy

## February

- Confirm AP exam registration and complete payments as necessary
- Begin review for AP/IB exams
- Continue to work on scholarship applications
- Inform your counselor of any scholarships and financial aid packages you are awarded
- Respond to college acceptance notices
- Meet college deadlines for Financial Aid and Scholarship applications

## March

- Take any remaining EOC/STAAR exams if necessary
- Continue to consider admission and financial aid offers
- Continue application for scholarships as they become available
- Submit housing application if you have not done so
- Confirm you have met required TSI cut scores for in state public schools
- Register and take the TSI if necessary
- Continue to prepare for AP/IB exams or certification tests

## April

- NCAA/NAIA applicants: complete amateurism questionnaire sign final authorization signature online
- Continue to study for AP/IB exams and certification tests
- Make final decision for college choice
- Notify all colleges of decision to accept or decline admittance
- Make final decision for postsecondary plan
- Register for college summer orientation

## May

- Take AP/IB exams and/or certification Tests
- Request final transcript to be sent to college of choice via Schoolinks
- Send thank you notes to scholarship donors
- Register for college summer orientation
- If you have not applied, it's still not too late - visit with your counselor
- GRADUATION!

## Planning Tips for Juniors

## August

- Review your transcript for accuracy
- Review current grade point average in Schoolinks
- Review ACT/SAT test dates, and develop a review plan
- Become involved in clubs and organizations in your school and/or community
- Prospective college student athletes (D1, D2 or NAIA) should register with the NCAA eligibility center (www.eligibilitycenter.org) and or NAIA (www.naia.org) and verify Core Course Requirements with your counselor
- Check your school email on a regular basis and continue to do so throughout the year
- Get in the habit of monitoring your grades and attending tutorials as necessary

## September

- Verify your high school graduation plan with your counselor
- Attend NorTex College Fair
- Update your resume with school and community activities/clubs, awards earned, leadership positions and volunteer experience
- Meet with your counselor to discuss college and/or career goals
- Schedule college campus visits - you are provided two excused absences for college visits in your junior year
- Review for the PSAT
- Follow counseling department social media to receive important information regarding college and military representative visits

## October

- Take the PSAT
- Continue to research colleges and careers
- Research financial aid and scholarship opportunities for potential colleges
- Register and pay for AP/IB exams

## November

- Begin to narrow down your post-high school options
- Review your schedule for the Spring semester

## January

- Review your PSAT scores and develop study plan for SAT
- Register for a Spring ACT or SAT exam
- Attend any additional informational sessions provided by your campus regarding postsecondary planning and financial aid
- Review your fall semester transcript for accuracy and begin considering courses you wish to take your senior year

## February/March

- Continue to focus on academic course work
- Confirm AP exam registration and complete payments as necessary
- Begin review for AP/IB exams
- Continue college campus visits - you are provided two excused absences for college visits in your junior year
- Verify courses for your senior year

## April/May

- Take EOC/STAAR exam(s)
- Continue to prep for AP/IB exams and final exams
- Take IB/AP exams
- Take certification tests
- If necessary, make plans for credit recovery and/or summer school

## Summer

- Take advantage of summer opportunities: volunteer work, academic opportunities and camps, jobs, and camps
- Visit colleges and look for summer enrichment programs
- Begin to prepare essays and resumes for college applications
- Investigate SAT/ACT test opportunities
- Narrow post high school choices
- Apply for colleges - many applications open July 1 or August 1

## Planning Tips for Sophomores and Freshmen

## August/September

- Verify your high school graduation plan with your counselor
- Verify the courses you are taking align with your post high school plans
- Get involved in clubs and activities on campus
- Utilize Schoolinks and other tools to investigate post high school plans
- Get in the habit of monitoring your grades regularly and attending tutorials as necessary
- Attend NorTex College Fair
- Register and pay for AP Exams

## October/November/December

- Take advantage of free opportunities to prepare for college entrance exams: PSAT, SAT, ACT
- Continue to monitor your grades regularly and attend tutorials as necessary
- Prepare for and take final exams

## January/February

- Discuss next year's courses with your parents, teachers and counselors
- Review PSAT scores and use information to make informed course choices

## March/April

- Continue to utilize Schoolinks to explore post high school options
- Verify course selections for your sophomore/junior year
- Take EOC/STAAR exams

## May

- If necessary, make plans for credit recovery and/or summer school
- Investigate summer opportunities

## Summer

- Take advantage of summer opportunities: volunteer work, academic opportunities and camps, jobs, and camps
- Visit colleges and look for summer enrichment programs
- Create/update resume
- Identify colleges with majors/programs that meet your career interests

## STAAR / EOC

The State of Texas Assessment of Academic Readiness (STAAR) program includes annual assessments for high school students. These assessments are based on the state curriculum standards called the TEKS (Texas Essential Knowledge and Skills). Students are required to meet the passing standard on these five STAAR End of Course (EOC) assessments in order to graduate:

English I<br>English II<br>Algebra I<br>Biology<br>U.S. History

Students have four hours to complete the Algebra I, Biology, and U.S. History tests, and they have five hours each to complete the English I and English II exams, which are combined reading and writing tests. Special accommodations are available to some students who receive special education services.

STAAR EOC assessments do not meet the criteria for credit by examination and are not approved for this purpose. Students who do not earn credit for a course cannot use a passing score on the STAAR/EOC to earn credit for the course.

If a student is enrolled in MS Algebra I Honors in middle school and takes the EOC assessment and meets standard, then the student is not required to retake the EOC in high school.

Additional information on the state's testing program can be found on the Texas Education Agency website: https://tea.texas.gov/Student Testing and Accountability/Testing/State of Texas Assessments of Academic Readiness

The Texas Assessment Agency sets the calendar for STAAR/EOC testing. Current and future testing calendars can be found here:
https://tea.texas.gov/Student Testing and Accountability/Testing/Student Assessment Overview/Testing Cal endars

High School
Assessment Calendar:

Estimated dates for the STAAR / EOC can be found on the high school assessment calendar: https://www.dentonisd.org/secondarycurriculum

## PSAT, SAT, and ACT

Many universities require college entrance exams. The two most widely used are SAT (www.collegeboard.org) and ACT (www.act.org). You can visit their websites for information on fees, registration, preparation, test dates and deadlines, career and college searches, and information management. See your campus counselor for additional information. Let SAT and ACT help keep track of your personal college countdown!

## SAT Readiness Center

College Board and Khan Academy have partnered to help students prepare for the SAT through a personalized free practice program. Log onto the following link for additional information: https://www.khanacademy.org/ Select "Test Prep"

High School Codes for College Entrance Testing

| Denton ISD Campus | Campus Code |
| :---: | :---: |
| Ryan High School | 441950 |
| Denton High School | 441951 |
| Guyer High School | 441946 |
| Fred Moore High School | 441941 |
| Braswell High School | 440018 |
| LaGrone Academy | 440624 |

Preliminary SAT / National Merit Scholarship Qualifying Exam (PSAT)
The PSAT is a "Pre-SAT" test given for practice in the $10^{\text {th }}$ grade. In the $11^{\text {th }}$ grade, the PSAT is used as a qualifying exam for the National Merit. The Board of Trustees of Denton ISD supports the importance of taking the PSAT by providing funds for all high school students to take this exam. All 10th and 11th graders will take the PSAT each year in October, free of charge.

High School
Assessment Calendar:

The PSAT/NMSQT (Preliminary Scholastic Aptitude Test / National Merit Scholarship Qualifying Test) is a standardized test that measures developed verbal, mathematical, and writing abilities important for success in college. It can provide students with valuable information about academic strengths and weaknesses for and help assess personal test taking skills. See the next page and your counselor for more information on how the PSAT can help you better prepare for college admissions. The three tests in the PSAT/NMSQT are the Reading Test, the Writing and Language Test, and the Mathematics Test. For more information regarding the key content features, visit https://collegereadiness.collegeboard.org/psat-nmsqt-psat-10/inside-the-test/key-features.

## Reasons for Taking the PSAT / NMSQT

The PSAT / NMSQT gives students practice for taking the SAT because both tests have the same kinds of questions and similar scores. Taking the PSAT / NMSQT helps students plan for college, gives students an idea of how they will do on a college admission test, and helps them identify colleges that seek students like themselves.

The PSAT / NMSQT lets students compare their ability to do college work with the ability of other college- bound students. After the test, students will receive a PSAT / NMSQT Score Report and their test book so that they can review their own performance.

Taking the PSAT / NMSQT is the first step in entering the scholarship programs conducted by National Merit Scholarship Corporation (NMSC).

## Scholarship Program

The PSAT/NMSQT is the qualifying test for entry to the National Merit Scholarship Program, an academic competition for recognition and scholarships. The PSAT/NMSQT includes a Student Search Service connecting the students to scholarship partners including the American Indian Graduate Center, APIA Scholars, Children of Fallen Patriots, Cobell Scholarship, Coca-Cola Scholars Foundation, Gates Scholarship, Hispanic Scholarship Fund, Horatio Alger Association, Jack Kent Cooke Foundation, The Jackie Robinson Foundation, Marine Corps Scholarship Foundation, Ron Brown Scholar Program, TheDream.US, and the United Negro College Fund.

For more information, visit https://collegereadiness.collegeboard.org/psat-nmsqt-psat-10/scholarships-and-recognition/scholarship-partners-programs.

Selection for these competitions is initially based upon the student's score on the PSAT given during the junior year of high school. In addition, the student must make a comparable score on the SAT, which MUST be taken before December of their senior year in high school.

Other Scholarship and Financial Aid Information

Academic Eligibility Centers

Students interested in playing college sports at a Division I, or II school should visit this NCAA site to learn about initial eligibility and academic standards requirements: http://www.ncaa.org/student-athletes/future/academic-standards-initial-eligibility. Students interested in playing sports at an NAIA college or university should visit the following link to learn more about the specific requirements: https://www.playnaia.org/page/faqs.php

Students should register with the appropriate Eligibility Center at the beginning of their junior year in high school. At the end of the student's junior year, students should request a transcript including six semesters of grades be sent from the high school to the appropriate Eligibility Center. Additionally, students should have their SAT or ACT scores forwarded directly to the Eligibility Center whenever they take the exam. Some students may be eligible for fee waivers. A student who chooses to play at the community or junior college level, must be cleared through the clearinghouse or the student is required to acquire an associate's degree to move on to a Division I school.

High School Codes

Denton ISD's waivable course/exemption list can be found at:
https://www.dentonisd.org/secondarycurriculum

Waivable Courses - No
Pass, No Play Exemption

Advanced Academics

In Denton ISD, advanced level courses are designed to provide students with content and learning experiences that reach greater depths of complexity. Course experiences are made challenging through an emphasis on critical thinking skills and complexity of learning experiences.

Because Denton ISD is committed to the elimination of barriers that restrict access to honors and AP courses, the district offers "open enrollment" so that all students who aspire to grow and be challenged in course content may enroll in these advanced level courses without application or the required completion of advanced assignments. These commitments ensure that our students have access to equitable preparation for academic success.

## Honors Courses

The Denton ISD Honors program gives students the opportunity to challenge themselves academically and prepare themselves for future success in Advanced Placement and Dual Credit courses. The goals of this program include:

- Increasing the number of students who are prepared to access and complete college-level work, like AP and Dual Credit, before leaving high school;
- Improving the rates of college readiness for all students; and
- Expanding high school course offerings in English, mathematics, science, social studies, world languages, and the arts.

## Advanced Placement

The Denton ISD Advanced Placement (AP) program provides students with the opportunity to challenge themselves academically, set themselves apart in the college admissions process, and earn college credit with a successful AP exam score.

The AP courses include a curriculum framework reflecting the nature of the subject; a differentiated curriculum that includes a wider range and greater depth of subject matter than that of the regular course; an emphasis on higher level and critical thinking skills; provision for creative, productive thinking; a focus on cognitive concepts and processes; instructional strategies that accommodate the learning needs of the students involved; and independent as well as guided research.

An examination or portfolio submission for each AP course is available through the College Board, resulting in possible college credit. The AP examination is given in May, and results are sent to the colleges/ universities of the student's choice. Placement and credit are granted by institutions in accordance with their own policies.

More information can be found on the College Board site: https://apstudents.collegeboard.org/getting-credit-placement/search-policies.

## Mathematics Acceleration

In Denton ISD, students are able to accelerate in mathematics. When a student has successfully completed the previous course in the sequence, the student may access the next course in the mathematics pathway. For example, a student who successfully completed MS Algebra I Honors in grade 8 will be able to access Honors Geometry in grade 9, Honors Algebra II in grade 10, Honors Pre-Calculus in grade 11, and so forth.

Sample acceleration pathways for mathematics:

| Course | Typical <br> Grade Level | One Year <br> Accelerated | Two Years <br> Accelerated |
| :--- | :---: | :---: | :---: |
| Algebra I Honors | 9 | 8 | 7 |
| Geometry Honors | 10 | 9 | 8 |
| Algebra II Honors | 11 | 10 | 9 |
| Pre-Calculus Honors or Pre-Calculus DC | 12 | 11 | 10 |
| AP Calculus AB/BC |  | 12 | 11 |
| Calculus I Dual Credit |  |  | 12 |

Students can enroll in AP Statistics, AP Computer Science, and Statistics DC concurrently with other courses in this sequence.

Students accelerated beyond two years may be able to dual enroll in Calculus II at NCTC, TWU, or UNT, but the district does not have crosswalks associated with the course. (Dual enrollment occurs when the district does not offer a state credit for the college course. Dual enrollment courses do not count toward GPA.)

## Earning College Credit in High School

Students in grades 9-12 in Denton ISD have opportunities to earn college credit through the following methods:

- Certain courses taught at the high school campuses, which may include courses termed Dual Credit, Advanced Placement (AP), International Baccalaureate (IB), or college preparatory;
- Enrollment in an AP or dual credit course through the Texas Virtual School Network;
- Enrollment in courses taught in conjunction and in partnership with North Central Texas College, Texas Woman's University, and the University of North Texas, which may be offered on or off campus;
- Enrollment in certain CTE courses taught at the high school campuses or at the LaGrone Academy.

## Important Considerations:

- All of these methods have eligibility requirements and must be approved prior to enrollment in the course.
- Any related expenses associated with any of these methods are the responsibility of the student. Depending on the student's grade level and the course, a state-mandated end-of-course assessment may be required for graduation.
- It is important to know that not all colleges and universities accept credit earned through these methods.
- Students and parents should check with the prospective college or university to determine if a particular course counts toward a student's desired college or university degree plan.

## AP Courses Available in Denton ISD

(Not all courses are available at all campuses.)

AP English Language
AP English Literature
AP Calculus AB
AP Calculus BC
AP Statistics
AP Computer Science A
AP Computer Science
Principles
AP Art History
AP 2-D Art and Design
AP 3-D Art and Design

AP Studio Art: Drawing Portfolio
AP Music Theory
AP Biology
AP Chemistry
AP Physics 1
AP Physics 2
AP Physics C: Electricity and
Magnetism
AP Physics C: Mechanics
AP Environmental Science
AP French Language

AP Latin
AP Spanish Language
AP Spanish Literature
AP German Language
AP Psychology
AP Human Geography
AP World History
AP United States History
AP Government
AP Macroeconomics
AP European History

## Additional Available AP Tests

AP Microeconomics
AP Chinese Language
AP Japanese Language

## Advanced Placement Awards

| Award | Requirements |
| :--- | :--- | :--- |
| AP Scholar | Granted to students who receive scores of 3 or higher on three or more AP Exams. |
| AP Scholar <br> with Honor | Granted to students who receive an average score of at least 3.25 on all AP Exams <br> taken, AND scores of 3 or higher on four or more of these exams. |
| AP Scholar <br> with Distinction | Granted to students who receive an average score of at least 3.5 on all AP Exams <br> taker, AND scores of 3 or higher on five or more of these exams. |

## The AP Exam

Though Denton ISD and the College Board recommend taking the AP course before taking the AP Exam, it is not required (except for AP Seminar and AP Research courses).

From the College Board Website: "To prepare for the exam without taking the course, you should study the skills and content outlined in the course and exam description for your subject, which you can find on the specific course page. For most courses, this document also explains how your knowledge of the course content and skills is assessed on the exams.
"Get to know the exams by reviewing free practice questions. The AP Program releases the free-response questions every year for exams that have them. We also offer free-response questions from past exams along with sample student responses and scoring guidelines so you can see why a real exam taker got the score they did."

## EXPO - Gifted and Talented Program

The EXPO program is the school district's program for gifted and talented students. The initial step in this process is the nomination of the student. Students can be nominated by their teachers, parents, peers, or they may nominate themselves. Following nomination, the students are screened by an established district process.
 Additional information about the program and the identification process can be obtained from the school counselor.

Contact the school counselor for a student application. Nominations at the high school level will be accepted each semester according to the district calendar. Information may be found at http://www.dentonisd.org/expo.

EXPO high school students are serviced through Honors, AP, IB, and Dual Credit. They must be enrolled in at least one of these courses.

# International Baccalaureate Diploma Programme (at Denton High School) 

The Denton High School's International Baccalaureate Programme offers the most rigorous college preparatory work in Denton ISD. Our graduates have attended prestigious Ivy League schools such as Harvard and Princeton as well as other selective programs like those of Boston University, University of California, Berkeley, Johns Hopkins and Stanford. Our students have also earned millions of dollars in scholarships and have maintained a high retention rate once accepted into a four-year college or university.

## Philosophy/ Objectives

The IB Diploma Programme is a challenging two-year course of study designed to meet the needs of highly motivated and talented high school students. It provides students with the intellectual, social, and critical perspective necessary for the international world. Students may enter the IB Diploma Programme at Denton High School beginning in grade 11 and continuing through grade 12. Students in the program will study how to learn, how to analyze, and how to reach considered conclusions about people and other cultures. The IB Programme takes on a special significance today when knowledge continues to expand dramatically and existence in an international community requires understanding and an appreciation of cultural diversity. It is essential, therefore, that academic training provides students with the skills and opportunities that will enable them to succeed in the competitive global society. For maximum success in the IB Diploma Programme, students must begin their second language of choice in their freshman year. American Sign Language does not count as an IB Language choice. Freshmen and sophomores are also highly encouraged to take at least 2 Honors courses. We strongly recommend Diploma Programme students to enroll in Economics or AP Economics during the sophomore year.

## Benefits of the Diploma Programme

- College credit, which has exceeded 40 hours for some students
- Geared at multiculturalism and viewed through a global lens
- Emphasis on extensive writing assignments like those found in university courses
- Fosters 21st century skills such as collaboration, problem-solving, and communication

## Transfers for the IB Programme

Students who are not zoned to attend Denton High School must request a transfer. Transfer request applications may be obtained from the Denton ISD website (www.dentonisd.org/transfer) from April 1 - May 1. Meeting with the IB DP or MYP Coordinator is a requirement for anyone applying for a transfer. In order to maintain transfer status, DP students are required to participate in at least 2 IB Diploma courses in both the 11th and 12th grades.

## Texas Legislation and the IB Programme

Senate Bill 111 (2005) awards Texas seniors earning the IB Diploma with scores of 4 or better a total of 24 semester credit hours at any Texas public institution of higher education.

## For More Information

Beth Hughes, IB DP Coordinator 940-369-2238, bhughes@dentonisd.org,http://www.dentonisd.org/dhslB

## IB Course Offerings

Students select 3 HL (Higher Level) and 3 SL (Standard Level). Full Diploma Programme candidates must choose 1 course from Groups 1-5 plus 1 course from Groups 6 or a second course from Groups 2-4. See a list of specific course descriptions on page 110 of this planning guide, including information on the IB Theory of Knowledge and IB Extended Essay (CAS) courses.

