

Bring a Device to Campus – Parental Permission

Parent,

During the school year, there will be times when students may bring in their own device for the purpose of instruction. We recognize not all students have personal devices, but if your child has one and you are okay with him/her bringing this device to school on an approved day, please fill out the following information.

Student's Name: _____

Homeroom Teacher: _____

Type of Personal Device: _____

Bring Your Own Device (Page 89 of DISD Student Code of Conduct)

Denton ISD will grant all students permission to bring a personal web-enabled device from home to campus for their academic use. Student use of personally-owned devices in the classroom setting will be at the discretion of campus administration and/or classroom teachers.

Students who use web-enabled devices from home will have access to the filtered, wireless DISD-PUB network but will not have access to any district printers or district drives such as network folders. Network drives can only be accessed via district machines.

Denton ISD is not liable for any loss or damage incurred. Denton ISD will not provide maintenance, nor can it load any software onto any personal, non-district device. Identity theft is a growing problem. We recommend that any personally sensitive files (such as tax documents, social security information, bank records, etc.) are removed from any device before it is used on campus.

Users should not loan their device to someone else. The user is responsible for any content on the device regardless of how it originated.

DISD is not responsible for lost, damaged, or stolen devices.

Any dispute involving Acceptable Use of district or personal resources will be settled at the discretion of District personnel.

All technological devices brought onto a Denton ISD campus are subject to search and seizure. Improper or non-educational use could result in loss of privileges for the on-campus use of such devices.

Denton ISD is not responsible for lost, damaged, or stolen devices.
