Early examples of grid drawing:

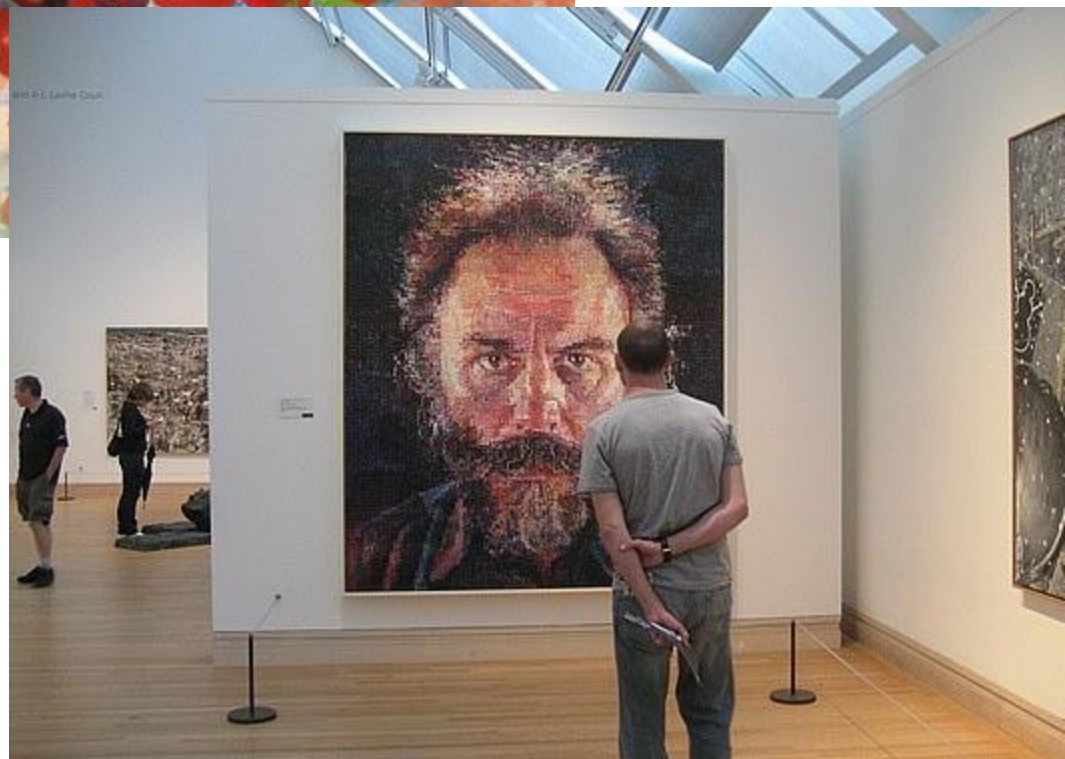

Artists Albrecht Durer and Leonardo Da Vinci were 2 of the first to use this method in the 16th Century...

Chuck Close:

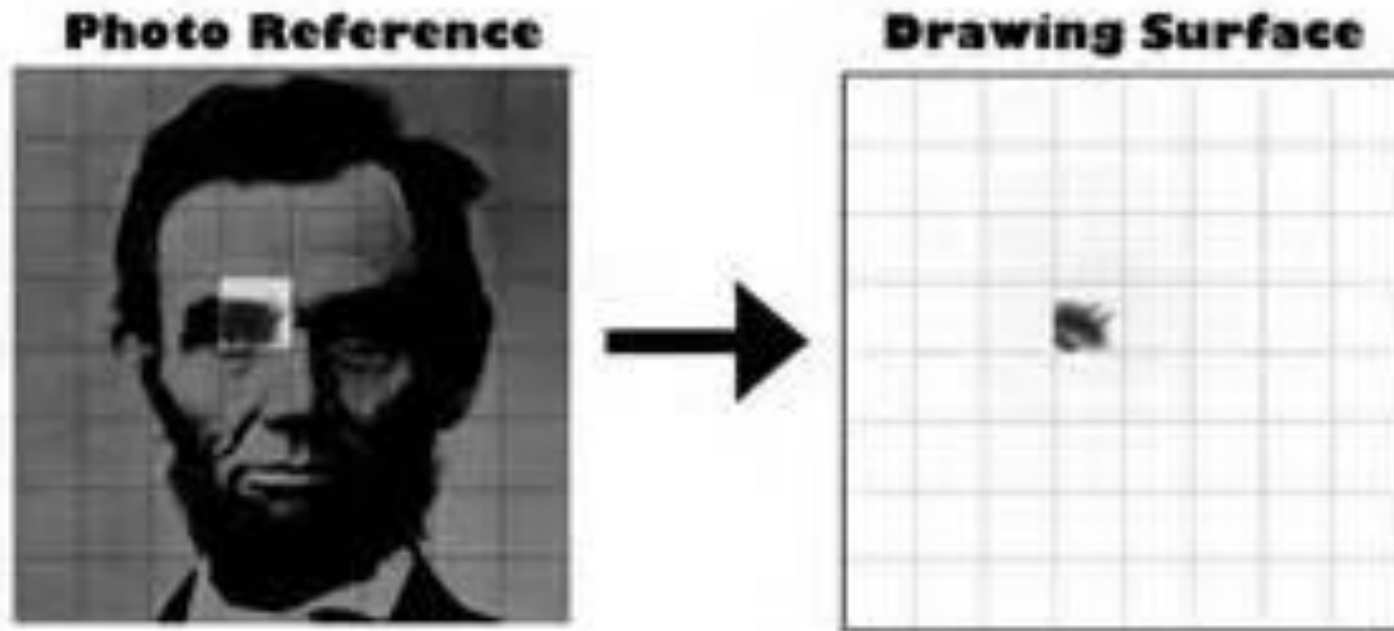

Known for his (earlier) large hyper-realistic paintings and (later) large gridded paintings

Your gridded drawing paper can be 1, 1.5 or 2 times the size of your photo reference

Once you have both gridded you will simply draw exactly what you see in each square...
