Analyze Your Paper

Title*: * denotes required field

Paste the text of your paper below and select the "Get Report" button to **immediately** receive an analysis of your paper.*

NOTE: Please remove any student names, teacher names, etc. from the top of the paper so that our automated analyzer does not get confused. Also, this tool is designed for high school, college, and above. Middle school writing (or younger) may be returned with an error message.

There is elements of language that allow us to beter understand the world. Abstractions in language help us classify ideas into groups so that we may generalize or specify parts within a label. For instance a car is made up of many parts, such as the engine, the wheels, the body, etc. We call it a car instead of "an engine driving the wheels with a body attached to carry passengers", to make it easier for us not only to transfer the thought within our mind, but also to others. Also, by calling it a

understanding. something such as temperature cannot be measured because it is infinitely variable. it is just our environment reduced to numbers so that we can conceive it in our minds. Again, our world is divided into pieces so the human mind can understand it bit buy bit. From seeing a car to measuring the temperature, language offers a explanation to our experiences and is powerful tool to help us think.

The screenshot shows a web browser window with the URL http://www.paperrater.com/site/show_sub/dcb80ca5d1/6401429. The browser has several tabs open: "hydra - Google Search", "Google Image Result fo...", and "Paper Rater". The Paper Rater page displays a sample essay titled "Title" with the text: "There is elements of language that allow us to **beter** understand the world. Abstractions in language help us classify ideas into groups so that we may generalize or specify parts within a label. For instance a car is made up of many parts, such as the engine, the wheels, the body, etc. We call it a car instead of "an engine driving the wheels with a body **atached** to carry passengers", to make it easier for us not only to transfer the thought within our mind, but also to others. Also, by calling it a car, we have differentiated the object from a train or a bike, both being other modes of transportation. Abstractions are part of our mental grids that help us by chopping reality into fragments so that we may organize it and put it into our grasp of understanding. Something such as temperature cannot be measured because it is infinitely variable. It is just our environment reduced to numbers so that we can conceive it in our minds. Again, our world is divided into pieces so the human mind can understand it bit **buy** bit. From seeing a car to measuring the temperature, language offers **a explanation** to our experiences and is powerful tool to help us think."

On the right side of the page, there is a section titled "Analysis complete. Select an item below to view the notes associated with that item." with a magnifying glass icon. Below this is a list of analysis tools: Alerts, Title Checker, Spelling, Grammar, Word Choice, Style, Vocabulary Words, Grade, and Facebook. At the bottom right, there is a "PRINT" button and a link to "printable summary report".

DUE BY TUESDAY, APRIL 16!