## Group 1: Studies in Language and Literature

- IB English Language and Literature HL (Higher Level, Y1 and Y2)

## Group 2: Language Acquisition

- IB Spanish SL/HL (Standard Level and Higher Level)
- IB Spanish V HL (Higher Level, Y2)
- IB French IV SL (Standard Level)
- IB French V HL (Higher Level, Y2)
- IB German IV SL (Standard Level)
- IB Latin IV SL (Standard Level)
- IB Latin V HL (Higher Level, Y2)

## Group 3: Individuals and Societies

- IB History of the Americas HL (Higher Level, Y1 and Y2)

## Group 4: Sciences

- IB Physics SL (Standard Level, Y1 and Y2)
- IB Biology SL/HL (Standard Level and Higher Level)
- IB Chemistry SL (Standard Level)
- IB Environmental Systems and Societies SL (Standard Level) Note: May also count as Group 3 offering.
- IB Computer Science HL (Higher Level, Y1 and Y2)

Note: For graduation requirements in Texas, Computer Science may count as a math credit but does not count as a science credit.

## Group 5: Mathematics

- IB Mathematics: Analysis and Approaches SL (Standard Level)
- IB Mathematics: Applications and Interpretation SL (Standard Level)

## Group 6: The Arts

- IB Dance SL/HL (Standard Level and Higher Level)
- IB Music SL (Standard Level and Higher Level)
- IB Theatre Arts SL/HL (Standard Level and Higher Level)
- IB Visual Arts SL/HL (Standard Level and Higher Level)
- IB Film SL/HL (Standard Level and Higher Level)

## Sample IB Schedules

| Junior Year | Senior Year |
| :---: | :---: |
| - IB English III HL, Year 1 <br> - IB Language Acquisition Choice III or IV SL <br> - IB History of the Americas Year 1 HL <br> - IB Biology Year 1 HL, or Physics Year 1 SL <br> - Honors Algebra II, IB Math Analysis SL, IB Math <br> Applications SL, or Dual Credit Pre-Cal <br> - IB Arts Course SL/HL <br> - IB Research - Fall Semester <br> - Theory of Knowledge - Spring semester <br> - Choice Class or Dismiss | - IB English IV HL, Year 2 <br> - IB Language Acquisition Choice IV SL or V HL <br> - IB History of the Americas, Year 2 HL <br> - IB Biology HL, Environmental Systems and Society SL, IB Physics SL Year 2, IB Chemistry SL <br> - IB Math Analysis SL or IB Math Applications SL <br> - IB Arts Course SL/HL <br> - Theory of Knowledge - Fall Semester <br> - IB Research - Spring semester <br> - Choice Class or Dismiss |

The Texas Higher Education Coordinating Board defines dual credit as a process by which a high school student enrolls in a college course and receives simultaneous credit for the course from both the college and the high school. Dual credit courses may be taught on the secondary school campus by an approved instructor or a high school student may take a dual credit course on the college campus. Dual credit courses include both academic courses as well as technical courses.

In Denton ISD, the dual credit program is a cooperative program between the Denton Independent School District, Texas Woman's University (TWU), the University of North Texas (UNT), and North Central Texas College (NCTC). The credit earned in these courses is counted for both high school and college credit. To qualify for this program, a student must have a GPA of 2.5 and meet the college readiness assessment standard of the Texas Success Initiative (TSIA2) or meet the waiver by scoring the minimum requirement on the PSAT, SMSAT, or STAAR. (See the TSI page in this course planning guide for additional information.)

Students must be accepted into the college or university (TWU, UNT, or NCTC). Students are required to complete the dual credit form and the Apply Texas application. Gaining the approval of the high school counselor is part of the application process.

- Students are required to abide by the rules and regulations of both institutions.
- The student is responsible for the payment of all tuition, books, and fees.
- The student provides transportation if the course is offered only at the university or college.
- The course will be counted as part of the student's daily schedule.
- The grade earned will be designated on the high school transcript.
- While this course will earn university credit and will be recorded on a formal transcript, the transferability of this course to another university rests solely with the accepting institution. Students should consult the admissions officers of the appropriate institution for information regarding the transfer of credits. The Texas Common Course Numbering System provides some helpful information - https://www.tccns.org/.
- Students must earn a C or higher in dual credit courses to be eligible to continue to take additional dual credit courses in the same subject area.
- Students must check with their counselor BEFORE pursuing a college course to be certain it has been approved for high school credit and for any additional information.

Students can only take a dual credit course when they would be typically eligible to take the non-dual credit version of the same course.

Note: One semester courses taken at the college or university in the summer are transcribed as .5 high school credits.

## Models of Dual Credit Courses in Denton ISD

| Model | University | App. Fee | $\begin{array}{l}\text { Tuition/ Fees } \\ (3 \text { hours) }\end{array}$ | $\begin{array}{l}\text { Free and Reduced Lunch } \\ \text { Students }\end{array}$ |

[^2]TSIA 2 - Texas Success Initiative

In Texas, students who demonstrate college readiness can enroll in dual credit courses while in high school. Students can demonstrate college readiness by achieving the minimum passing standard on the Texas Success Initiative Assessment 2.0 - Accuplacer or by gaining an exemption or waiver. A waiver allows a student to enroll in dual credit courses but will not automatically make them TSIA2 complete upon graduation from high school.

TSI Assessment 2.0 Minimum Passing Standards

| Reading | Writing | Mathematics |
| :---: | :--- | :--- |
| 351 or above | A score of 5 on the essay section or a score of 4 on the <br> essay and a minimum score of 340 on the multiple- <br> choice section | 350 or above |

Required Scores for TSI Exemptions and Waivers

In Texas, students are considered to have reached "college, career, and military readiness" when they have met one of the success criteria identified by the Texas Education Agency. Denton ISD is committed to helping each student reach one or more of these criteria, so they are prepared for the future they plan to have in college, the workforce, or the military.

The Fine Arts incorporate the study of dance, music, theatre, and visual arts to offer unique experiences and empower students to explore realities, relationships, and ideas. These disciplines engage and motivate all students through active learning, critical thinking, and innovative problem solving.

Data from The College Board shows that students who take four years of arts and music classes while in high school score 98 points better on their SATs than students who took only one-half year or less. In Denton ISD, Fine Arts students score higher on STAAR, EOC, ACT, \& SAT tests. Students enrolled in an upper level fine arts course scored higher on the SAT or ACT test. In Texas, and in Denton ISD, one full year of fine arts is required for graduation.

The fine arts develop cognitive functioning and increase student academic achievement, higher-order thinking, communication, and collaboration skills, making the fine arts applicable to college readiness, career opportunities, workplace environments, social skills development, and everyday life. Students develop aesthetic and cultural awareness through exploration, leading to creative expression. Creativity, encouraged through the study of the fine arts, is essential to nurture and develop the whole child.

Visual arts develop observation and perception, creative expression, exploring historical and cultural relevance, and critical evaluation and response. Students rely on personal observations and perceptions, which are developed through increasing visual literacy and sensitivity to surroundings, communities, memories, imaginings, and life experiences as sources for thinking about, planning, and creating original artworks. Students communicate their thoughts and ideas with innovation and creativity.

Students have access to various bands, choirs, and orchestras that develop music literacy, creative expression, historical and cultural relevance, and critical evaluation and response. The foundation of music literacy is fostered through reading, writing, reproducing, and creating music, thus developing a
 student's intellect. Through critical listening, students analyze, evaluate, and respond to music, developing criteria for making critical judgments and informed choices.

Students have access to dance where they explore perception, creative expression, historical and cultural relevance, and critical evaluation and response. Dance students develop perceptual thinking and movement abilities in daily life, promoting an understanding of themselves and others. Students develop movement principles and technical skills and explore choreographic and performance qualities. Students develop selfdiscipline and healthy bodies that move expressively, efficiently, and safely through space and time with a sensitive kinesthetic awareness.

Theatre students explore inquiry and understanding, creative expression, historical and cultural relevance, and critical evaluation and response. Students develop a perception of self, human relationships, and the world. Students communicate in dramatic forms, engage in artistic thinking, build positive self-concepts, relate interpersonally, and integrate knowledge with other content areas in a relevant manner.

## Student Leadership in Fine Arts

Performing and Visual Arts provide opportunity for students to exercise leadership skills through creativity, communication strategies, and public performance. The arts offer unique opportunity for innovation, problem solving, and critical analysis. Denton ISD has affiliations with various state organizations to support students in development of leadership skills:

## TMEA (Texas Music Educators Association)

Students in high school band, choir, and orchestra classes have the opportunity to audition for the TMEA AllRegion and All-State bands, choirs, and orchestras according to the TMEA rules governing the audition process. Students selected to All-Region and All-State bands, choirs, or orchestras perform with the state's top student musicians and learn from world-class conductors. All-State students attend and perform at the annual TMEA Convention, the largest music education event of its kind, where they gain access and connections to music schools, colleges, and conservatories from around the world. TMEA also sponsors the Texas Music Scholar Award designating students in high school music programs who exemplify attributes of meritorious performance in the areas of academic scholarship, musicianship, and citizenship.

## UIL (University Interscholastic League)

The UIL is designed to support and enrich music and theatre education as an integral component of the public school curriculum in the state of Texas. Each year, Denton ISD students have the opportunity to participate among approximately one half million secondary school students and reap the benefits of participation in these UIL events: One Act Play, concert and sight-reading assessments, solo and ensemble contests, and marching band contests.

## Texas Thespians/International Thespian Society

The International Thespian Society is an organization designed to support theatre education and provides students the opportunity to compete through various individual events, including solo, duet and group acting, pantomime, musical theatre, costume, lighting, and scenic design, and marketing. Students learn from world class theatre artists and have the opportunity to qualify for international competition. In addition, students have opportunity to explore the arts as a profession, audition for university programs, and scholarship opportunities. Citizenship and volunteerism are also opportunities through the Thespian organization. The Thespian Honor Society recognizes exemplary theatre students.

## TFME (Texas Future Music Educators)

TFME was established by the Texas Music Educators Association to support students who have an interest in a music education career. The purpose of the chapters is for members to provide service to their school music programs and to prepare for entry into college music programs. TFME chapters meet at least four times per year and provide services to their school's musical organizations. Members explore the possibility of becoming a college music education major and TFME members who have preregistered may attend the annual TMEA Clinic/Convention.

More information on the Denton ISD Fine Arts program can be found at https://www.dentonisd.org/finearts.
For information specific to your campus about scheduling fine arts across multiple endorsements, and/or creating a four year plan that includes fine arts combined with CTE or athletics visit this link: https://www.dentonisd.org/domain/12768.

Career and Technical Education

Career and Technical Education courses are designed to prepare students in the technical and professional skills necessary to succeed in today's high-demand occupational environment. Career and Technical Education can help a student explore his/her potential and establish future career goals. Our mission is to provide a positive difference in the lives of our students by making connections through technology-rich, academically rigorous curriculum and real-world applications that empower our students to become contributing members of the global community. Questions concerning any of the following courses or requests for career information may be directed to any of the Career Counselors or CTE Director. For additional CTE information visit our website at www.dentonisd.org/CTE.

## LaGrone Academy

Denton ISD's LaGrone Academy is a professional training facility to prepare high school students for today's and tomorrow's high demand careers. This state-of-theart facility provides professional training, industry certification preparation and opportunities for college credit. Students can elect to attend LaGrone Academy fulltime or part-time.

Classes at the LaGrone Academy have fees associated with them for lab materials, supplies and professional certification examinations. Placement is not guaranteed.

-ACADEMY Student's attendance, behavior and grades may be considered in course placement with an expectation of maintaining these areas while attending. Buses will be available for student transportation to and from LaGrone Academy. Students can drive to LaGrone Academy if in compliance with Denton ISD District Policy. Courses at LaGrone Academy are double-blocked (two class periods). Students will complete one full credit per semester.

If you have questions or need more information, contact Principal Marcus Bourland at 940-369-4850.

## Academic Credit for Career and Technical Education

Students may choose from the following options for required academic credit:

## Science

- Food Science, Grade Level 12, 1 Credit
- Advanced Animal Science, Grade Level 11-12, 1 Credit
- Forensic Science, Grade Level 11-12, 1 Credit (Location: LaGrone Academy)
- Practicum in STEM, Grade Level 12, 1 Credit (Location: LaGrone Academy)
- Anatomy and Physiology, Grade Level 11-12, 1 Credit

## Math

- Accounting, Grade Level 11-12, 1 Credit

## Fine Arts

- Floral Design, Grade Level 10-12, 1 Credit

## Student Leadership in CTE

Leadership training is an essential component in Career and Technical programs. Career and Technical Student Organizations serve as a cohesive agent in the worldwide networking of education, business, and industry. Competitive events enhance career preparation, workplace competencies, self-confidence, and the instructional program.

BPA (Business Professionals of America) - BPA is a student organization that contributes to the advancement of leadership, citizenship, personal growth, as well as academic and technological skills.

DECA (Marketing) - DECA is a student organization which provides well-planned activities that can be integrated into the curriculum and projects that promote occupational competence for students. DECA is committed to building relationships between education and the business community that will enhance the career and educational development of students.

FCCLA (Family, Career, and Community Leaders of America) - FCCLA is a student organization that provides opportunities for personal growth and leadership development through Family and Consumer Sciences Education. Focusing on the multiple roles of family member, wage earner, and community leader, FCCLA members develop skills for life through personal development, creative and critical thinking, interpersonal communications, practical knowledge, and career preparation.

FFA (National FFA Organization) - FFA makes a positive difference in the lives of students by developing their potential for premier leadership, personal growth and career success through agricultural education.

HOSA (Health Occupations Students of America) - HOSA is a student organization that provides opportunities for leadership development, knowledge and skill recognition through the competitive events program and community service projects. By networking with health care professionals, students receive guidance in selecting and pursuing a health career.

NTHS (National Technical Honor Society) - A nationally recognized honor organization with thousands of member schools and colleges. Students must meet membership standards and should be persons who have demonstrated scholastic achievement, skill development, leadership, honesty, responsibility, and good character. NTHS Technical Student Membership is an important career and professional investment recognized by education, business and industry.

TAFE (Texas Association of Future Educators) - TAFE is a statewide leadership organization that encourages students to learn about careers in education and assists them in exploring the teaching profession while promoting character, service and leadership skills.

TSA (Technology Student Association) - TSA is a student organization that enhances personal development, leadership, and career opportunities in STEM, whereby members apply and integrate these concepts through intracurricular activities, competitions, and related programs. Leadership training is provided through curriculum activities in which students learn to conduct and participate constructively in organized meetings, speak effectively before groups, work cooperatively with others, solve problems, and compete as individuals. TSA assists students in the achievement of technologically related competencies in the areas of bio-related technology, communication, engineering, electronics, graphics design, manufacturing, and research and development.

SKILLS USA - SKILLS USA/VICA is a national organization preparing students for careers in trade, technical and skilled service occupations, including health science occupations. As an integral part of the instructional program, Skills USA activities enhance and expand classroom instruction to ensure that America has a skilled workforce.

## English Language Arts Course Descriptions

Texas Essential Knowledge and Skills (TEKS) - HERE

| SLAE1R <br> English I <br> Grade Level-9 <br> Credits - 1 <br> Prerequisite - None | English I combines the interconnectedness of listening, speaking, reading, writing, and thinking through a focus on seven language skills: comprehension, response, multiple genres, author's purpose and craft, composition, and inquiry and research. The course places an emphasis on reading traditional, contemporary, classical and diverse selections, as well as analyzing and responding to American, British, and world literature while writing literary, argumentative, and informational texts. |
| :---: | :---: |
| SLAE1H <br> English I Honors <br> Grade Level - 9 <br> Credits - 1 <br> Prerequisite - None | Honors English I is designed to provide learning experiences that reach a depth of complexity that prepares students for future success in Advanced Placement and Dual Credit courses. Like English I, Honors English I combines the interconnectedness of listening, speaking, reading, writing, and thinking through a focus on seven language skills: comprehension, response, multiple genres, author's purpose and craft, composition, and inquiry and research. The course places an emphasis on reading traditional, contemporary, classical and diverse selections, as well as analyzing and responding to American, British, and world literature while writing literary, argumentative, and informational texts. |
| SLAS1S <br> English I ESOL <br> Grade Level - 9 <br> Credits - 1 <br> Prerequisite - LPAC Placement | English I ESOL is a beginning level (newcomer) course that combines English I standards with English language acquisition learning strategies and methodology. The year-long program develops skills in listening, speaking, reading, writing, viewing, representing, and culture. For graduation requirement purposes, this course may serve as a substitute for English I. |
| SLAE1S <br> English I ESL <br> Grade Level - 9 <br> Credits - 1 <br> Prerequisite - LPAC Placement | English I ESL is an intermediate level course that combines English I standards with English language acquisition learning strategies and teaching methods. The year-long program develops skills in listening, speaking, reading, writing, viewing, representing, and culture. For graduation requirement purposes, this course may serve as a substitute for English I. |
| SLAE2R <br> English II <br> Grade Level - 10 <br> Credits - 1 <br> Prerequisite - English I | English II combines the interconnectedness of listening, speaking, reading, writing, and thinking through a focus on seven language skills: comprehension, response, multiple genres, author's purpose and craft, composition, and inquiry and research. The course places an emphasis on reading traditional, contemporary, classical and diverse selections, as well as analyzing world literature. Writing work focuses on writing in response to reading and writing literary, argumentative, and informational texts. |
| SLAE2H <br> English II Honors <br> Grade Level - 10 <br> Credits - 1 <br> Prerequisite - English I <br> (Honors recommended) | Honors English II is designed to provide learning experiences that reach a depth of complexity that prepares students for future success in Advanced Placement and Dual Credit courses. Like English II, Honors English II combines the interconnectedness of listening, speaking, reading, writing, and thinking through a focus on seven language skills: comprehension, response, multiple genres, author's purpose and craft, composition, and inquiry and research. The course places an emphasis on reading traditional, contemporary, classical and diverse selections, as well as analyzing world literature. Writing work focuses on writing in response to reading and writing literary, argumentative, and informational texts. |

| SLAS2S <br> English II ESOL <br> Grade Level - 10 <br> Credits - 1 <br> Prerequisite - LPAC Placement | English II ESOL is a beginning level (newcomer) course that combines English II standards with English language acquisition learning strategies and methodology. The year-long program develops skills in listening, speaking, reading, writing, viewing, representing, and culture. For graduation requirement purposes, this course may serve as a substitute for English II. |
| :---: | :---: |
| SLAE2S <br> English II ESL <br> Grade Level - 10 <br> Credits - 1 <br> Prerequisite - LPAC Placement | English II ESL is an intermediate level course that combines English II standards with English language acquisition learning strategies and teaching methods. The year-long program develops skills in listening, speaking, reading, writing, viewing, representing, and culture. For graduation requirement purposes, this course may serve as a substitute for English II. |
| SLAE3R <br> English III <br> Grade Level - 11 <br> Credits - 1 <br> Prerequisite - English II | English III combines the interconnectedness of listening, speaking, reading, writing, and thinking through a focus on seven language skills: comprehension, response, multiple genres, author's purpose and craft, composition, and inquiry and research. The course places an emphasis on reading, analyzing, and evaluating American literature through the use of traditional, contemporary, classical and diverse texts. Writing work includes literary analysis and rhetorical analysis along with literary, argumentative, and informational texts. |
| SLAE3S <br> English III ESL <br> Grade Level - 11 <br> Credits - 1 (Local: 1) <br> Prerequisite - LPAC Placement | English III ESL is an intermediate level course that combines English III standards with English language acquisition learning strategies and teaching methods. The year-long program develops skills in listening, speaking, reading, writing, viewing, representing, and culture. For graduation requirement purposes, this course may serve as a substitute for English III. |
| SLAE3P <br> AP English III: <br> Language and Comp <br> Grade Level - 11 <br> Credits - 1 <br> Prerequisite: English II <br> (Honors English II recommended) | AP English Language and Composition is an introductory college-level composition course. Students cultivate their understanding of writing and rhetorical arguments through reading, analyzing, and writing texts as they explore topics like rhetorical situation, claims and evidence, reasoning and organization, and style. |

Fall Semester - Composition I. Intensive study of and practice in writing processes, from invention and researching to drafting, revising, and editing, both individually and collaboratively. Emphasis on effective rhetorical choices, including audience, purpose, arrangement, and style. Focus on writing the academic essay as a vehicle for learning, communicating, and critical analysis. [TWU ENG 1013 and NCTC ENGL 1301]

Spring Semester - Composition II. (Prerequisite: ENGL 1301 or equivalent) Intensive study of and practice in the strategies and techniques for developing research-based expository and persuasive texts. Emphasis on effective and ethical rhetorical inquiry, including primary and secondary research methods; critical reading of verbal, visual, and multimedia texts; systematic evaluation, synthesis, and documentation of information sources; and critical thinking about evidence and conclusions. [TWU ENG 1023 and NCTC ENGL 1302]

SLAE3D
English III Dual Credit:
Composition

Grade Level - 11
Credits - 1
Prerequisite: English II

English II ESOL is a beginning level (newcomer) course that combines English II standards with English language acquisition learning strategies and methodology. The year-long program develops skills in listening, speaking, reading, writing, viewing, representing, and culture. For graduation requirement purposes, this course may serve as a substitute for English II.

