

Home Access Center

Home Access Center (HAC) is the parent portal for student data in **all grade levels**. Denton ISD parents were offered the ability to use Home Access Center since the Spring 2012. One of the uses was to update returning student information.

If you are not a current user of Home Access Center, contact the office of your child's campus.

Please note: You will need a current, valid email address to obtain an account.

Parents of students in all grade levels will be able to view:

- Report Cards (all grade levels)
- Student's demographic information
- Schedules
- Attendance information
- Discipline information
- Transportation
- Current Denton ISD student registration information
- Parent requests to updates to student information
- Home Access Center is the gateway for **elementary parents** to view assignments and grades for their students.

Parent Connection - Grades 6th – 12th Only

PC provides parents access to assignments and grades for middle and high school students.
