

How can I help my child at home?

I'm glad you asked! This year, we are asking you to do three things.....

TALK.

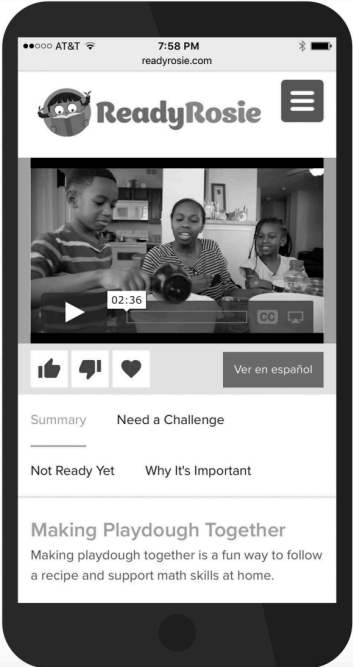

TALK is the foundation of literacy. Talking about anything leads to learning about everything.

PLAY.

PLAY is fun, but it's also how children learn. Playing ignites learning creativity and curiosity.

READ.

When you **READ** together, you help your child enjoy a richer, happier life. Readers get their start in the lap of a parent.

To support reading, playing, and talking, we are excited to offer

ReadyRosie

to our families for **FREE!!!**

Each week, you'll receive an email or text message with videos explaining how to do activities together as a family **to support and reinforce the learning we are doing in class.** Each activity is modeled in a quick, 2-minute video that you and your child can watch and do together at home or on the go.