English II ESL is an intermediate level course that combines English II standards with English language acquisition learning strategies and teaching methods. The year-long program develops skills in listening, speaking, reading, writing, viewing, representing, and culture. For graduation requirement purposes, this course may serve as a substitute for English II.

English III combines the interconnectedness of listening, speaking, reading, writing, and thinking through a focus on seven language skills: comprehension, response, multiple genres, author's purpose and craft, composition, and inquiry and research. The course places an emphasis on reading, analyzing, and evaluating American literature through the use of traditional, contemporary, classical and diverse texts. Writing work includes literary analysis and rhetorical analysis along with literary, argumentative, and informational texts.

English III ESL is an intermediate level course that combines English III standards with English language acquisition learning strategies and teaching methods. The year-long program develops skills in listening, speaking, reading, writing, viewing, representing, and culture. For graduation requirement purposes, this course may serve as a substitute for English III.

AP English Language and Composition is an introductory college-level composition course. Students cultivate their understanding of writing and rhetorical arguments hrough reading, analyzing, and writing texts as they explore topics like rhetorica situation, claims and evidence, reasoning and organization, and style.

| SLAE4R | English IV combines the interconnectedness of listening, speaking, reading, writing, and |
| :--- | :--- |
| English IV | thinking through a focus on seven language skills: comprehension, response, multiple |
| grade Level - 12 | genres, author's purpose and craft, composition, and inquiry and research. The course |
| predits - 1 |  |
| pres an emphasis on reading, analyzing, and critiquing British literature through the |  |
| use of traditional, contemporary, classical and diverse selections. Writing work includes |  |
| literary analysis and rhetorical analysis along with literary, argumentative, and |  |
| informational texts. |  |

| SERI1R | Reading Improvement offers students reading instruction to successfully navigate academic demands as well as attain life-long literacy skills. Specific instruction in word recognition, vocabulary, comprehension strategies, and fluency provides students an opportunity to read with competence, confidence, and understanding. Students learn how traditional and electronic texts are organized and how authors choose language for effect. All of these strategies are applied in instructional-level and independent-level texts that cross the content areas. |
| :---: | :---: |
| Reading Improvement I |  |
| Grade Level - 9 |  |
| Credits - .5-1 |  |
| Prerequisite - Counselor Rec |  |
| SERI2R |  |

| Credits - .5-1 |  |
| Prerequisite - LPAC Placement |  |
| SEAL1R | This elective course, taken in conjunction with English I or II, is a year-long academic support course designed to prepare students for greater success in reading and writing. Students will read and write widely while learning appropriate and effective application of grammar, comprehension of complex texts, responding to reading through writing, and effective use of vocabulary. Students will understand the recursive and interrelated nature of reading and writing. (Students earn .5 credit of Reading I and .5 credit of Practical Writing) |
| Accelerated ELA I |  |
| Grade Level - 9 |  |
| Credits - 1 |  |
| Prerequisite - Counselor Rec |  |
| SEAL2R |  |
| Accelerated ELA II |  |
|  |  |
| Credits-1 |  |
| Prerequisite - Counselor Rec |  |
| SEPS1R | Public Speaking I and II focus on preparing and presenting public messages and analyzing and evaluating the messages of others. Students will examine areas such as invention, organization, style, memory, and delivery. Gaining an understanding of public dialogue and its role in the civic process will help students gain skills in reading, writing, listening, speaking, and thinking. |
| Public Speaking I |  |
| Grade Level - 9-12 |  |
| Credits - 1 |  |
| Prerequisite - None |  |

| SEPS2R |  |
| :---: | :---: |
| Public Speaking II |  |
| Grade Level - 10-12 <br> Credits - 1 <br> Prerequisite - None |  |
| SEDB1R <br> Debate I <br> Grade Level - 9-12 <br> Credits - 1 <br> Prerequisite - None | Debate is a specialized course that trains the student to analyze current social, political, and economic problems. Students develop analytical skills, quick thinking, research techniques, strategies, and the ability to defend worthy ideas. The course additionally addresses logic and reasoning and refutation with persuasive delivery through classroom debates. Students compete with their peers from other schools in the region. |
| SEDB2R <br> Debate II <br> Grade Level - 10-12 <br> Credits - 1 <br> Prerequisite - Debate I and Instructor Approval | The skills of Debate I will continue to be emphasized. In addition, students will learn advanced debating strategies and topic analysis, study a variety of philosophers and philosophies, and practice advanced researching and case- writing skills. Outside practice and tournament participation are required. |
| SEDB3R <br> Debate III <br> Grade Level - 11-12 <br> Credits - 1 <br> Prerequisite - Debate II and Instructor Approval | The skills of Debate I and II will continue to be emphasized. In addition, students will practice more sophisticated skills in topic analysis, research, case writing, and debating strategies. Strong emphasis is placed on independent study. Outside practice and tournament participation are required. |
| SEJRNR <br> Journalism I <br> Grade Level - 9-12 <br> Credits - 1 <br> Prerequisite - None | The course covers essential components and characteristics of newspaper journalistic writing including news stories, features, editorials, and headlines. This course will also stress the techniques of observation, interviewing, reporting, and ethics in the media. In addition, proofreading, editing, and print layout will be covered. Students interested in eventually joining the school newspaper staff and/or yearbook staff should take this course. |
| SEJPJR <br> Photojournalism <br> Grade Level - 9-12 <br> Credits-1 <br> Prerequisite - None | Photojournalism introduces students to the world of photography and journalism. The law, ethics, and history of photography will complement the major units of study: operation and care of the camera, composing and taking photos, film and print processing, teamwork, and management skills. |

Prerequisite - By application
Advanced Journalism Newspaper Production I, II, and III are designed to allow students to apply photography, design, plans, writing, and editing used in the high school newspaper. Staff members are chosen by the adviser in the spring of each year. See journalism teacher for application.

Prerequisite - By application
Advanced Journalism Yearbook Production I, II, and III are designed to allow students to apply photography designs, plans, writing, and editing used in the high school yearbook. Staff members are chosen by the adviser in the spring of each year. See journalism teacher for application.

Students need to be critical viewers, consumers, and producers of media. The ability to access, analyze, evaluate, and produce communication in a variety of forms is an important part of language development. High school students enrolled in this course will apply and use their journalistic skills for a variety of purposes. Students will learn the laws and ethical considerations that affect broadcast journalism; learn the role and function of broadcast journalism; critique and analyze the significance of visual representations; and learn to produce by creating a broadcast journalism product.

## Special Education English Language Arts Course Descriptions

The following courses are for students who meet the eligibility requirements for special education services. Enrollment is based on Admission, Review, and Dismissal (ARD) Committee decision and instructional arrangement.

| SLAE1X <br> English I ALT <br> Grade Level - 9 <br> Credits - 1 <br> Prerequisite - None | English 1 ALT stresses the genre approach to literature and provides a year-long program of interrelated language skills with study in the areas of reading, writing, speaking, and listening. The course focuses on prerequisite skills and includes a study of literature and creative writing. English 1 ALT students are given an opportunity to refine the skills tested on STAAR. |
| :---: | :---: |
| SLAE2X <br> English II ALT <br> Grade Level - 10 <br> Credits - 1 <br> Prerequisite - English 1 ALT | English 2 ALT reviews the literary genres within the context of world literature. The language study focuses on prerequisite skills and stresses the four major writing styles of description, exposition, narration, and persuasion. Vocabulary development, language usage, grammar, and elements of style receive special priority in the study of both literature and language. |
| SLAE3X <br> English III ALT <br> Grade Level-11 <br> Credits - 1 <br> Prerequisite - English 2 ALT | English 3 ALT balances the study of literature, composition, and language while focusing on the prerequisite skills of the fundamentals of composition and sentence structure employed in effective writing. English 3 ALT studies American literature from the beginning of literary development in the United States through contemporary times. The course integrates writing skills with the study of literature and the research process. |
| SLAE4X <br> English IV ALT <br> Grade Level - 12 <br> Credits - 1 <br> Prerequisite - English 3 ALT | English 4 ALT introduces well-known British authors, their works and the thoughts that shape them. The course exposes students to the history and development of the English language, the art of critical thinking and writing, and focuses on prerequisite skills for grammatical structures that aid in effective communication. |
| SERIIX <br> Reading Improvement I ALT |  |
| Grade Level - 9-12 <br> Credits - 1 <br> Prerequisite - None <br> SERI2X <br> Reading Improvement II ALT <br> Grade Level - 10-12 <br> Credits - 1 <br> Prerequisite - None | Reading Improvement ALT focuses on prerequisite skills and the development of strategies to decode written language in all content areas by applying context clues and structural analysis. Through guided and independent reading and thorough collaboration with each other, students will experience success in listening, reading comprehension, and writing in response to literature. Emphasis will be placed on reading flexibility according to purpose, including reading for information and reading for pleasure. These courses serve as a Foreign Language substitute. |

## Mathematics Courses

In Denton ISD, students are able to accelerate in mathematics. When a student has successfully completed the previous course in the sequence, the student may access the next course in the mathematics pathway. For example, a student who successfully completed MS Algebra I Honors in grade 8 will be able to access Honors Geometry in grade 9, Honors Algebra II in grade 10, Honors Pre-Calculus in grade 11, and so forth.

| Local Course ID | Course | Grade Level | Credits |
| :---: | :---: | :---: | :---: |
| SMAA1R | Algebra I | 9 | 1 |
| SMAA1H | Algebra I Honors | 9 | 1 |
| SMAA1S | ESL Algebra I (Speakers of Other Languages) | 9 | 1 |
| SMAGER | Geometry | 10 | 1 |
| SMAGEH | Geometry Honors | 10 | 1 |
| SMAGES | Geometry ESL (Speakers of Other Languages) | 10 | 1 |
| SESLMR | Strategic Learning for High School Math | 9-10 | .5-1 |
| SESLMS | Strategic Learning for HS Math ESL - Newcomer | 9-10 | .5-1 |
| SESLNS | Strategic Learning for HS Math ESL | 9-10 | .5-1 |
| SMAMMR | Mathematical Models with Applications | 10-11 | 1 |
| SMAA2R | Algebra II | 11-12 | 1 |
| SMAA2H | Algebra II Honors | 11-12 | 1 |
| SMAA2S | ESL Algebra II (Speakers of Other Languages) | 11-12 | 1 |
| SMAPCR | Pre-Calculus | 12 | 1 |
| SMAPCH | Pre-Calculus Honors | 12 | 1 |
| SMAPCD | Pre-Calculus Dual Credit | 12 | 1 |
| SMAAQR | Advanced Quantitative Reasoning (AQR) | 11-12 | 1 |
| SMACAP | AP Calculus AB | 12 | 1 |
| SMACBP | AP Calculus BC | 12 | 1 |
| SMACAD | Calculus Dual Credit | 12 | 1 |
| SMASTR | Statistics | 11-12 | 1 |
| SMASTP | AP Statistics | 11-12 | 1 |
| SMASTD | Statistics Dual Credit | 12 | 1 |
| SMACPO | College Preparatory Mathematics | 12 | 1 |

## Special Education Mathematics Courses

| SMAGEF | Geometry DE | 10 | 1 |
| SMAA2F | Algebra II DE | 11-12 | 1 |

## Career and Technology Education/Mathematics Courses

The following CTE course may count as a fourth year of math.
SC348R Accounting II

## Mathematics Course Descriptions <br> Texas Essential Knowledge and Skills (TEKS) - $\underline{\text { HERE }}$

| SMAA1R <br> Algebra I <br> Grade Level - 9 <br> Credits - 1 <br> Prerequisite - Math 8 | This course is the "gateway" math course and is a prerequisite for every other math course offered in high school. This is a function-based course that develops the structure of the real number system in a variety of ways. Students learn to solve and graph linear equations and inequalities, translate among and use algebraic, tabular, and graphical methods to represent linear and quadratic functions and to solve systems of equations. Students investigate, describe, and predict the effects of changes on the graphs of linear and quadratic functions and relate direct variation to linear functions and solve problems involving proportional change. Students are taught to use algebra in real life applications with the appropriate use of graphing calculators. |
| :---: | :---: |
| SMAA1H <br> Algebra I Honors <br> Grade Level - 9 <br> Credits - 1 <br> Prerequisite - Math 8 | Honors Algebra I provides a course of study for students who are interested in studying algebra at an enriched level. The basic content is the same as Algebra I, but emphasis is placed upon real numbers and their operations, the language of algebra, and quadratic functions. Applications of algebraic concepts to problem solving are also stressed. |
| SMAA1S <br> Algebra I ESL <br> Grade Level - 9 <br> Credits - 1 <br> Prerequisite - LPAC Placement | ESL Algebra I integrates all the concepts taught in Algebra I with second language skills for immigrant and non-immigrant students. Additional emphasis will be placed on the acquisition of mathematics vocabulary. |
| SMAGER <br> Geometry <br> Grade Level - 10 <br> Credits - 1 <br> Prerequisite - Algebra I | Geometry is designed to develop thinking skills, logic problem solving, application of algebraic skills to geometric problems, and proofs based on deductive reasoning. Students use coordinate, transformational, and axiomatic approaches to develop an understanding of a variety of concepts including polygon congruence, similarity, angle relationships in polygons and circles, parallel and perpendicular lines, and the relationships between three dimensional figures. Formulas including distance, midpoint, perimeter, area, surface area, and volume. Students will also compare Euclidean and non-Euclidean geometries. |
| SMAGEH <br> Geometry Honors <br> Grade Level - 10 <br> Credits - 1 <br> Prerequisite - Algebra I | Honors Geometry provides an enriched course of study for students who are interested in studying geometry at a deeper level. The basic content is the same as Geometry, but emphasis is placed upon the development of logical thinking through complex geometric proofs. Applications of geometric concepts to problem solving using algebra and trigonometry are also stressed. |
| SMAGES <br> Geometry ESL <br> Grade Level - 10 <br> Credits - 1 <br> Prerequisite - LPAC Placement | ESL Geometry integrates all concepts taught in Geometry with second language acquisition skills for immigrant and non-immigrant students. Additional emphasis will be placed on the acquisition of mathematics vocabulary. |

| SESLMR | This is a math elective course taken for state elective credit. (It does not count as a math graduation credit.) The basic understandings of the course encourage students to think about their approach to mathematical learning. These basic understandings include identifying errors in the teaching and learning process, input errors, physiological concerns, and key cognitive skills. The essential knowledge and skills will foster a deeper understanding of the task of learning mathematical concepts. This course best serves students who may have not always been successful in mathematics, including students who did not meet standard on STAAR Math 8. |
| :---: | :---: |
| Strategic Learning for High School Mathematics |  |
| Grade Level - 9-10 <br> Credits - .5-1 <br> Prerequisite - Concurrent enrollment in Algebra I and/or Geometry |  |
| SESLMR <br> Strategic Learning for High School Mathematics - ESL Newcomers <br> (This course is for Newcomer English Learners.) |  |
| Grade Level - 9-10, Credits - .5-1 <br> Prerequisite - Concurrent <br> enrollment in Algebra I and/or <br> Geometry + LPAC placement |  |
| SESLMR <br> Strategic Learning for High School Mathematics - ESL <br> (This course is for English Learners with $3+$ years of schooling in the United States. |  |
| Grade Level - 9-10, Credits - .5-1 <br> Prerequisite - Concurrent <br> enrollment in Algebra I and/or <br> Geometry + LPAC placement |  |
| SMAMMR <br> Mathematical Models with Applications <br> Grade Level - 10-11 <br> Credits - 1 <br> Prerequisite - Algebra I | Mathematical Models with Applications provides a path for students to succeed in Algebra II and prepares them for various post-secondary choices. Students use algebraic, graphical, and geometric reasoning to recognize patterns and structure, model information, solve problems, and communicate solutions. Students will select from tools such as physical objects; manipulatives; technology, including graphing calculators, data collection devices, and computers; paper and pencil, and from methods such as algebraic techniques, geometric reasoning, patterns, and mental math to solve problems. (Credit for this course can cannot be awarded once credit has been earned for Algebra II.) |
| SMAA2R | Algebra II extends the concepts learned in Algebra I to the complex number system. |
| Algebra II | Students will broaden their knowledge of quadratic functions, exponential functions, and systems of equations. Students will study logarithmic, square root, cubic, cube |
| Grade Level-11 | root, absolute value, rational functions, and their related equations. Students will |
| Credits - 1 | connect functions to their inverses and associated equations and solutions in both |
| Prerequisite - Algebra I, and Geometry (recommended) | mathematical and real-world situations. In addition, students will extend their knowledge of data analysis and numeric and algebraic methods. Geometry may be taken concurrently. |

| SMACAP <br> AP Calculus AB <br> Grade Level - 12 <br> Credits - 1 <br> Prerequisite - Pre-Calculus (recommended) | AP Calculus $A B$ is primarily concerned with developing understandings of the concepts of calculus and providing experience with its methods and applications. AP Calculus AB covers differential and integral calculus, including concepts and skills of limits, derivatives, definite integrals, and the Fundamental Theorem of Calculus. Students learn to approach calculus concepts and problems when they are represented graphically, numerically, analytically, and verbally, and to make connections among these representations. This course will prepare students for the AP exam in Calculus AB as administered by the College Board. Successful completion of $A P$ Calculus $A B$ is equivalent to the first semester of college level calculus. $A P$ Statistics may be taken concurrently. |
| :---: | :---: |
| SMACBP <br> AP Calculus BC <br> Grade Level - 12 <br> Credits - 1 <br> Prerequisite - Pre-Calculus (recommended) | AP Calculus BC is primarily concerned with developing the student's understanding of the concepts of calculus and providing experience with its methods and applications. $A P$ Calculus $B C$ is an extension of Calculus $A B$ rather than an enhancement. AP Calculus BC includes all topics in AP Calculus AB, plus others such as parametric, polar, and vector functions, and series. It is equivalent to one year of calculus at most colleges and universities. Successful completion of AP Calculus BC is equivalent to the first year of college level calculus. Depending on the local placement policies of the college and the score achieved on the AP exam, students can receive credit for first semester college calculus. Note: Credit may be awarded for AP Calculus AB OR AP Calculus BC, but NOT both. AP Statistics may be taken concurrently. |
| SMACPO <br> College Prep Math <br> Grade Level - 12 <br> Credits - 1 | This course is for students in the 12th grade ONLY whose performance on a Mathematics EOC assessment does not meet college readiness standards. Students who enroll in this class must be on the Foundation High School Program only. This course will be taught through an online program. |

## Special Education Mathematics Course Descriptions

The following courses are for students who meet the eligibility requirements for special education services. Enrollment is based on Admission, Review, and Dismissal (ARD) Committee decision and instructional arrangement.

| Algebra I ALT | This course is the "gateway" math course. It is a prerequisite for every other math |
| :--- | :--- |
| course offered in high school. It is, generally, the entry-level math course and is |  |
| taken by most ninth-grade students who have not completed it in middle school. |  |
| Grade Level -9 |  |
| Credits - 1 <br> Prerequisite - None | This is a function- based course that develops the structure of the real number <br> system in a variety of ways. Students will learn the prerequisite skills to solve and <br> graph linear equations and inequalities. Students are taught to use algebra in real <br> life applications. |
| Geometry ALT |  |
| Grade Level - 10 <br> Credits -1 <br> Prerequisite - Algebra I ALT | Geometry is a course designed to develop thinking skills and logic problem solving. <br> surface area, and volume. This course focuses on prerequisite skills |
| Mathematical Models with |  |
| Applications ALT | In this course, students use algebraic, graphical, and geometric reasoning to <br> recognize patterns and structure to solve real life applied problems related to <br> finance, data analysis, and patterns in music and art. Students learn the <br> prerequisite skills to use mathematical models from algebra, geometry, and <br> connections among these to solve problems from a wide variety of applications in <br> both mathematical and non-mathematical situations. (Per state guidelines, credit for <br> this course can cannot be awarded once credit has been earned for Algebra II.) |
| Grade Level - 10-11 <br> Credits - 1 <br> Prerequisite - Algebra I ALT |  |

| SSCCHR <br> Chemistry <br> Grade Level - 10 <br> Credits - 1 <br> Prerequisite - Biology and Algebra I | Chemistry is designed to introduce students to relevant chemistry concepts and investigations. The scientific inquiry method, measurement and data gathering techniques, the atom, naming and using chemicals that are familiar to the student, identifying chemicals, balancing equations, and laboratory investigations of new products will be investigated. This course is designed to provide students with a strong foundation and conceptual understanding of chemistry, which will prepare students to take a variety of other advanced science courses. |
| :---: | :---: |
| SSCCHH <br> Chemistry Honors <br> Grade Level - 10 <br> Credits - 1 <br> Prerequisite - Biology and Algebra I <br> (Honors recommended) | Honors Chemistry is an advanced level course taking the concepts of Chemistry and expanding them to include dimensional analysis and a greater emphasis on data collection and laboratory investigations. A more in-depth look at chemical concepts will prepare students to take future Advanced Placement studies in chemistry as well as a full range of other chemistry courses and Honors Biology. |
| SSCCHS <br> ESL Chemistry <br> Grade Level - 10 <br> Credits - 1 <br> Prerequisite - LPAC Placement | ESL Chemistry integrates the study of the composition and chemical properties of a substance with second language acquisition of immigrant and non-immigrant students. This course will provide a strong foundation about the nature of the substances and products that make up the world. |
| SSCPHR <br> Physics <br> Grade Level - 11-12 <br> Credits - 1 <br> Prerequisite - None | Physics explores the principles of motion from autos to airplanes and from molecules to moons and examines electricity from the power of toasters to the fuses in the family car. Light and waves will be studied from communication to holography. Physics will provide students with a better understanding of the way our world works. This course is designed to provide students with a strong foundation and conceptual understanding of physics which will prepare students to take a variety of other physics courses. |
| SSCPHB <br> Physics Blended <br> Grade Level - 11-12 <br> Credits - 1 <br> Prerequisite - None | This course includes the same content as the Physics course but is delivered in a blended learning environment. |
| SSCPHS <br> ESL Physics <br> Grade Level - 11-12 <br> Credits - 1 <br> Prerequisite - LPAC Placement | ESL Physics integrates the principles of motion, matter, energy, and force with second language acquisition of immigrant and non-immigrant students. This course will provide students with a better understanding of the way our world works. |

How do I know which AP Physics course to take? AP Physics 1 and 2 courses teach college level concepts and are suited for students intending to pursue life sciences, pre-medicine, and some applied sciences, as well as other fields not directly related to science. These classes are also better suited to general interest or undetermined majors who want to establish their abilities in science-based coursework. AP Physics C is the more advanced college level pathway and is appropriate for students planning to specialize or major in the physical sciences or pursue a career in engineering. The AP Physics C classes are each equivalent to one semester of introductory, calculus-based college physics courses and will put aspiring engineers or physicists on track towards their goals.

AP Physics 1

Grade Level - 11-12
Credits - 1
Prerequisite - Geometry and Algebra II or concurrent enrollment in Algebra II (Honors recommended)

AP Physics 1 is a course which provides a systematic introduction to the main principles of physics and emphasizes the development of problem-solving ability. It is assumed that the student is familiar with algebra and trigonometry. In the AP Physics 1 course, the student is interested in studying physics as a basis for more advanced work in the life sciences, medicine, geology, and related areas, or as a component in a non-science college problem that has science requirements. Topics include mechanics, dynamics, energy, momentum, rotation, waves, and basic electricity.

SSCP2P
AP Physics 2

Grade Level - 11-12
Credits - 1
Prerequisite - AP Physics 1 or similar course (recommended) Algebra II or concurrent enrollment in Algebra II (Honors recommended)

AP Physics 2 provides a systematic introduction to the main principles of physics and emphasizes the development of problem-solving ability. It is assumed that the student is familiar with algebra and trigonometry. In the AP Physics 2 course, the student should be interested in studying physics as a basis for more advanced work in the life sciences, medicine, geology, and related areas, or as a component in a non-science college problem that has science requirements. AP Topics include fluids, thermodynamics, light, optics, electricity and magnetism, nuclear physics, and modern physics.

The AP Physics C course forms the first part of the college sequence that serves as the foundation in physics for students majoring in the physical sciences or engineering. Methods of calculus are used in formulating physical principles and in applying them to physical problems. The sequence is more intensive and analytic than that in the B course. Strong emphasis is placed on solving a variety of challenging problems, some requiring calculus. The subject matter of the C course is principally mechanics and electricity/magnetism, with approximately equal emphasis on these two areas. For students planning to specialize in a physical science or in engineering, most colleges require an introductory physics sequence of which the C course is the first part.

Anatomy and Physiology of Human Systems focuses on the study of the structure of function of the human body, its individual systems, and the integration of the body systems into an efficiently functioning organism. Respiration, transportation, nutrition, excretion, support/movement, and reproduction are the major topics covered. Dissection is a major component of this course and participation in dissection labs is required.

Aquatic Science focuses on three main topics of aquatic science: physical oceanography, the diversity of aquatic and marine life, and the dynamics of aquatic and marine environments. This course also explores man's impact on the oceans and special topics related to the Texas Coast. As students examine man's role in protecting the ocean and its inhabitants, they will explore the still untapped power, resources, and knowledge housed in the world.

In Astronomy, students conduct laboratory and field investigations, use scientific methods, and make informed decisions using critical thinking and scientific problem solving. Students study the following topics: astronomy in civilization, patterns, and objects in the sky, our place in space, the moon, reasons for the seasons, planet, the sun, stars, galaxies, cosmology, and space exploration. Students who successfully complete Astronomy will acquire knowledge within a conceptual framework, conduct observations of the sky, work collaboratively, and develop critical-thinking skills.

| SSCENR <br> Environmental Systems <br> Grade Level - 11-12 <br> Credits - 1 <br> Prerequisite - Biology and Physics. <br> By application. | This course will be a field-oriented interdisciplinary science course which emphasizes data collecting techniques in outdoor lab settings. In addition to the field based and laboratory activities, this course will involve numerous group and independent ecological projects. Studies will include all types of environments, their inhabitants, and the processes that allow them to function. The causes and the possible solutions to the earth's pollution and resource problems will also be investigated. Students may need to provide personal transportation to and from field sites. |
| :---: | :---: |
| SSCENP <br> AP Environmental Science <br> Grade Level - 11-12 <br> Credits - 1 <br> Prerequisite - Algebra I, Biology, and Physics (Honors recommended for each) | AP Environmental Science has a strong laboratory and field investigation component, designed to complement the classroom portion of the course by allowing students to learn about the environment through first-hand observation. Experiences in both the laboratory and the field provide students with important opportunities to test concepts and principles that are introduced in the classroom, explore specific problems with a depth not easily achieved otherwise, and gain an awareness of the importance of confounding variables that exist in the "real world." |
| SSCESD <br> Environmental Science Dual Credit <br> Grade Level - 11-12 <br> Credits - 1 <br> Prerequisite - Biology and Chemistry (Honors Bio and Honors Chem Recommended) | Fall Semester - Environmental Biology. Principles of environmental systems and ecology, including biogeochemical cycles, energy transformations, abiotic interactions, symbiotic relationships, natural resources and their management, lifestyle analysis, evolutionary trends, hazards and risks, and approaches to ecological research. Laboratory activities will reinforce principles of environmental systems and ecology, including biogeochemical cycles, energy transformations, abiotic interactions, symbiotic relationships, natural resources and their management, lifestyle analysis, evolutionary trends, hazards and risks, and approaches to ecological research. [BIOL 2406 (Lecture + Lab); TWU BIOL 1023 (Lecture + Lab)] <br> Spring Semester - Environmental Science I. A survey of the forces, including humans, that shape our physical and biologic environment, and how they affect life on Earth. Introduction to the science and policy of global and regional environmental issues, including pollution, climate change, and sustainability of land, water, and energy resources. Lab activities will cover methods used to collect and analyze environmental data. [ENVR 1410 (Lecture + Lab); TWU SCI 2103 (Lecture + Lab)] |
| SSCPCR <br> Integrated Physics and Chemistry <br> (IPC) <br> Grade Levels - 10-11 <br> Credits - 1 <br> Prerequisites - Biology | This course is designed for students who would benefit from a foundation in basic concepts studied in chemistry and physics. In IPC, students have opportunities to explore the nature of force, motion, energy, and matter by conducting laboratory and field investigations, using scientific practices during investigation, and using critical thinking/scientific problem-solving skills to make informed decisions. Students may select to take this course prior to chemistry, or prior to physics as a way to promote success in either/both courses. IPC is not designed as a substitute for physics. |

Economics is a one-semester course. This course focuses on the basic principles concerning production, consumption, and distribution of goods and services (the problem of scarcity) in the United States and a comparison with those in other countries around the world.

This course includes the same content as the Economics course but is delivered in a blended learning environment.

Principles of Macroeconomics. An analysis of the economy as a whole including measurement and determination of aggregate demand and aggregate supply, national income, inflation, and unemployment. Other topics include international trade, economic growth, business cycles, fiscal policy, and monetary policy. [TWU ECO 1023, NCTC ECON 2301, UNT ECON 1110]

AP Macroeconomics is a one semester course designed to give students a thorough understanding of the principles of economics that apply to an economic system as a whole. This course places emphasis on the study of national income and price determination, and also develops a student's familiarity with economic performance measures, economic growth, and international economics.

This course includes the same content as the AP Macroeconomics course but is delivered in a blended learning environment.

In this elective course, students learn about the history and cultural contributions of Mexican Americans. Students explore history and culture from an interdisciplinary perspective. The course emphasizes events in the 20th and 21st centuries, but students will also engage with events prior to the 20th century. This course uses a variety of rich primary and secondary source material such as biographies, autobiographies, novels, speeches, letters, diaries, poetry, songs, and artwork is encouraged. Motivating resources are available from museums, historical sites, presidential libraries, and local and state preservation societies.
In this elective course, students learn about the history and cultural contributions of African Americans. This course is designed to assist students in understanding issues and events from multiple perspectives. This course develops an understanding of the historical roots of African American culture, especially as it pertains to social, economic, and political interactions within the broader context of

| Prerequisite - None | United States history. It requires an analysis of important ideas, social <br> and cultural values, beliefs, and traditions. Knowledge of past <br> achievements provides citizens of the 21st century with a broader <br> context within which to address the many issues facing the United <br> States. |
| :--- | :--- |
| SEPSYR3 | Psychology is an elective one-semester course. In Psychology, students <br> study the science of behavior and mental processes. Students examine <br> the full scope of the science of psychology such as the historical <br> framework, methodologies, human development, motivation, emotion, <br> sensation, perception, personality development, cognition, learning, <br> intelligence, biological foundations, mental health, and social <br> psychology. |
| Grade Level - 11-12 <br> Credits - .5 <br> Prerequisite - None | This course includes the same content as the Psychology course but is <br> SEPSYB3 <br> Psychology Blended |
| Grade Level - 11-12 <br> Credits - .5 |  |

SEPFLR3
Personal Financial Literacy

Grade Level - 10-12
Credits - . 5
Prerequisite - None

SEEUHP
AP European History

Grade Level-12 (recommended)
Credits - 1
Prerequisite - None

Personal Financial Literacy will develop citizens who have the knowledge and skills to make sound, informed financial decisions that will allow them to lead financially secure lifestyles and understand personal financial responsibility. Students will apply critical thinking and problem-solving skills to analyze decisions involving earning and spending, saving and investing, credit and borrowing, insuring and protecting, and college and post-secondary education and training.
Students investigate significant events, individuals, developments, and processes, and develop disciplinary practices and reasoning skills as they investigate similar events in different time periods. Students develop and use the same skills, practices, and methods employed by historians, including analyzing primary and secondary sources; developing historical arguments; making historical connections; and utilizing reasoning about comparison, causation, and continuity and change over time. The course provides seven themes that students explore in order to make connections among historical developments in different times and places.

## Special Education Social Studies Course Descriptions

The following courses are for students who meet the eligibility requirements for special education services. Enrollment is based on Admission, Review, and Dismissal (ARD) Committee decision and instructional arrangement.

| SSSWGX <br> World Geography ALT <br> Grade Level - 9 <br> Credits - 1 <br> Prerequisite - None | World Geography ALT focuses on the prerequisite skills for a basic understanding of man and his adaptation to his environment. The curriculum integrates the study of landforms, location, climate, natural resources, and culture to provide a holistic profile of World Geography. Other studies vital to geography will include astronomy, geology, meteorology, climatology, and cartography. |
| :---: | :---: |
| SSSWHX <br> World History ALT <br> Grade Level - 10 <br> Credits - 1 <br> Prerequisite - None | World History ALT provides an overview of the history of mankind, a study of man's Western heritage, and of significant non-Western cultures. Emphasis will be on people, cultures, and events. This course focuses on prerequisite skills. |
| SSSUSX <br> United States History ALT <br> Grade Level - 11 <br> Credits - 1 <br> Prerequisite - None | United States History covers the emergence of the United States (from Reconstruction to present) as a world power, using the social studies disciplines of history, geography, economics, sociology, and political science. This course focuses on prerequisite skills. |
| SSSGOX3 <br> Government ALT <br> Grade Level - 12 <br> Credits - . 5 <br> Prerequisite - None | Government ALT is a one-semester course consisting of a comparative study of the basic political and economic philosophies under which the modern world nations operate. A working knowledge of the federal and state constitutions is emphasized to encourage the students to participate actively in the American political process. Community resources are incorporated into the course in order to bring students into personal contact with varied aspects of government. This course focuses on prerequisite skills. |

| SSSECX3 |

SEMAPX
MAPS (Methodology for
Academic and Personal Success)

Grade Level - 9-10
Credits - 1
Prerequisite - None

Professional Communications ALT will focus on developing effective communication skills. Students enrolled in Communication Applications ALT will learn the prerequisite skills to identify, analyze, develop, and evaluate communication skills needed for professional and social success in interpersonal situations, group interactions, and personal and professional presentations.

This course focuses on the skills and strategies necessary for students to make a successful transition into high school and an academic career. Students will explore the options available in high school, higher ed, and the professional world to establish immediate and long-range goals. Students identify individual learning styles and abilities and build on these by developing critical time-management, organization, and study skills. The course focuses on self-understanding, decisionmaking, resiliency, attitude, character education, and leadership to help students maximize personal achievement. Students will explore and experience collaboration as a tool for creative problem solving. As part of goal setting and leadership activities, students may complete an outside community servicelearning experience in addition to class assignments.

| SEGESX <br> General Employability Skills <br> Grade Level - 9-12 <br> Credits - 1 <br> Prerequisite - None | This course provides students with knowledge of the prerequisite skills for general employment as well as the means of obtaining those skills. Employability skills include fundamentals of maintenance of personal appearance and grooming. The course also includes the knowledge, skills, and attitudes that allow employees to get along with their co-workers, make important work-related decisions, and become strong members of the work team. Discovering job possibilities that link skills, abilities, interests, values, needs, and work environment preferences is a part of the process of obtaining employability skills and abilities and is experiential learning that takes place over time. |

Areas to be addressed include audiology, hearing health, assistive technology, available support services and accommodations, communication, self- determination and advocacy, and deaf culture. |

## World Language Courses

In Denton ISD, students are able to accelerate in world languages by earning credit in middle school. When a student has successfully completed the previous course in the sequence, the student may access the next course in the world language pathway. For example, a student who successfully completed Spanish 7 and 8 would be able to access Spanish II in grade 9, Spanish III in grade 10, and so forth.

Students who enter high school with Spanish I and II credit:

Students who enter high school with Spanish I, II, and III credit:

*or dual credit, if available

Texas Essential Knowledge and Skills (TEKS) - HERE

American Sign Language Course Descriptions

| SWAS1R <br> ASLI <br> Grade Level - 9-12 <br> Credits-1 <br> Prerequisite - None | American Sign Language I is the introductory course in ASL. During this course, the students will begin to develop their expressive and receptive signing skills as well as begin to build extensive sign vocabulary. The course will focus on ASL grammatical structures and basic information about deaf culture. |
| :---: | :---: |
| SWAS2R <br> ASL II <br> Grade Level - 10-12 <br> Credits-1 <br> Prerequisite-ASLI | This course will expand the American Sign Language (ASL) sign vocabulary acquired in ASL I. The course will focus on the improvement of expressive and receptive signing skills. During ASL II, the student's knowledge will be expanded in the areas of the history of the deaf, deaf culture, and grammatical aspects of ASL. |
| SWAS3R <br> ASL III <br> Grade Level - 11-12 <br> Credits-1 <br> Prerequisite - ASL II | American Sign Language III offers advanced ASL sign vocabulary and syntax. An introduction is given to job opportunities as interpreters as well as other careers related to deafness. A greater emphasis is given to expanding skills in expressive and receptive signing. This course includes the use of signing between student and teacher and among students. |
| SWAS4R <br> ASL IV <br> Grade Level-12 <br> Credits-1 <br> Prerequisite - ASL III | This course is a continuation of ASL III. During the course, the student will gain knowledge of the different types of signed systems used in the educational setting and the art of interpreting. It will prepare the student for college-level ASL classes and for work involving the deaf community. The goal of this course is to ultimately prepare the student to pass the Texas Level I certification exam to interpret for the deaf. |

Note: Though ASL is accepted as a World Language for college admissions purposes in Texas public colleges and universities, it may not be accepted as widely outside of Texas. Students interested in admission to private colleges and out of state universities and colleges should check the specific requirements for admission before selecting ASL to meet their graduation requirements.

## French Course Descriptions

| SWFR1R <br> French I <br> Grade Level - 9-12 <br> Credits - 1 <br> Prerequisite - None | French I is an introduction to the French-speaking world, its language, and its people. The main emphasis is on early oral communication skills while developing reading and writing skills. Grammar skills are introduced through both oral and written expression. The student is guided in recognizing the interrelationships of languages and in understanding the cultural aspects of the French-speaking world. |
| :---: | :---: |
| SWFR2R <br> French II <br> Grade Level - 9-12 <br> Credits - 1 <br> Prerequisite - French I | French II emphasizes the further development of the four communication skills: reading, writing, speaking, and listening. Students will study the culture not only of France, but also the French-speaking world. |
| SWFR2H <br> French II Honors <br> Grade Level - 9-12 <br> Credits - 1 <br> Prerequisite - French I | This course develops the four communications skills of reading, writing, speaking, and listening at levels of greater depth than French II. Vocabulary, speaking fluency, writing proficiency, and Francophone culture are emphasized. Honors students spend more time on actual practice using the language. |
| SWFR3R <br> French III <br> Grade Level - 10-12 <br> Credits - 1 <br> Prerequisite - French II | French III emphasizes speaking and listening skills. By the end of the year, students will have a general knowledge of the basic structure of the language and will be able to converse on a variety of topics. Reading and writing skills will be improved. Cultural topics will include contemporary issues in French-speaking countries as well as real-life situations students might encounter while visiting a French-speaking country. |
| SWFR3H <br> French III Honors <br> Grade Level - 10-12 <br> Credits - 1 <br> Prerequisite -French II | Students will complete the study of the basic structure of the language while deepening their communication skills. They will begin reading authentic texts and will be expected to give several different kinds of oral presentations. Except for grammar explanations, the class will be taught almost exclusively in French. The course will provide cultural experiences as well as develop language proficiency |
| SWFR4P <br> AP French IV <br> Grade Level - 11-12 <br> Credits - 1 <br> Prerequisite -French III <br> (Honors recommended) | The goal is to create reasonable fluency in the four communication areas: reading, writing, listening, and speaking. At this level, the instruction becomes more individualized as students exhibit individual strengths and weaknesses. Technology, including the language laboratory, the internet, authentic video, audio, and literature provide the students with opportunities to increase skills. The class is taught in French except for grammar explanations. Several texts are provided for mastery of the four skills. Students produce compositions as well as oral presentations. |

## German Course Descriptions

| SWGR1R <br> German I <br> Grade Level - 9-12 <br> Credits - 1 <br> Prerequisite - None | German I begins by teaching the basic sounds of German vowels and consonants through common, everyday conversational patterns such as greetings, partings, "small talk," counting, and telling time. Study progresses to the grammar required to express more complex ideas by using direct and indirect objects, present tense and conversational past, and the use of everyday idioms. |
| :---: | :---: |
| SWGR2R <br> German II <br> Grade Level - 10-12 <br> Credits - 1 <br> Prerequisite - German I | German II begins with an in-depth review and expansion of German I. Speaking and oral comprehension are stressed. More complex grammar is learned, such as dependent and independent clauses, as well as other verb tenses. Supplementary readings are used from newspapers, magazines, and simple literary works. Cultural aspects of German-speaking countries are taught. |
| SWGR3R <br> German III <br> Grade Level - 11-12 <br> Credits - 1 <br> Prerequisite - German II | German III provides extensive oral practice in conversational German. The reading materials used, as well as the writing topics, will stress real-life situations. German culture study is a natural by-product of this instructional strategy. |
| SWGR3H <br> German III Honors <br> Grade Level - 11-12 <br> Credits - 1 <br> Prerequisite - German II | Honors German III presents a comprehensive study of speaking, listening, reading, and writing intermediate German. It includes polishing the grammar of the first two years, expanding literary study, and studying the influence of Germany in the world, especially in the United States. |
| SWGR4P <br> AP German IV <br> Grade Level - 12 <br> Credits - 1 <br> Prerequisite - German III <br> (Honors recommended) | AP German IV prepares and evaluates a student's ability to communicate in modern German. Language communication is both input (reading and listening) and output (speaking and writing). To facilitate the student's ability to respond to German prompts, whether written or spoken in correct and idiomatic German, the entire class is conducted in German. Students will read appropriate AP-level literature selections and discuss their cultural implications in contemporary German society. |

## Latin Course Descriptions

| SWLA1R <br> Latin I <br> Grade Level - 9-12 <br> Credits - 1 <br> Prerequisite - None | Latin I content focuses on communication, culture, connection and comparison of the Latin language and culture to ours. Latin 1 introduces the basic structure and grammar of the Latin language with emphasis on reading and comprehension of Latin texts through an inductive language method. Classical civilization and culture, history and mythology is studied in conjunction with the readings. Vocabulary and grammar and their relationship to English are essential components of the course. |
| :---: | :---: |
| SWLA2R <br> Latin II <br> Grade Level - 10-12 <br> Credits - 1 <br> Prerequisite - Latin I | Intermediate grammatical concepts and vocabulary are introduced through the use of a continuous narrative begun in the first year. As in Latin I, the relationship between English and Latin vocabulary and grammar are emphasized. Skills in reading and comprehension of Latin passages at the intermediate level are developed. The students continue their study of Roman civilization and culture, history and mythology, as related to the readings. |
| SWLA2H <br> Latin II Honors <br> Grade Level - 10-12 <br> Credits - 1 <br> Prerequisite - Latin I | Honors Latin II is similar in scope and content to Latin II but has additional native language readings on Roman culture and an emphasis on character analysis of material in the daily readings as a preparation for doing literary analysis for AP Latin. |
| SWLA3H <br> Latin III Honors <br> Grade Level - 11-12 <br> Credits - 1 <br> Prerequisite - Latin II | Honors Latin III curriculum includes advanced grammatical concepts and vocabulary as needed to prepare students for reading authentic Latin texts, introduced through narratives interspersed with authentic Latin literature, including prose and poetry as well as the study of culture and history relevant to individual authors. The second semester is a general survey of Roman authors including Caesar, Cicero, Livy, Petronius, Ovid and Vergil. The students continue their study of Roman civilization and culture, history and mythology as related to the readings. |
| SWLA4P <br> AP Latin IV <br> Grade Level - 12 <br> Credits - 1 <br> Prerequisite - Latin III | This course is the advanced study of the Latin epic, Virgil's Aeneid. The course follows the curriculum of the College Board Advanced Placement Committee in order to prepare students for the Advanced Placement Examination on Virgil. This course includes extensive reading of the primary text and the entire Aeneid in translation, literary analysis, forms and devices specific to poetry, metrical conventions, and the study of culture, history, and mythology as relevant to the Aeneid with particular emphasis on preparing for Advance Placement examination on Virgil. |
| SWLA5H <br> Latin V: Literature Honors <br> Grade Level - 12 <br> Credits - 1 <br> Prerequisite - Latin IV | This course is the advanced study of Latin literature (e.g., Catullus/Ovid). The Latin Literature curriculum includes the study of the works of Catullus and one of the following authors: Horace, Cicero, Ovid. The course covers extensive reading of the primary texts, literary analysis, forms and devices specific to poetry/prose, metrical conventions, and the study of culture and history relevant to the individual authors. |

Texas Essential Knowledge and Skills (TEKS) - HERE

| SEATV1 <br> Student Athletic Trainer I |  |
| :---: | :---: |
| $\begin{aligned} & \text { Grade Level - 10-12 } \\ & \text { Credits - NC } \end{aligned}$ | Prerequisite - Instructor Approval |
| SEATV2 <br> Student Athletic Trainer II <br> Grade Level - 10-12 <br> Credits - NC | Student Athletic Trainer is a course designed to provide hands-on opportunities for students to apply the knowledge and skills acquired in the Sports Medicine I course. Students will serve as actual "Athletic Trainers" as they travel with various teams throughout U.I.L. competitions. Student Athletic Trainers will assist the coaching staff with injury management, physical therapy, and rehabilitation techniques as appropriate for skill level. Athletic training/sports medicine is predicted to be one of the most lucrative careers of the future. Students successfully completing several years in high school as an athletic trainer will be top candidates for athletic training scholarships. |
| SEATV3 <br> Student Athletic Trainer III |  |
| Grade Level - 10-12 <br> Credits - NC | (Note from TEA: "Athletic training" is not a state approved TEKS-based course or innovative course used for PE substitution credits. Athletic trainers must also successfully complete 1.0 credit of PE TEKS-based courses or the appropriate PE substitutions for PE graduation credit. These are local/no credit courses.) |
| SEATV4 <br> Student Athletic Trainer IV |  |
| Grade Level - 10-12 <br> Credits - NC |  |
| SEHEAR3 | In Health Education I, students develop skills that will make them health-literate adults. Students gain a deeper understanding of the knowledge and behaviors they use to safeguard their health, particularly pertaining to health risks. Students are taught how to access accurate information that they can use to promote health for themselves and others. Students use problem-solving, research, goal setting and communication skills to protect their health and that of the community. |
| Health Education I |  |

| SERMIL | J.R.O.T.C. Military Drill | 9-12 | .5-1 |

## General Electives Course Descriptions

| SEAV4R <br> AVID IV <br> Grade Level - 10-12 <br> Credits - 1 <br> Prerequisite - AVID III | AVID IV focuses on writing and critical thinking expected of first- and second-year college students. Students complete a final research essay project from research conducted in AVID III. In addition to the academic focus of the AVID IV, there are college-bound activities, methodologies, and tasks that should be achieved during the fourth year that support students as they apply to four-year universities and confirm their postsecondary plans. |
| :---: | :---: |
| SERO1R <br> J.R.O.T.C. 1 <br> Grade Level - 9-12 <br> Credits - 1 <br> Prerequisite - Instructor <br> approval | This aviation history course (AS) is designed to acquaint the student with the historical development of flight and the role of the military in history throughout the centuries. It starts with ancient civilizations then progresses through time to modern day. The emphasis is on civilian and military contributions to aviation and the continuous development of today's Air Force. Leadership Studies (LE) introduces cadets to the AFJROTC program while instilling elements of good citizenship. It contains sections on Air Force organization structure, uniform wear, customs and courtesies, and other military traditions. Wellness is designed to introduce cadets to diet and exercise regimes, enhancing individual fitness utilizing the Presidents Fitness Program for high school students. |
| SERO2R <br> J.R.O.T.C. 2 <br> Grade Level - 10-12 <br> Credits - 1 <br> Prerequisite - J.R.O.T.C. 1 | This curriculum for second year students is a science course designed to acquaint students with the aerospace environment, human requirements for flight, and principles of aircraft flight and flight navigation. The leadership portion focuses cadets on communications skills, group awareness, and leadership dynamics. Written reports and speeches compliment academic materials. Wellness continues to focus cadets on personal diet and exercise habits leading to enhanced fitness for cadets. |
| SERO3R <br> J.R.O.T.C. 3 <br> Grade Level - 11-12 <br> Credits - 1 <br> Prerequisite - J.R.O.T.C. 2 | This AS course includes the latest information available in space science and exploration. It begins with the study of the space environment from the earliest days of interest in astronomy, through the Renaissance, and on to modern astronomy and space exploration. The next level of Leadership focuses on life skills, how to begin a job search, beginnings of financial planning, decisions on college versus vocational education, etc. This program is helpful to students deciding which path to take after high school. Wellness continues to focus cadets on personal diet and exercise habits leading to enhance fitness for cadets. |
| SERO4R <br> J.R.O.T.C. 4 <br> Grade Level - 12 <br> Credits - 1 <br> Prerequisite - J.R.O.T.C. 3 | Fourth year cadets manage the corps. This course is a practicum for senior cadets in leadership positions, using hands-on experience from previous leadership courses in managing the corps. All planning, organizing, coordinating, directing, and decision-making will be done by cadets (under supervision). The Leadership component emphasizes allowing cadets to develop their management styles. This includes four management building blocks from the military and civilian perspective: management techniques, management decisions, management functions, and managing self and others. Wellness culminates with senior cadets talking to and leading junior cadets through discussions on personal diet and exercise habits as well as leading exercise routines for the corps. |
| SERMIL <br> J.R.O.T.C. Military Drill <br> Grade Level - 9-12 <br> Credits - 1 <br> Prerequisite - Instructor approval, tryout, and concurrent enrollment in J.R.O.T.C. 1, 2, 3, or 4 | This Drill and Ceremonies course provides fundamentals and in-depth instruction in Air Force drill and ceremonies, to include cadet ability to perform the AFJROTC 30-step drill sequence at the appropriate level commensurate with their enrollment experience. This course concentrates on the elements of military drill and describes individual and group precision movements, procedures for saluting, drill, ceremonies, reviews, parades, and development of command voice. Students are provided detailed instruction on ceremonial performance and protocol for civilian and military events and have the opportunity to personally learn Air Force drill concepts and procedures. Though each class will follow an established lesson plan, most of the work is "hands-on". This course will also help cadets develop teamwork, self-discipline, pride, and esprit-de-corps while working as a group. |

## Visual Arts Course Descriptions <br> Texas Essential Knowledge and Skills (TEKS) - $\underline{\text { HERE }}$

| SFAA1R <br> Art I <br> Grade Level - 9-12 <br> Credits - 1 <br> Prerequisite - None | Art I is two-semester introductory course exploring the elements and principles of art and applying them to produce a variety of two and three-dimensional art media. This includes drawing, painting, print making, sculpture, ceramics, and fibers. Students also study historical and cultural influences on art and explore the philosophical nature of art and learn how to form and articulate critical assessments of art. Students are responsible for a course fee and/or purchasing and maintaining a set of art supplies. |
| :---: | :---: |
| SFAA1H <br> Art I Honors <br> Grade Level - 9-12 <br> Credits - 1 <br> Prerequisite - Portfolio review and instructor approval | Honors Art I is a two-semester course available to students with art experience at the middle school level. In addition to the Art I curriculum, students also produce work at a more advanced level in quality and quantity. This class is designed for serious art students who intend to enroll in rigorous AP Studio Art classes. Students are responsible for a course fee and/or purchasing and maintaining a set of art supplies. (High school arts teachers are available to provide information on the development of a mini portfolio for consideration, if needed.) |
| SFAA2H <br> Studio Art II Honors <br> Grade Level - 10-12 <br> Credits - 1 <br> Prerequisite-Honors <br> Art 1, portfolio review, and instructor approval | Honors Studio Art is a two-semester course that will provide an in-depth approach to developing skills related to drawing from observations, adept application of a broad range of media and processes, the development of personal and creative solutions to visual problems, a broad understanding of drawing, and the cultural and historical contexts around which drawings are created. By the end of the course, the students will complete the "Breadth Section" of their AP Studio Art portfolio. In addition, students will be expected to view, research, write about, and speak about the art of contemporary and historical art and artists. Students are responsible for a course fee and/or purchasing and maintaining a set of art supplies. |
|  | SFAR2R - Art II <br> This two-semester course offers instruction in a broad spectrum of media and techniques, including drawing, painting, ceramics, and sculpture. Students will be expected to utilize and expand upon the elements and principles of art and skills learned in Art I. Students are responsible for a course fee and/or purchasing and maintaining a set of art supplies. |
| Art II <br> Grade Level - 10-12 <br> Credits - 1 <br> Prerequisite - Art 1 and | SFAD2R - Drawing II <br> This two-semester course offers instruction in a variety of drawing media and techniques. Students will be expected to utilize and expand upon the elements and principles of art and skills learned in Art I. Emphasis is on skill building and creative problem solving. In addition, the practical, cultural, and historical aspects of drawing will be addressed. Students are responsible for a course fee and/or purchasing and maintaining a set of art supplies. |

## SFAP2R - Painting II

This two-semester course expands the student's knowledge of the elements and principles of art, and drawing skills, and explores the use of color and color theory with watercolor and acrylic paints. Students will study the influence of historical and cultural factors on painters of the past and present. They will explore aesthetics and engage in art criticism. Students are responsible for a course fee and/or purchasing and maintaining a set of art supplies.

## SFAC2R - Ceramics II

This two-semester course expands on the elements and principles of art explored in Art I and offers students a well-rounded clay experience that incorporates thrown and hand-built construction, glaze processes, glaze chemistry, and exposure to potters of many cultures past and present. Students in Ceramic II will be given specific hand- building assignments to increase skill and encourage creativity. They will also be expected to throw on the potter's wheel periodically to increase ability. Problem solving with all methods of construction will increase skill and understanding of the properties of clay. Teacher demonstrations, vocabulary, and art history presentations, along with periodic research assignments, will provide students with a source of inspiration. Students will be responsible for a course fee and/or purchasing and maintaining a set of art supplies.

## SFAS2R - Sculpture II

This two-semester course will expand the application of the elements and principles of art learned in Art I. Students will explore the properties of three-dimensional design in a variety of media including clay metal, wood, plaster, wire, found materials, and more. Students will learn important methods, research the work of other artists, and create specific assignments with individual expression. Art History lessons will provide a resource for inspiration while informing students of sculpture's cultural importance. The course is predominately studio based but is meant to be a class that incorporates all aspects of learning to increase problem solving, creativity, and knowledge. Students are responsible for a course fee and/or purchasing and maintaining a set of art supplies.

## SFAD3R - Drawing III

This two-semester course further explores the elements and principles of art and continues instruction in a variety of drawing media and techniques. Students will be expected to utilize the information and skills that were learned in Drawing 2. Emphasis is on skill building and creative problem solving and developing a portfolio. The practical, cultural, and historical aspects of drawing will also be addressed. Students are responsible for a course fee and/or purchasing and maintaining a set of art supplies.

## SFAP3R - Painting III

This two-semester course further explores of the elements and principles of art, painting skills, and use of color through watercolor, acrylic, and oil paints. Students study the influence of historical and cultural factors on painters of the past and present through research and oral presentations. They explore aesthetics and engage in art criticism. Students are responsible for a course fee and/or purchasing and maintaining a set of art supplies.

## SFAC3R - Ceramics III

This two-semester course will further explore the elements and principles of art while allowing students to specialize, focusing on a specific ceramics method/ medium. Students will have opportunities to further develop present skills while exploring more challenging techniques. Students are responsible for a course fee and/or purchasing and maintaining a set of art supplies.

## SFAS3R - Sculpture III

This two-semester course will further explore the elements/principles of art and incorporate the knowledge and skills learned in Sculpture II, while allowing students to become specialized. They may work with a medium of choice to increase skill and produce original designs. Students are required to pay a course fee and/or purchasing and maintaining a set of supplies.

## Theatre Arts Course Descriptions

Texas Essential Knowledge and Skills (TEKS) - HERE

| SFTH1R |  |
| :--- | :--- |
| Theatre Arts I |  |
| Grade Level - 9-12 <br> Credits - <br> Prerequisite - None | Theatre I is a two-semester course that incorporates an introduction to theatre, the <br> role of the actor in interpreting dramatic literature, safe and effective use of the <br> body and voice through various performance theory and techniques, and an <br> overview of the technical elements of theatrical production. |
| SFTH2R |  |
| Theatre Arts II <br> Grade Level - 10-12 <br> Credits - 1 <br> Prerequisite - Theatre I and <br> instructor approval | Theatre II is a two-semester course that builds upon the study of movement, voice, <br> character and script analysis, the historical evolution and cultural contributions of <br> the theatre to society explored in Theatre I. This course includes exploration of <br> production approaches and acting techniques. Students study basic components of <br> technical production and apply them through monologue, duet, and group scene <br> performance. Students may be responsible for a course fee and/or purchasing and <br> maintaining a set of supplies. |

| SFTH3R <br> Theatre Arts III <br> Grade Level - 11-12 <br> Credits - 1 <br> Prerequisite - Theatre II. Audition and instructor approval | Theatre III is a two-semester course that extends and builds upon the study of movement, voice, character and script analysis, the historical evolution and cultural contributions of the theatre to society explored in Theatre II. This course includes exploration of various genres, production styles, and advanced acting techniques. Students study basic components of technical production and apply them through monologue, duet, and group scene performance in a variety of genres. Students may be responsible for a course fee and/or purchasing and maintaining a set of supplies. |
| :---: | :---: |
| SFTH4R <br> Theatre Arts IV <br> Grade Level - 12 <br> Credits - 1 <br> Prerequisite - Theatre III. Audition and instructor approval | Theatre IV is a two-semester course that offers advanced study of movement, voice, character and script analysis, and the historical evolution and cultural contributions of the theatre to society. This course extends the exploration of various genres, production styles explored in Theatre III, and extends the exploration of acting techniques explored in Theatre II and III. Students study components of technical production and apply them through a variety of performances. Students may be responsible for a course fee and/or purchasing and maintaining a set of supplies. |
| SFTM1R <br> Musical Theatre I | Musical Theatre I and II are year-long courses that expose students to a wide range of on-stage performance disciplines, including acting performance, vocal performance, and dance performance. The course will also provide an atmosphere in which students benefit from a teaching and learning experience in these performance disciplines of musical theatre. Students will receive comprehensive and rigorous instruction so that they may make informed choices about the craft of musical theatre and college and career options. The course will enable students to study and perform the varied styles of musical theatre with special attention to the principles of stage movement, stage vocal technique, stage choreography, acting, characterization, and other aspects of a musical production. Students may be responsible for a course fee and/or purchasing and maintaining a set of supplies. |
| Grade Level - 11-12 <br> Credits - 1 <br> Prerequisite - Level I and II in two of the following disciplines: theatre, dance, choir. Audition and instructor approval |  |
| SFTM2R <br> Musical Theatre II <br> Grade Level-12 <br> Credits - 1 <br> Prerequisite - Theatre Arts I, Choir I, or Musical Theatre I. Audition and instructor approval |  |
| SFTP1R <br> Theatre Production I | Prerequisite - By audition only. Theatre Production I-IV is a co-curricular laboratory designed for the exploration, development, and synthesis of all the elements of theatre. Theatre Production provides for the hands-on production of a cast and crew in the rehearsal and performance aspects of theatre. Students gain practical experience in theatre through extensive daily rehearsal during class, after school, and on weekends. Public performance is required. This course may also include UIL competition. Credit for this course may be given to students who audition and are selected to be cast or crew members for productions that require after school and weekend rehearsals lasting most of the semester. Students may be responsible for a course fee and/or purchasing and maintaining a set of supplies. Note: This course is co-curricular; production assignment in co-curricular work requires rehearsals outside of the school day. |
| Grade Level - 9-12 Credits - .5-1 |  |
| SFTP2R <br> Theatre Production II <br> Grade Level - 10-12 <br> Credits - .5-1 |  |
| SFTP3R <br> Theatre Production III <br> Grade Level - 11-12 <br> Credits - .5-1 |  |
| SFTP4R <br> Theatre Production IV |  |
| Grade Level - 12 <br> Credits - .5-1 |  |

| SFTT1R <br> Technical Theatre I <br> Grade Level - 9-12 <br> Credits - 1 <br> Prerequisite - None | Technical Theatre I is a two-semester course that is an introduction to safe and effective carpentry and construction techniques including the safe use of power tools, lighting equipment and basic electrical elements, audio production, costume construction, and an introduction to theatrical design including an exploration of the elements and principles of design. Play analysis is also a part of this course. Technical Theatre I students may be able to assist in the production of various activities requiring the use of the scene shop and auditorium. Students may be responsible for a course fee and/or purchasing and maintaining a set of supplies. |
| :---: | :---: |
| SFTT2R <br> Technical Theatre II <br> Grade Level - 10-12 <br> Credits - 1 <br> Prerequisite -Theatre 1, portfolio review, and instructor approval | Technical Theatre II is a two-semester, advanced course exploring the safe and effective operation of equipment in the scene shop and the auditorium. The course provides students the opportunity to further develop construction and design aspects explored in Technical Theatre I through the teaching of production and stagecraft. Students will further explore the elements and principles of design and play analysis techniques, building on concepts introduced in Technical Theatre I. Students may also design sets, and costumes, make-up, sound and basic lighting. Technical Theatre II students may assist in the production of various school activities requiring use of the auditorium including theatre productions, band and orchestra concerts, drill team productions, and various civic group activities. Students may be responsible for a course fee and/or purchasing and maintaining a set of supplies. |
| SFTC2R <br> Technical Theatre II: Costume Construction <br> Grade Level - 10-12 <br> Credits - 1 <br> Prerequisite -Technical Theatre I and instructor approval | This two-semester advanced course is specifically designed for students interested in continuing their technical theatre study. The elements of Technical Theatre II (above) continue to apply, though students will engage in a rigorous focused study of costume construction. Students may be responsible for a course fee and/or purchasing and maintaining a set of supplies. |
| SDTG2R <br> Technical Theatre II: Theatre <br> Management <br> Grade Level - 11-12 <br> Credits - 1 <br> Prerequisite -Tech Theatre I and II, or Theatre Production I and II. <br> Portfolio review and instructor approval | Theatre Management is a two-semester course that affords students the opportunity to acquire and develop administrative skills that are commonly used in the management of theatre spaces and productions. Students apply a myriad of technical theatre concepts and skills along with developing knowledge and skills associated with production responsibilities, arts administration, theatre management, and applications of previously acquired theatre studies. Students may be responsible for a course fee and/or purchasing and maintaining a set of supplies. |
| SFTT3R <br> Technical Theatre III <br> Grade Level - 11-12 <br> Credits - 1 <br> Prerequisite -Theatre 2, portfolio <br> review, and instructor approval <br> SFTT3R <br> Technical Theatre IV <br> Grade Level-12 <br> Credits - 1 <br> Prerequisite -Theatre III, portfolio review, and instructor approval | Technical Theatre III and IV are full-year advanced courses applying the safe and effective operation of equipment in the scene shop and the auditorium. The course provides students the opportunity to further develop construction techniques explored in Technical Theatre II. Students will further explore application of the elements and principles of design through designing sets, costumes, and lighting. Students will acquire advanced skills in make-up artistry, and audio production. Technical Theatre takes the playwright's script from "page to stage" through the formation of highly trained production staffs; this course prepares students to serve as a member of a production staff. Technical Theatre III and IV students assist in the production of various after school activities requiring use of the auditorium including theatre productions, band and orchestra concerts, drill team productions, and various civic group activities. Students may be responsible for a course fee and/or purchasing and maintaining a set of supplies. |

## Dance Courses

| Local Course ID | Course | Grade Level | Credits |

## Dance Course Descriptions

Texas Essential Knowledge and Skills (TEKS) - HERE

SFDD1R
Dance (Drill Team) I

Grade Level - 9-12
Credits - 1
Prerequisite -Dance I, audition, and instructor approval

## SFDD2R

Dance (Drill Team) II

Grade Level - 10-12
Credits - 1
Prerequisite -Dance I, audition, and instructor approval

SFDD3R
Dance (Drill Team) III

Grade Level - 11-12
Credits - 1
Prerequisite - Dance II, audition, and instructor approval

SFDD4R
Dance (Drill Team) IV

Grade Level - 12
Credits - 1
Prerequisite - Dance III, audition, and instructor approval

Dance (Drill Team) II, III, and IV are full year courses providing the student who successfully auditions with extensive work on technique, placement, and a series of steps from all genres of dance, including Jazz, Modern, Ballet, Tap and Folk. Following the Dance I course, Dance (Drill Team) II - IV will provide more physical and scientific perception of the body, creative expression through performance, historical and cultural heritage, and critical evaluation. The student will learn more advanced terminology, techniques, and the choreographic process which will enable them to pursue dance as a career or as a life-long pursuit. Students will continue developing their appreciation of dance as an art form. Students will continue developing their appreciation of dance as an art form. Dance (Drill Team) II, III, and IV are Fine Arts courses and can serve as a P.E. substitution credit in the fall semester.

Dance (Drill Team) I, II, III, and IV are Fine Arts courses and can serve as a P.E. substitution credit in the fall semester.

| Grade Level - 9-12 <br> Credits - 1 |  |
| SFBJ2R <br> Jazz Ensemble II <br> Grade Level - 10-12 <br> Credits - 1 | Prerequisite - By audition only and open to currently enrolled members of the primary music ensembles (full choir, full orchestra, full marching/concert band). The only exceptions are students that audition on these rhythm section instruments: guitar, bass, or piano. |
| SFBJ3R <br> Jazz Ensemble III <br> Grade Level - 11-12 <br> Credits - 1 | Jazz ensemble is a two-semester course that provides the opportunity to learn and perform a variety of styles such as: swing, big band, Latin, blues, and rock. Students explore jazz improvisation and small group performances. All students will be required to perform in public concerts. Students are responsible for a course fee and purchasing and maintaining supplies. |
| SFBJ4R <br> Jazz Ensemble IV |  |
| Grade Level-12 Credits - 1 |  |

| SFDC1R or SFBC1R Color Guard I | Color Guard is a year-long course in which students learn the technical skills involved in expressive dance, flag, rifle, and saber choreography. The course will prepare students for color guard performances with the marching band during the fall semester and winter guard performances and competitions in the spring semester. Audition required. Fees apply to this course. |
| :---: | :---: |
| Grade Level - 9-12 <br> Credits - 1 |  |
| SFDC2R or SFBC2R <br> Color Guard II <br> Grade Level - 10-12 <br> Credits - 1 |  |
| SFDC3R or SFBC3R Color Guard III | Students in the Color Guard course who actively participate in marching band in the fall semester can earn a . 5 P.E. substitution credit each semester, for up to 1.0 total P.E. substitution credits. <br> If the teacher is certified in Dance, students can earn Dance credit for levels I-IV of Color Guard. |
| Grade Level - 11-12 <br> Credits - 1 |  |
| SFDC4R or SFBC4R Color Guard IV |  |
| Grade Level - 12 Credits - 1 |  |
| SFMT1P | This course integrates aspects of melody, harmony, texture, rhythm, form, musical analysis, elementary composition and, to some extent, history and style. Musicianship skills such as dictation and other listening skills, sightsinging, and keyboard harmony are an important part of the course. The College Board recommends that students have acquired basic performance skills in voice or on an instrument. |
| AP Music Theory |  |
| Grade Level - 11-12 <br> Credits - 1 |  |
| Prerequisite - Instructor approval. Basic performance skills in voice or on an instrument. Interview may be required. |  |

## Orchestra Courses

## Group 1: English Language and Literature

English HL (Y1, Y2)
Prerequisite: English I and
English II (Honors
recommended)

English HL is a demanding two-year pre-university course of study designed to develop skills of textual analysis both literary and non-literary. The course encourages students to question the meaning generated by language and texts. An understanding of the ways in which formal elements are used to create meaning in a text is combined with an exploration of how that meaning is affected by reading practices that are culturally defined. The study of literature in translation from other cultures is especially important to IB DP students because it contributes to a global perspective. Texts are chosen from a variety of sources, genres, and media. The aims of this course include introducing students to a range of different texts from different periods, styles, and genres; developing the ability to engage in close detailed analysis of individual texts and making relevant connections; developing powers of expression both in oral and written communication.

## Group 2: Language Acquisition

## Spanish IV SL/HL

Spanish IV HL (Y1)
Spanish V HL (Y2)
French IV SL/HL
French V HL (Y2)
German IV SL
Latin IV SL/HL
Latin V HL (Y2)

Prerequisite: Previous
language level (Honors
recommended)

The focus of these courses is that students will be able to communicate with other World Language speakers in a comprehensible way so that they understand the cultures and contexts with which they are interacting. The courses are designed so that students will develop integrated language skills, increase cultural and social knowledge of the World Language and the associated cultures, and exchange ideas while gaining confidence in their abilities to communicate. Students demonstrate their knowledge and skills through oral exams, essays, and an IB examination.

## Group 3: Individuals and Societies

IB History of the Americas HL (Y1, Y2)

Prerequisite: World Geography (Honors recommended) AND World History (AP recommended)

History of the Americas HL is a two-year course with the first year dedicated primarily to Earl American Government principles and early 20th Century U.S. History. The second year of the course approaches mid-late 20th Century World Topics including global peacekeeping, a cas€ study dealing with the civil rights movement in the US (1954-1965) and a case study of Apart South Africa (1948-1964). The focus of this course is that students understand trends and developments along with continuity and change through time and individual events. These courses are concerned with individuals and societies in the widest context: political, social, economic, religious, technological, and cultural. Students develop analytical and research skil used to study primary sources and scholarly works to discover the overall framework of histo from an international perspective. Students will be assessed on their ability to mold and polis these skills via daily writing routines both short and extensive, participation in subject-center discussions, and final, research focused papers including an IB required Historical Investigatic

## Group 3 or 4: Individuals and Societies or Sciences

The purpose of Environmental Systems and Societies SL course is that it provides students with a logical, comprehensible and personal perspective of man and his impact on the environment. Studying Environmental Systems and Societies presents both an interdisciplinary understanding and an international perspective on the global issues that affect us. The course emphasizes how people and different society choices affect the whole. This course embraces a wide variety of topics from different content areas of study and merges them together in a rather delectable "Understand and Save the Planet" stew to be consumed and digested in an intentional mindedness and multicultural classroom. The course culminates with a series of data-based questions, an essay based on topics studied during the year, and a case study.

## Group 4: Sciences

IB Physics SL (Y1, Y2)

Prerequisite: Biology (honors recommended) and Chemistry (Honors recommended)

The IB Diploma Programme physics course is a 2 -year standard level course. It exposes students to this most fundamental experimental science, which seeks to explain the universe itself - from the very smallest particle to the vast distances between galaxies. Students study the impact of physics on society, the moral and ethical dilemmas, and the social, economic and environmental implications of the work of physicists. Further, students enjoy multiple opportunities for scientific study and creative inquiry within a global context.

| IB Biology SL/HL <br> IB Biology HL (Y2) | necessary to understand and adapt to the selective trends of our modern, technological <br> society at the global level. Students will become well-practiced in the areas of problem <br> solving, the development of scientific skills, thinking tools, and the use of technology. In <br> addition, students will learn effective ways of communicating and presenting scientific data <br> Prerequisite: Biology and <br> Chemistry (Honors <br> recommended for each) |
| :--- | :--- |
| and phenomena. Students will achieve these skills through the completion of either of the <br> two IB Biology courses: Biology Higher Level (HL) or Biology Standard Level (SL). The HL <br> course will explore all the SL topics with more depth and detail, and it will include <br> additional topics as selected by the students and teacher. |  |
| IB Chemistry SL | Chemistry is an experimental science that combines academic study with the acquisition of <br> practical and investigational skills. It is known as the central science, because its principles <br> underpin both the physical environment in which we live and all biological systems. The IB <br> Prerequisite: Chemistry <br> (Honors recommended) |
| offers some flexibility to accommodate the needs of students who wish to study it as their <br> major subject in higher education and of those who do not. It allows students to develop |  |
| practical skills and techniques, and to increase the facility in the use of mathematics, as the |  |
| language of science. In addition, it provides opportunities for growth of interpersonal skills |  |
| and digital technology skills, both important life-enhancing, transferable skills in their own |  |

## Group 5: Mathematics

## IB Mathematics: Analysis and Approaches SL

Prerequisite: Pre-Calculus (Honors recommended)

## IB Mathematics: Applications and Interpretation IB

Prerequisite: Algebra II (Honors recommended)

The Mathematics: Analysis and Approaches course is for students who enjoy developing their mathematics to become fluent in the construction of mathematical arguments and develop strong skills in mathematical thinking. They will also be fascinated by exploring real and abstract applications of these ideas, with and without technology. Students who take Mathematics: Analysis and Approaches will be those who enjoy the thrill of mathematical problem solving and generalization. This course includes topics that are both traditionally part of a pre-university mathematics course (for example, functions, trigonometry, calculus) as well as topics that are amenable to investigation, conjecture and proof, for instance the study of sequences and series. The course allows the use of technology, as fluency in relevant mathematical software and hand-held technology is important.

Mathematics: Applications and Interpretation is for students who are interested in developing their mathematics for describing our world and solving practical problems. They will also be interested in harnessing the power of technology alongside exploring mathematical models. Students who take Mathematics: Applications and Interpretation will be those who enjoy mathematics best when seen in a practical context. Students should be comfortable in the manipulation of algebraic expressions and enjoy the recognition of patterns and understand the mathematical generalization of these patterns.

IB Dance SL<br>IB Dance HL (Y1, Y2)<br>Prerequisite: Dance 1 and Dance 2 (recommended)

## IB Music SL <br> IB Music HL (Y1, Y2)

Prerequisite: Membership in Band, Choir or Orchestra

IB Dance will provide the opportunity to emphasize a healthy lifestyle and to experience the joy of creating and exploring movement. Our focus is to develop the physical, emotional, social, and intellectual aspects in one's life. Our aim and objectives are to encounter the art of dance through movement, knowledge, and a level of performance as well as to increase the self-confidence of a student. The course will offer intercultural awareness that will encourage students to consider multiple perspectives, develop knowledge and skills as they learn about their own and others' social, national, and international cultures. Skills are showcased in a final composition and analysis dance, a film performance piece, and an accompanying dance investigation essay.

The IB Music course is grounded in the knowledge, skills and processes associated with the study of music and offers a strengthened approach to student creativity through practical, informed and purposeful explorations of diverse musical forms, practices and contexts (personal, local and global). The course ensures a holistic approach to learning, with the roles of performer, creator and researcher afforded equal importance in all course components. Students will create an exploration portfolio, and experimentation report and a musical presentation. HL students will also submit a collaborative project.

IB Theatre is a two-year course that encourages discovery through experimentation, risktaking and the presentation of ideas. Students are given the opportunity to actively engage in theatre as creators, designers, directors and performers. It emphasizes working both individually and collaboratively as part of an ensemble. Students learn to apply research and theory to inform and to contextualize their work. Through researching, creating, preparing, presenting and critically reflecting on theatre, they gain a richer understanding of themselves, their community and the world. Students learn about theatre from around the world, the importance of making theatre with integrity, and the impact that theatre can have on the world. It enables them to discover and engage with different forms of theatre across time, place and culture, promoting international-mindedness and an appreciation of the diversity of theatre.

The IB Visual Art HL and SL courses will allow students the opportunity to take an advanced level art course in their junior and/or senior year. It is understood that the student will have successfully completed Art 1, and an additional second level visual arts class.

## IB Visual Arts SL <br> IB Visual Arts HL (Y1, Y2)

Although second through fourth level art classes are media specific classes (drawing painting, ceramics, sculpture), both Standard Level (one year) and Higher Level (requiring two years) IB Visual Art classes allow students to investigate as well as explore and document a variety of artistic solutions to visual challenges in various media. The aims of Visual Arts SL and HL are to enable the students to develop technical abilities, explore and value the diversity of the arts across time, place and cultures and demonstrate proficiency in variety of media while pursuing their area of artistic interest.

IB film students will watch cinematic masterpieces from around the world and develop the ability to understand film a complex art form, craft, and institution. They will be challenged to experience a broader and more diverse range of movies than they have previously encountered, and most importantly will be expected to watch and experience film actively and analytically. Students will learn to recognize and interpret the most important elements of film language and analyze the way filmmakers convey story and meaning. Film styles and movements are explored, and the central critical approaches to the study and appreciation of film as a genre. Final assessments will include textual analysis of films, essays pertaining to film theory and history of film, and an individual, creative film product

## IB Core Requirements

| IB Theory of Knowledge (TOK) <br> Prerequisite: Full IB Diploma Candidates | The Theory of Knowledge course is an interdisciplinary course designed to help students to develop the ability to think about what they know and how they know it while bringing to students an awareness of different perspectives on knowledge issues because of geography, culture, language, and philosophical/religious beliefs. Students will be encouraged to reflect on their own experiences as learners, foster a sense of curiosity with a desire to explore the diversity of ideas and cultures beyond their current experiences, and understand that other peoples' beliefs and ideas may be different. |
| :---: | :---: |
| IB Research: Extended Essay and Creativity, Activity, and Service (CAS) <br> Prerequisite: Full IB <br> Diploma Candidates | These two requirements are combined into a semester course designed to give students a solid foundation in these core components that will be continued outside the school day during the duration of their DP program. CAS is a framework for experiential learning designed to involve students in new roles. The emphasis is on learning by doing real tasks that have real consequences and then reflecting on these experiences over time. <br> The extended essay is a 4,000-word essay, usually the outcome of sixty hours of work, and must be submitted by every IB diploma candidate. This course will help students develop and refine research skills necessary to be successful for this endeavor. Students will develop quantifiable research questions in a chosen subject area. Each student will develop high level research and writing skills, intellectual discovery, and self-sufficient, academic investigations under the guidance of a supervisor. The IB Research class counts as a state elective credit. |

## Career and Technical Education Courses

## Agriculture, Food, and Natural Resources Course Descriptions

Texas Essential Knowledge and Skills (TEKS) - HERE

SC003R
Principles of Agriculture, Food, and Natural Resources

Grade Level - 9-12
Credits-1
Prerequisite - None

Where would we be without Agriculture? Cold and hungry! This is a comprehensive course for freshmen and/or first year agriculture students that introduces them to the international scope of agriculture, food, and natural resources and its effect upon society. It includes topics related to career development, building leadership skills through communication practices, and developing technical knowledge and skills related to animal production.

SC019R3
Small Animal Management
Grade Level - 10-12
Credits - . 5
Prerequisite - Principles of Agriculture, Food, and Natural Resources (recommended)

## SC023R3 <br> Equine Science

Grade Level - 10-12
Credits - . 5
Prerequisite - Principles of
Agriculture, Food, and Natural
Resources (recommended)
SC031R
Advanced Animal Science

Grade Level - 11-12
Credits - 1 ( $4^{\text {th }}$ Science)
Prerequisite - Chemistry,
Geometry, Small Animal Management, Equine Science, or Livestock Production
SC035R
Veterinary Medical Applications
Grade Level - 11-12
Credits - 1
Prerequisite - Equine Science, Small Animal Management, or Livestock Production

## SC047R

Practicum in Agriculture Veterinary Medical Applications

Grade Level-12
Credits - 1
Prerequisite - Veterinary Medical
Applications, Equine Science, Small
Animal Management, or Livestock
Production, OSHA 30
SC027R
Livestock Production

Grade Level - 10-12
Credits - 1
Prerequisite - Principles of Agriculture, Food, and Natural Resources (recommended)

Small Animal Management is a course designed to prepare students for a career in the field of animal science as it relates to small animal care and production. Students will learn responsibility of small animal ownership, animal welfare, care, animal health and management, facilities management, and record keeping systems, as well as examine career opportunities.

Want to learn about horses? Equine Science prepares students for a career in the field of animal science as it relates to horse (equine) care and production. Students will learn the responsibilities of ownership, health, facilities management, and anatomy and physiology. They will develop a supervised agricultural experience program that supports learning in the classroom.

Want to be a vet? Let us get you started. Advanced Animal Science is a lab based technical course that allows students to explore the various areas of livestock production through a hands-on approach to learning. At least 40\% of the instructional time will be used to conduct field and laboratory investigations. Nutrition, genetics, breeding systems, anatomy and physiology, health, and selection are some of the areas that will be explored. This course counts as a fourth science credit for graduation.

To be prepared for careers in the field of animal science, students need to acquire academic and technical skills and understandings related to animal systems and the workplace. Topics covered in this course include, but are not limited to, veterinary practices as they relate to both large and small animal species. Certification: OSHA 30

Student enrolled in this course will attain and develop the knowledge and technical skills related to animal systems and the workplace, career opportunities, entry requirements and industry expectations. Topics covered in this course include but are not limited to veterinary practices as they relate to both large and small animal species. Students will be exposed to small animals and be in direct proximity of avian, fish, amphibians, dogs, cats and rabbits. They will also work with large animals such as cattle, sheep, horses, goats, and pigs. Students are required to intern at a local vet office and earn hours towards a Vet Assist Certification.

Want to learn where your food comes from? Want to raise your own animal? We will show you how. Livestock Production is a course designed to prepare students for a career in the field of animal science. Students will learn employability characteristics, technical skills dealing with livestock and business operating plans. Within these areas, they will learn anatomy and physiology, feeding, breeding, and facility design and management.

|  |  |
| :---: | :---: |
| Agricultural Mechanics and Metal Technologies | To be prepared for careers in agricultural power, structural, and technical systems, students need to attain technical knowledge and skills related to these areas and the industry. This course is designed to develop an understanding of agricultural mechanics as it relates to safety and skills in tool operation, electrical wiring, plumbing, carpentry, fencing, concrete, and metal working techniques. Students are expected to complete a NCCER Certification exam. |
| Grade Level - 10-12 |  |
| Credits - 1 |  |
| Prerequisite - Principles of |  |
| Agriculture, Food, and Natural |  |
| SC043R |  |
| Agricultural Structures Design and Fabrication | Do you own horses but have no place to keep them when it rains? Do you have a cool car but have nowhere to park it at night? Maybe you just want to save money on repairs to your house. This course will provide students with the knowledge and skills necessary to consider a career in constructing agricultural and building systems. Instruction will focus on the specific components of building systems and on developing leadership and career skills. |
|  |  |
| Grade Level - 11-12 |  |
| Credits-1 |  |
| Prerequisite - Agricultural |  |
| Mechanics and Metal Technologies, NCCER Core |  |
| SC011R <br> Floral Design | Want to earn extra income making homecoming mums and floral arrangements? |
|  | Floral Design is a lab based technical course designed to develop knowledge and |
|  | skills associated with identifying and demonstrating the principles and techniques |
| Grade Level - 10-12 | related to floral design as well as developing an understanding of the management of floral enterprises. Students are required to purchase supplies for personal |
| Credits - 1 (Fine Arts)Prerequisite - None |  |
|  | projects. This course counts as a Fine Arts credit for graduation. Certification: Floral Design Knowledge Test |
|  |  |
| Advanced Floral Design | providing students with a thorough understanding of the design elements and |
| Grade Level - 11-12 | planning techniques used to produce unique specialty floral designs that support the |
| Credits - 1 | Certification |
| Prerequisite - Floral Design |  |
| SC017R |  |
| Practicum in Agricultural - | Practicum in Agriculture, Food, and Natural Resources is designed to give students supervised practical application of knowledge and skills in Floral Design. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experiences such as employment, independent study, internships, assistantships, mentorships, or laboratories. |
| Grade Level - 12 <br> Credits - 2 |  |
|  |  |
| Prerequisite -Advanced Floral |  |
| SC055R | This course is the third course in the Agricultural Engineering Program of Study. Students are expected to develop an Ag related Project. Students use scientific methods of investigation to conduct in-depth research, compile findings, and present their findings to an audience that includes experts in the field. |
| Project Based Research in |  |
| Agriculture |  |
| Grade Level-12 |  |
| Credits - 1 |  |
| Prerequisite - Agriculture |  |
| Structures Design Fabrication, |  |
| NCCER Certification |  |

## Arts, Audio/Video Technology, and Communications Course Descriptions

Texas Essential Knowledge and Skills (TEKS) - HERE

SC224R/SC224D
Graphic Design and Illustration I \& Lab

Grade Level - 11-12
Credits - 2
Prerequisite - Principles of Arts, Audio/Video Technology and Comm (recommended)

A course for creative and artistic students, this course will appeal to students who enjoy designing and creating projects that communicate visually. Graphic Design and Illustration is a creative study of the art of visual communications and advertising through creativity, illustration, design, analysis, approach and technical skills. Students will improve communication skills by learning to communicate visually, describe and defend their work, interview clients, present completed layouts and develop electronic and print portfolios. Students will have an opportunity to test for certification. Students may take the course for high school credit only which would require no tuition payment. Location: LaGrone Academy

Dual Credit: This course may be offered in partnership with North Texas Central College. NCTC registration must be completed and tuition requirements met in order to earn the NCTC dual credit.

Graphic Design and Illustration II will be a more in-depth study of illustration and visual communication with demonstrated ability to create, illustrate and communicate complicated ideas or designs with regard to technique and layout skills. Advanced students will be involved in projects for real world situations or clients. Additionally, students will have an opportunity for certification in Adobe Photoshop CS4. Students will further perfect a well-developed portfolio, both in electronic format and print. Location: LaGrone Academy

## Business Management and Administration, Marketing and Finance Course Descriptions

Texas Essential Knowledge and Skills (TEKS) - HERE

## SC304R <br> Principles of Business, Marketing and Finance

Grade Level - 9-12
Credits - 1
Prerequisite - None

SC364R
Money Matters

Grade Level - 11-12
Credits - 1
Prerequisite - None

Will you make a good business owner or team member in the corporate world? In this course, students gain knowledge and skills regarding economies and the private enterprise systems, the impact of global business, marketing of goods and services, advertising, and product pricing. Students analyze the sales process and financial management principles. This course allows students to reinforce, apply, and transfer academic knowledge and skills to a variety of interesting and relevant activities, problems, and settings in business, marketing, and finance.

Students investigate money management from a personal financial perceptive. Students will apply critical-thinking skills to analyze financial options based on current and projected economic factors. Students will gain knowledge and skills necessary to establish short-term and long-term financial goals. Students will examine various methods of achieving short-term and long-term financial goals through various methods such as investing, tax planning, asset allocating, risk management, retirement planning, and estate planning. Location: LaGrone Academy Only

|  |  |
| :--- | :--- |
| SC340R | This course will provide students with the knowledge and skills needed to become an |
| Entrepreneurship | entrepreneur. They will learn the principles necessary to begin and operate a business. |
| Grade Level - 11-12 | a primary focus of the course is to help students understand the process of analyzing |
| Credits - 1 |  |
| Prerequisite - None | using research, and developing a plan to organize and promote the business and its |
| products and services. In addition, students understand the capital required, the return |  |
| on investment desired and the potential for profit. |  |

Texas Essential Knowledge and Skills (TEKS) - HERE

SC001R

## Career Preparation I

Grade Level - 11-12
Prerequisite - None

SC002R
Career Preparation II

Grade Level - 12
Prerequisite - None

Students may choose to earn 2-3 high school elective credits per year for attending one Career Preparation class and working 10-15 hours per week in a related career field. Students may receive teacher assistance in finding job openings, but students are responsible for securing employment on their own. Students may enter this program only at the beginning of each school year. Students must have an approved paid employment location by the end of the first week of the semester in order to earn credit.

Students are eligible for a work release from school in order to report to their employment location. Students will receive instruction concerning work ethics, attitude, employers' expectations, and goal setting. Students will be monitored at the employment location and receive on-the-job experience and training. Most of these students tend to graduate with work experience on their resume. Students must be 16 years old to be considered and their attendance and grades will be evaluated. Enrollment and employment location are approved by the instructor. Students must provide their own transportation to their work-based learning sites.

| :---: | :---: |
| SC750R |  |
| Principles of Education and Training | Do you like to work with children? Principles of Education and Training is designed to introduce learners to the various careers available within the |
| Grade Level - 9-12 | education and training career cluster. Students use self-knowledge and |
| Credits | educational and career information to analyze various careers. |
| Prerequisite - None |  |
| Family and Consumer Services | Students in this course are to be involved in realistic and meaningful communitybased activities through direct service or service-learning experiences. Students are provided opportunities to interact with and provide services to individuals, |
| Grade Level - 11-12 | families, and the community through community or volunteer services. Emphasis |
| Credits - 1 | is placed on developing and enhancing organizational and leadership skills and |
| Prerequisite - None | characteristics. Students will have the opportunity to earn their Community Health Worker Certification. |
| SC708R <br> Child Guidance - Internship | Child Guidance focuses on knowledge and skills related to child growth and guidance to help students develop positive relationships with children and learn effective caregiver skills. This technical laboratory course provides an |
|  |  |
| Grade Level - 11-12 | opportunity for students to promote the well-being and healthy development of children, strengthen a culturally diverse society, and pursue careers related to |
| Credits - 2 |  |
| Prerequisite - Child Developmen | children, strengthen a culturally diverse society, and pursue careers related to the care, guidance, and education of all children. |
| SC712R <br> Practicum in Early Learning | Practicum in Human Services provides background knowledge and occupationspecific training that focuses on early childhood development and services. |
|  |  |
| Grade Level - 11-12 | preparation needs and interests of students and should be based upon the knowledge and skills selected from two or more courses in a coherent sequence |
| Credits - 2 <br> Prerequisite - Child Development |  |
|  | in the human services cluster. |
|  | Do you want to be a teacher? Students in this course work under the supervision of the elementary/middle school teacher as well as the course instructor. |
| Instructional Practices | Students learn to plan, develop and prepare instructional materials, teach activities for the classroom and complete responsibilities of teachers in general. |
| Grade Level - 11-12 | Location: LaGrone Academy |
| Credits - 2 |  |
| Prerequisite - None | Dual Credit: This course may be offered in partnership with North Texas Central College. NCTC registration must be completed and tuition requirements met. |

SC762R
Practicum in Education and Training
Grade Level - 12
Credits - 2
Prerequisite - Instructional Practices

This course provides an opportunity to build on skills with a teacher in one of Denton ISD's Pre-K, Kinder, Elementary or Middle School classes. Students plan and present lessons, supervise individualized instruction and group activities, prepare instructional materials, assist with record keeping, manage the classroom, and other teacher responsibilities as assigned by the instructor. The TWU Teacher Education Program recognizes that DISD Education and Training students who provide evidence of successful completion of the Instructional Practices course with a "B" or better OR a combined average of "C" or better in both the Instructional Practice and Practicum in Edu and Training courses have met competencies required of the introductory course in the education minor - EDUC 2003: Schools and Society. The TWU Teacher Ed Program will waive this course from the degree plan upon the student's admission. This non-transferable course waiver may provide both time and cost savings. Certification: Educational Aide I. Location: LaGrone Academy

Dual Credit: This course may be offered in partnership with North Texas Central College. NCTC registration must be completed and tuition requirements met.

## Government, Law, Public Safety, Corrections, and Security Courses

Texas Essential Knowledge and Skills (TEKS) - HERE

| SC800R |  |
| :--- | :--- |
| Principles of Law, Public Safety, |  |
| Corrections and Security | The Principles of Law, Public Safety, Corrections and Security course introduces |
| students to professions in law enforcement, security, corrections, fire and |  |
| Grade Level - 9-12 |  |
| eredits - 1 |  |
| emergency management services, and the legal field. Students will examine |  |
| roles and responsibilities of police, courts, corrections, private security, and |  |
| protective agencies of fire and emergency services within local, county, state, |  |
| federal, and private industry. The course provides students with an overview of |  |
| the skills necessary for such careers. |  |
|  | Court Systems and Practices is an overview of the federal and state court |
| systems. The course identifies the roles of judicial officers and the trial |  |
| Processes from pretrial to sentencing and examines the types and rules of |  |
| Practicum in Law - | evidence. Emphasis is placed on constitutional laws for criminal procedures |
| Court Systems and Practices | such as search and seizure, stop and frisk, and interrogation. In addition to |
| Grade Level - 11-12 | classroom learning, the student will hear lectures from individuals employed in |
| Credits - 2 | themmunity in related fields. Students will participate in scenarios using |
| Prerequisite - None | skills from this course and academic courses to prepare various forms of |
| grammatically correct communication, both oral and written. The class will |  |
| participate in various mock trials, demonstrating mastery of knowledge and |  |
| skills. This course is a required prerequisite for the Pre-Law Practicum. |  |

| SC812R3, SC816R3 <br> Law Enforcement I and II <br> Grade Level - 11-12 <br> Credits - 2 <br> Prerequisite - None | Law Enforcement I and II is an overview of the history, organization, and functions of local, state and federal law enforcement. Students will learn the basics of patrol functions and crime scene investigations. This course includes the role of constitutional law, the United States legal system, criminal law, law enforcement terminology, and the classification and elements of crime. <br> Location: LaGrone Academy |
| :---: | :---: |
| SC848R, SC856R <br> Practicum in Law, Public Safety, <br> Corrections, and Security <br> Grade Level - 12 <br> Credits - 2 <br> Prerequisite - Law Enforcement I and II | Practicum in Law, Public Safety, Corrections and Security course includes knowledge of and preparation for postsecondary education and training or employment in the law enforcement field in the areas of forensic science, communications, geographic information systems (GIS), law enforcement and investigations. The rules, regulations, laws, and techniques that assist the law enforcement professional are applied with a variety of tools and equipment. Certification: Security Guard Level 2. Location: LaGrone Academy |
| SC828R <br> Forensic Science <br> Grade Level - 11-12 <br> Credits - 1 <br> Prerequisite-Chemistry | Forensic Science is a course focusing on the drive to unlock the mystery of crimes through the application of science. It is designed to provide students with an introductory understanding of criminology. Knowledge and skills will be gained in hair/fiber analysis, blood type analysis, bloodstain patterns, DNA, and fingerprint comparison. The student, for at least $40 \%$ of instructional time, conducts laboratory and field investigations using safe, environmentally appropriate, and ethical practices. This course counts as a 4th SCIENCE credit for graduation. Location: LaGrone Academy |
| SC832R3 <br> Criminal Investigation <br> Grade Level - 11-12 <br> Credits - 1 <br> Prerequisite - Principles of Law, Public <br> Safety, Corrections and Security (recommended) | Criminal Investigations course will focus on basic functions of criminal investigations and procedures. Students will learn terminology, and investigating processing, evidence collection, fingerprinting, and courtroom presentation. Students will collect and analyze evidence from a simulated crime scene. Location: LaGrone Academy |
| SC804D <br> Firefighter I <br> Grade Level - 11 <br> Credits - 2 <br> Prerequisite - Principles of Law, Public <br> Safety, Corrections and Security, <br> Principles of Health Science <br> (recommended) | This course is the first year of a 2-year commitment in the Denton ISD Fire Academy. This is a dual credit program in cooperation with the Denton Fire Department and NCTC. The Fire Academy is designed to give the student a wellrounded education for a professional career in the fire service and the training for Basic Firefighter Certification in accordance with the Texas Commission on Fire Protection (TCFP). Location: LaGrone Academy <br> Dual Credit: This course may be offered in partnership with North Texas Central College. NCTC registration must be completed and tuition requirements met. |
| SC808D <br> Firefighter II |  |
| Grade Level - 12 <br> Credits - 5 <br> Prerequisite - Firefighter I + Anatomy <br> and Physiology recommended | This course is the second year of a 2-year commitment in the Denton ISD Fire Academy. This is a dual credit program in cooperation with the Denton Fire Department and NCTC. The Fire Academy is designed to give the student a wellrounded education for a professional career in the fire service and the training for Basic Firefighter Certification in accordance with the Texas Commission on |
| SC806D3 <br> Emergency Medical Technician - Basic <br> Grade Level - 12 | Fire Protection (TCFP). Location: LaGrone Academy <br> Dual Credit: This course may be offered in partnership with North Texas Central College. NCTC registration must be completed and tuition requirements met. |

## Health Science Courses

| Local Course ID | Course | Grade Level | Credits |
| :---: | :---: | :---: | :---: |
| SC900R | Principles of Health Science | 10-12 | 1 |
| SC904R | Health Science Theory \& Clinical | 11-12 | 2 |
| SC908R | Health Science Lab | 12 | 2 |
| SC912R | Practicum in Health Science - Medical Assisting (CCMA) (Advanced) | 12 | 2 |
| SC916R | Practicum in Health Science - Certified Nursing Assistant (C.N.A.) (Advanced) | 12 | 2 |
| SC920D | Practicum in Health Science - Emergency Medical Technician (EMT) (Dual Credit) | 12 | 2 |
| SC924R | Practicum in Health Science - Pharmacology | 12 | 2 |
| SC928R | Anatomy and Physiology of Human Systems | 11-12 | 1 |

## Health Science Course Descriptions

Texas Essential Knowledge and Skills (TEKS) - HERE

| SC900R <br> Principles of Health Science <br> Grade Level - 9-12 <br> Credits - 1 <br> Prerequisite - None | This course gives an overview of the medical terminology, therapeutic, diagnostic, environmental and informational systems of the health care industry. The focus is on career exploration, leadership development, ethical and legal issues and the history, economics and trends in financing health care. Students will develop a concept of health and wellness from the perspective of a consumer as well as a potential professional in the health care industry. This course is a required prerequisite for Health Science. |
| :---: | :---: |
| SC904R/SC908R <br> Health Science Theory and Clinical <br> Grade Level - 11-12 <br> Credits - 2 <br> Prerequisite - Principles of Health Science and Biology | This course is designed to provide for the development of multi-occupational knowledge and skills related to a wide variety of health care careers. Students will have hands-on experiences for continued knowledge and skill development. The course may be taught by different methods such as laboratory, simulations, clinical rotation, or cooperative education. Students may be placed in clinical rotation internships at the hospitals; this placement is a privilege, not a guarantee. This course is a required prerequisite for Practicum in Health Science courses. Location: LaGrone Academy |
| SC912R <br> Practicum in Health Science: <br> Medical Assisting (CCMA) <br> Grade Level - 12 <br> Credits - 2 <br> Prerequisite - Principles of Health Science, Health Science Theory and Clinical/Biology | This course prepares students to take the Certified Clinical Medical Assistant exam. Testing for this exam is required and will equip students with an employable certification in medical facilities. Instruction in this course includes study in clinical and administrative areas such as human anatomy, medical terminology, pharmacology, first aid, lab techniques, how to administer medicine, coding and insurance processing, record-keeping and accounting, and medical law and ethics. Students must provide their own transportation for site visits throughout the year. Location: LaGrone Academy |

SC916R
Practicum in Health Science: Certified Nursing Assistant (CNA)

Grade Level - 12
Credits - 2
Prerequisite - Principles of Health Science, Health Science Theory and Clinical/Biology

This course is designed to provide instruction toward a certification with the State of Texas for Certified Nursing Assistant. CNAs provide basic bedside care under the care of a Physician, Registered Nurse and Licensed Vocational Nurse. Students will be able to work in a medical facility after passing state certification. Class requirements include 76 hours of classroom instruction along with 30 to 40 hours of clinical instruction at the nursing facility. Students are expected to complete the CNA certification exam. Location: LaGrone Academy

The Pharmacology Program provides students with the skills and knowledge to prepare them for the national Pharmacy Technician Certification Board exam and enable students to qualify for entry-level positions in retail and hospital pharmacies. The course content will emphasize medical math skills for pharmacy and nursing, drug classifications, drug actions, drug administration, ethical and legal issues, safety, and pharmacodynamics/pharmacokinetics of prescription and nonprescription medications. Students will explore career options. Students are expected to complete the Pharmacology Certification Exam. Location: LaGrone Academy

This course introduces the normal structure and function of the body, including an understanding of body systems in maintaining homeostasis with principles of microbiology also included. The course uses a method of instruction providing detailed education, training and work-based experience, and direct patient/client care, generally at a clinical site. Instruction includes all the skills necessary to provide emergency medical care at a basic life support level with an ambulance service or other specialized services. The Emergency Medical Technician (EMT) courses provides instruction to prepare students for EMT certification. This course is a dual credit program offered with NCTC. The courses students will register for are EMSP 1160 and 1501. The EMT curriculum is based on the National EMS Educational Standards. Location: LaGrone Academy

SC928R
Anatomy and Physiology of Human Systems

Grade Level - 11-12
Credits - 1
Prerequisite - Biology

Anatomy and Physiology of Human Systems focuses on the study of the structure of function of the human body, its individual systems, and the integration of the body systems into an efficiently functioning organism. Respiration, transportation, nutrition, excretion, support/movement, and reproduction are the major topics covered.
Dissection is a major component of this course and participation in dissection labs is required.

## Hospitality and Tourism Courses

| :---: | :---: | :---: | :---: |
| SC400R | Introduction to Culinary Arts | 10-12 | 1 |
| SC404R | Partner to Intro to Culinary Arts | 10-12 | 1 |
| SC408R | Culinary Arts (Advanced) | 11-12 | 2 |
| SC412R | Advanced Culinary Arts (Advanced) | 12 | 2 |
| SC416R | Food Science (Advanced) | 11-12 | 1 |
| SC420R | Practicum in Culinary Arts/Extended | 12 | 3 |
| SC424R | Hospitality Services (Advanced) | 11-12 | 2 |
| SC428R | Practicum in Hospitality Services (Advanced) | 12 | 2 |

## Hospitality and Tourism Course Descriptions

Texas Essential Knowledge and Skills (TEKS) - $\underline{\text { HERE }}$

SC424R, SC428R
Hospitality Services and
Practicum of Hospitality
Services

Services

Grade Level - 11-12
Credits - 2
Prerequisite - None

Students will develop the skills needed to excel in careers including hotel and restaurant manager, cruise ship director, chef, amusement park manager, travel agent, and many more. Curriculum will be delivered through classroom instruction and/or internships in community hotels. Example of skills covered include; communications and guest services, hotel ownership types, career exploration, security, ethics, forecasting, housekeeping, food service, and travel and tourism. Location: LaGrone Academy

In Food Science students conduct laboratory and field investigations using scientific methods and investigations. Students make informed decisions using critical thinking and scientific problem solving with foods as the experimental focus. Food Science is the study of the nature of foods, the causes of deterioration, the principles underlying food processing, and the improvement of foods for the consuming public. The student, for at least $40 \%$ of instructional time, conducts laboratory and field investigations using safe, environmentally appropriate, and ethical practices. This course counts as a 4th Science credit for graduation.

Practicum in Culinary Arts introduces students to basic management techniques, administrative practices, and procedures for running a food truck business. Students will focus on areas to support the operation of the food truck from food preparation, purchasing, cost control, safety and sanitation, customer service, beverage management, and hospitality. Location: LaGrone Academy

Grade Level - 12
Credits - 3
Prerequisite -Culinary Arts, ServSafe Manager Certification

## Human Services Courses

| Local Course ID | Course | Grade Level | Credits |
| :---: | :---: | :---: | :---: |
| SC700R | Principles of Human Services | 9-12 | 1 |
| SC704R | Child Development | 10-12 | 1 |
| SC716R3 | Interpersonal Studies | 9-12 | . 5 |
| SC720R3 | Dollars and Sense | 11-12 | . 5 |
| SC724R | Counseling and Mental Health | 11-12 | 1 |
| SC728R | Principles of Cosmetology Design and Color Theory | 10-12 | 1 |
| SC732R | Introduction to Cosmetology | 10-12 | 1 |
| SC736R | Cosmetology I | 11-12 | 2 |
| SC740R | Practicum in Human Services - Cosmetology I (Advanced) | 11-12 | 2 |
| SC744R | Cosmetology II | 12 | 2 |
| SC748R | Practicum in Human Services - Cosmetology II (Advanced) | 12 | 2 |
| SC766R | Family and Community Services | 11-12 | 1 |

## Human Services Course Descriptions

Texas Essential Knowledge and Skills (TEKS) - $\underline{\text { HERE }}$

| SC700R |  |
| :--- | :--- |
| Principles of Human Services |  |
| Grade Level - 9-12 <br> Credits - <br> Prerequisite - None | This hands-on course will allow the student to sample and gain knowledge about <br> eareers in the human services career cluster, including counseling and mental health, <br> early childhood, family and community, and personal care services. Each student is <br> expected to complete the knowledge and skills essential for success in high-skill, high- <br> wage, or high demand human service careers. Students are encouraged to participate <br> in the student organization: Family, Career, Community Leaders of America (FCCLA). |
| SC704R <br> Child Development | This class concentrates on the development, care, guidance and protection of children. <br> Students will look at the growth and development of infants, toddlers, and school age <br> children. Students will use the skills obtained in this class to promote the well-being <br> and healthy development of children and investigate careers related to the care and <br> Credits - 1 |
| education of children. |  |
| SC716R3 <br> Interpersonal Studies | In Interpersonal Studies, students will develop valuable skills that will help them <br> prepare for life as a young adult. This program has a central focus on developing a <br> lifelong positive impact in their community. The goal is to provide opportunities for <br> personal development through a variety of activities including decision making and <br> problem solving. |
| Grade Level - 9-12 <br> Credits - .5 |  |
| Prerequisite - None |  |

Information Technology Courses

| Local Course ID | Course | Grade Level | Credits |
| :---: | :---: | :---: | :---: |
| SC642R | Computer Maintenance \& Lab | 10-12 | 2 |
| SC646R | Computer Technician Practicum | 11-12 | 2 |
| SC650R, SC654R | CISCO Internetworking Technologies I and II | 11-12 | 2 |
| SC658R | Practicum in Information Technology - Cisco III and IV | 11-12 | 2 |

## Information Technology Course Descriptions

| Texas Essential Knowledge and Skills (TEKS) - HERE |  |
| :---: | :---: |
| SC642R <br> Computer Maintenance and Lab <br> Grade Level - 11-12 <br> Credits - 2 <br> Prerequisite - None | Computer Maintenance covers the fundamentals of computer hardware and software as well as advanced concepts. Students learn about the internal components of a computer, assemble a computer system, install an operating system and troubleshoot using system tools and diagnostic software. Topics also include laptop and portable devices, wireless connectivity, security, safety and environmental issues, and communication skills. Students will explore a variety of topics including installation procedures, security issues, back up procedures and remote access. Hands-on lab activities are an essential element. Students are expected to complete the A+ Certification Exam and Dell Certification: Dell Tech Crew |
| SC646R <br> Computer Technician Practicum <br> Grade Level - 11-12 <br> Credits - 2 <br> Prerequisite - Computer <br> Maintenance | Students gain knowledge and skills in the area of computer technologies, including advanced knowledge of electrical and electronic theory, computer principles and components related to the installation, diagnosis, service, and repair of computerbased technology systems. Students will reinforce, apply and transfer their knowledge and skills to a variety of settings and problem-solving situations. Students also repair computers for the Dell Tech Crew Internship and provide professional repair service to the community. |
| SC650R3, SC654R3 <br> Cisco Internetworking <br> Technologies I and II Dual Credit <br> Grade Level - 11-12 <br> Credits - 2 <br> Prerequisite - None | Cisco Internetworking, I / II curriculum explores networking-based application, -concepts within the context of network environment that students may encounter in their daily lives - from small office and home office ( SOHO ) networking to larger scale networking models. The curriculum is the Cisco Networking online computer-based curriculum and hands-on lab assignments. Students are expected to take the Cisco Networking Certification. Location: LaGrone Academy <br> Dual Credit: This course may be offered in partnership with North Texas Central College. NCTC registration must be completed and tuition requirements met. |
| SC658R <br> Practicum in Information <br> Technology: Cisco III and IV <br> Grade Level - 12 <br> Credits - 2 <br> Prerequisite - Cisco <br> Internetworking I and II | This course will extend the learning of Cisco Internetworking to level III and IV. The curriculum covers networking-based application, networking concepts within the context of network environment that students may encounter in their daily lives from small office and home office (SOHO) networking to larger scale networking models. The curriculum is the Cisco Networking online computer-based curriculum and hands-on lab assignments. Students are expected to complete the certification exam upon completion of the course. Location: LaGrone Academy <br> Dual Credit: This course may be offered in partnership with North Texas Central College. NCTC registration must be completed and tuition requirements met. |

## Manufacturing Courses

| Local Course ID | Course | Grade Level | Credits |
| :---: | :---: | :---: | :---: |
| SC500R | Principles of Manufacturing (BHS only) | 9-12 | 1 |
| SC504R | Precision Metal Manufacturing I | 11-12 | 2 |
| SC508R | Precision Metal Manufacturing II (Advanced) | 12 | 2 |
| SC512R | Intro to Welding | 10-12 | 1 |
| SC516R | Welding I | 11-12 | 2 |
| SC520R | Welding II (Advanced) | 12 | 2 |

## Manufacturing Course Descriptions

Texas Essential Knowledge and Skills (TEKS) - HERE

| SC512R <br> Intro to Welding <br> Grade Level - 10-12 <br> Credits - 1 <br> Prerequisite - None | Students will be introduced to the three basic welding processes. Topics include industrial safety and health practices, hand tool and power machine use, measurement, laboratory operating procedures, welding power sources, welding career potentials, and introduction to welding codes and standards. Introduction to Welding will provide students with the knowledge, skills, and technologies required for employment in welding industries. Students will develop knowledge and skills related to welding and apply them to personal career development. This course supports integration of academic and technical knowledge and skills. Students will reinforce, apply, and transfer knowledge and skills to a variety of settings and problems. Certification: NCCER Core |
| :---: | :---: |
| SC516R <br> Welding I <br> Grade Level - 11-12 <br> Credits - 2 <br> Prerequisite - Intro to Welding, <br> NCCER Core Certification | This course is an entry level technical welding course. It is designed for the beginner with little or no welding experience who is interested in pursuing a course of study that can lead to an American Welding Society (AWS) entry level certification. Course curriculum follows American Welding Society "SENSE" guidelines to prepare the serious student for entry level certification testing after completing Advanced Welding. Students may take the course for high school credit only which would require no tuition payment. Certification: AWS Certification. Location: LaGrone Academy |
| SC520R <br> Welding II <br> Grade Level - 12 <br> Credits - 2 <br> Prerequisite - Welding I | This advanced welding program will follow American Welding Society "SENSE" guidelines to prepare the serious student for entry level certification testing after completing Advanced Welding. Students will complete individual projects to demonstrate industry competencies. Certification: AWS Certification. Location: LaGrone Academy |

## STEM - Science, Technology, Engineering, and Mathematics Courses

| Local Course ID | Course | Grade Level | Credits |
| :---: | :---: | :---: | :---: |
| SC600R | Introduction to Engineering Design (PLTW) | 9-12 | 1 |
| SC604R | Principles of Applied Engineering - Digital Electronics | 10-12 | 1 |
| SC614R | Practicum in STEM I | 11 | 2 |
| SC620R | Practicum in STEM II | 12 | 2 |
| SECS1R | Computer Science I | 9-12 | 1 |
| SECS1H | Computer Science I Honors | 9-12 | 1 |
| SMACSP | AP Computer Science A | 10-12 | 1 |
| SECSPP | AP Computer Science Principles | 9-12 | 1 |

## Science, Technology, Engineering, and Mathematics (STEM) Course Descriptions

Texas Essential Knowledge and Skills (TEKS) - HERE

| SECS1R <br> Computer Science I <br> Grade Level - 9-12 <br> Credits - 1 <br> Prerequisite - Algebra I | CS I fosters students' creativity and innovation by presenting opportunities to design, implement, and present meaningful programs through a variety of media. Through data analysis, students will identify task requirements, plan search strategies, and use computer science concepts to access, analyze, and evaluate information needed to solve problems. Students will select the technology appropriate for the task, synthesize knowledge, create solutions, and evaluate the results. Students will learn digital citizenship by researching current laws and regulations and by practicing integrity and respect. Students will gain an understanding of the principles of computer science through the study of technology operations, systems, and concepts. |
| :---: | :---: |
| SECS1H <br> Computer Science I Honors <br> Grade Level - 9-12 <br> Credits - 1 <br> Prerequisite - Algebra I | Honors Computer Science I is recommended for students wanting to prepare for AP Computer Science A and who wish to have a career in mathematics, a mathematics related fields, engineering or engineering related fields, computer science or other computer related fields. Emphasis is placed on program structures and problem-solving techniques. These concepts are at a higher level than those taught in Computer Science I and will help students develop a deeper understanding of concepts to support their success on the AP Computer Science A exam. |
| SMACSP <br> AP Computer Science A <br> Grade Level - 10-12 <br> Credits - 1 <br> Prerequisite - Algebra I with a strong foundation in basic algebraic concepts dealing with function notation | AP Computer Science A is an introductory college-level computer science course. Students cultivate their understanding of coding through analyzing, writing, and testing code as they explore concepts like modularity, variables, and control structures. The ten big ideas that comprise this course are: primitive types, using objects, Boolean expressions and "if" statements, iteration, writing classes, arrays, array lists, 2D arrays, inheritance, and recursion. Note: For graduation requirement purposes, students who successfully complete this course may count it as an advanced math requirement, and it will be included in math GPA calculations. (In some situations, students may request to count this course as a world language course requirement, but it will not be included in world language GPA calculations.) |
| SECSPP <br> AP Computer Science Principles <br> Grade Level - 10-12 <br> Credits - 1 <br> Prerequisite - Algebra I | In the AP Computer Science Principles course, students learn the principles that underlie the science of computing and develop the thinking skills that computer scientists use. In this course, students will work on their own and as part of a team to creatively address real-world issues using the tools and processes of computation. The five big ideas that comprise this course are: creative development, data, algorithms and programming, computer systems and networks, and the impact of computing. Note: This course does not count as a math graduation credit. |

## Transportation, Distribution, and Logistics Courses

| Local Course ID | Course | Grade Level | Credits |
| :---: | :---: | :---: | :---: |
| SC524R3 | Aviation Ground School | 11-12 | 1 |
| SC522R3 | Introduction to Aircraft Technology | 11-12 | 1 |
| SC548R | Practicum in Transportation Systems | 12 | 2 |
| SC540R, SC544R | Principles of Transportation Systems/Automotive Basics | 10 | 2 |
| SC532R | Automotive Technology I: Maintenance and Light Repair (Advanced) | 11 | 2 |
| SC536R | Automotive Technology II: Automotive Service (Advanced) | 12 | 2 |
| SC527R | Aircraft Airframe Technology | 11-12 | 2 |

Transportation, Distribution, and Logistics Course Descriptions
Texas Essential Knowledge and Skills (TEKS) - HERE

| SC524R3 |  |
| :--- | :--- |

| Grade Level - 11-12 |  |
| Credits - 1 |  |
| Prerequisite - None | Federal Aviation Administration (FAA) Airman Knowledge Test which is required to |
|  | obtain a private pilot's license. (This is a blocked course - two periods in one semester.) |
| Location: US Aviation at Denton Airport |  |

Grade Level - 12
Credits - 2
Prerequisite - Alg I, Geometry
Co-requisite - Physics

## Principles of Transportation

Systems/ Automotive Basics

Grade Level - 10
Credits - 2
Prerequisite - None

SC532R
Automotive Technology I: Maintenance and Light Repair

Grade Level - 11
Credits - 2
Prerequisite - Principles of Transportation Systems / Automotive Basics

## SC536R

Automotive Technology II: Automotive Service

Grade Level - 12
Credits - 2
Prerequisite - Automotive Technology I: Maintenance and Light Repair

Aircraft Airframe Technology is designed to teach the theory of operation of aircraft airframes and associated maintenance and repair practices. Airframe maintenance and repair practices include knowledge of the function, diagnosis, and service of airframe structures, systems, and components of aircraft.

Students in this course will learn about basic automotive systems and the theory and principles of the components that make up each system and how to service these systems. Automotive Basics includes applicable safety and environmental rules and regulations. In Automotive Basics, students will gain knowledge and skills in the repair, maintenance, and servicing of vehicle systems. This study allows students to reinforce, apply, and transfer academic knowledge and skills to a variety of interesting and relevant activities, problems, and settings. The focus of this course is to teach safety, tool identification, proper tool use, and employability. Location: LaGrone Academy

The Automotive Technology student will gain knowledge and skills in the repair, maintenance, and diagnosis of motor vehicles. This study allows students to reinforce, apply, and transfer academic knowledge and skills to a variety of interesting and relevant activities, problems, and settings. Students will explore career and postsecondary opportunities as they relate to the automotive repair industry. Students are expected to complete the ASE Certification exam Maintenance and Light Repair. Location: LaGrone Academy

The Automotive Technology II student will build on the knowledge and skills in the repair, maintenance, and diagnosis of motor vehicles acquired from Automotive Technology I. Students will explore career and post-secondary opportunities as they relate to the automotive repair industry. Students are expected to complete the ASE Certification Exam Automotive Services. Location: LaGrone Academy

[^0]:    *if considered passing, otherwise " 55 "

[^1]:    *Recommended only for students planning to enroll in Texas public colleges and universities after graduation

[^2]:    *Denton ISD students who are two years accelerated in mathematics and interested in taking Pre-Calculus Dual Credit in 10th grade should take the TSIA2 in the spring semester.
