President
Board of Trustees
Denton Independent School District
P.O. Box 2387
Denton, Texas 76202

Dear President:

Enclosed you will find the budget proposal for the 2022-23 school year. The budget proposal contains an executive summary, which is a high-level review of the District financially from a historical perspective, budget comparisons, and information for future planning. Following the executive summary is a detailed review of the budget information by fund. We hope this additional information will continue to meet the desire of the Board and leadership team for transparency and give the Board, employees and community insight into the financial aspects of the District.

Overall, the District is in excellent financial condition with the right mix of factors to continue stability and growth through the 2022-23 school year. A few of these factors are as follows:

- Continued student growth
- Growth in appraised value with approximately \$1.4 billion dollars in new property added to the appraisal rolls
- Outstanding staff and leadership team
- Strong fund balance position to bridge any future downturn
- Opportunity to reduce principle on existing debt
- Additional federal funding to meet the demands of the COVID-19 pandemic

Included in the budget proposal is a projected deficit for General Fund, with anticipated expenditures exceeding estimated revenue. A couple of factors contribute to the proposed deficit budget.

- A cap on the increase in overall revenue
- A conservative approach in the calculation of average daily attendance
- Demand to meet contract increases, due to current market prices and inflation

Also included in the budget proposal is a compensation plan that incorporates a 3% pay raises (of the midpoint) for all employees. Denton ISD understands that it is especially important to continue to recognize the efforts put forth by our employees and maintain salary competitiveness in the market.

While this does represent a deficit budget, the district will monitor the budget throughout the year and focus on any potential savings. The already healthy fund balance will assist in bridging the gap of the proposed deficit.

With a watchful eye, we may continue to see plateaus in student attendance, residential and commercial development, and possible changes with new legislation. We will move forward into the 2022-23 school year being mindful of the continued financial impact of the COVID-19 pandemic and market conditions.

Please do not hesitate to contact us if you have any questions.

Denton Independent School District
Executive Summary
for the 2022-23 Budget Year

Appraised Value and Tax Rate

Denton ISD continues to see strong appraisal growth with over \$23 billion in appraised value projected for the 2022 tax year. The \$2.2 billion increase over prior year consists of over \$1.4 billion in new property added to the appraisal roll. Viewing the makeup of the tax roll on the following page, you will notice a strong diversity between commercial / industrial and residential. Also, the Top Ten Taxpayers only account for 3.48% of our tax roll.

Finally, page ES-4 contains the tax rate set by the Board for the last five years, including the required rate for bond payments approved by citizens in previous bond elections. The rate contains two pennies for operations, as approved in the 2017 Tax Ratification Election. Overall, for the fourth year in a row the Board will reduce the tax rate. Last year the Board reduced the tax rate by \$.0456 and this year will further reduce the tax rate by \$.0174.

Denton ISD Historical Tax Rate Comparison

State Foundation Revenue and Impact of HB 3 and COVID-19

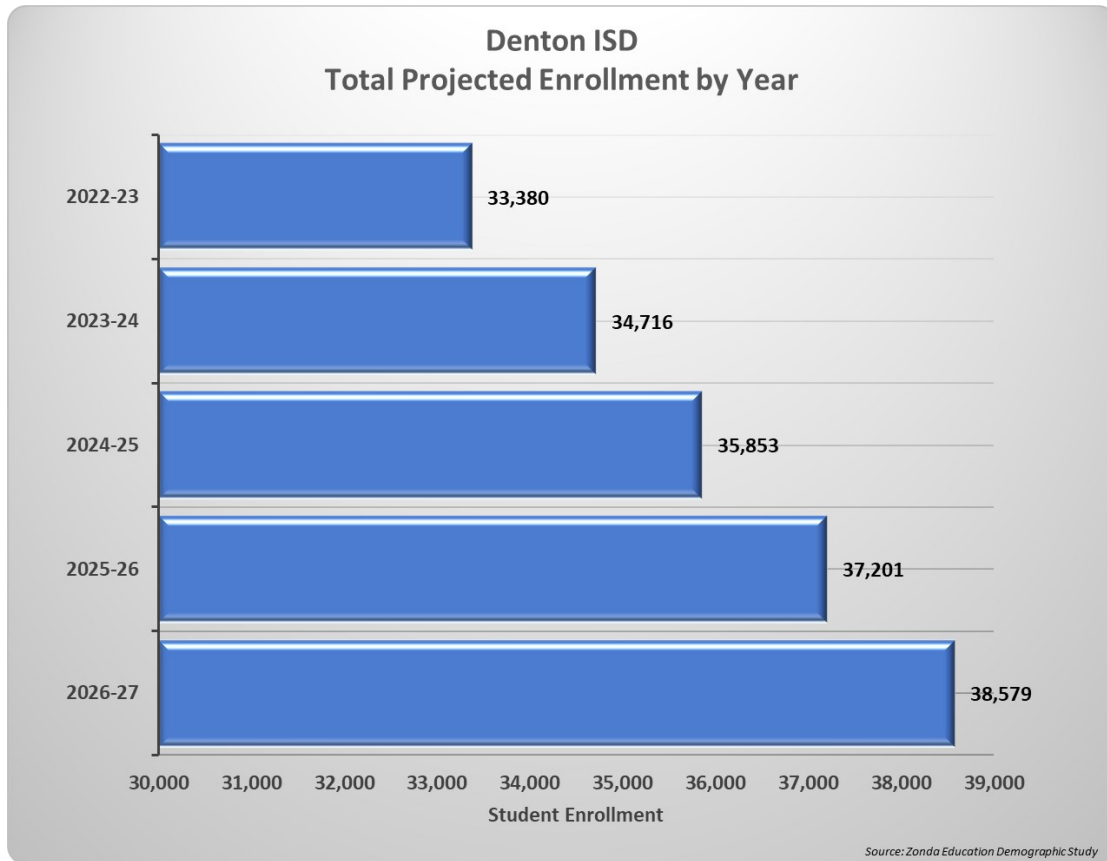

With the passage of HB 3 in the 86th Legislative session, the Legislature increased state funding in public education, improved equity, and lowered property tax rates. The new revenue formula approved by the legislature continues to be based on student attendance in the regular classroom and in special settings. However, the new formula restricts overall state foundation and local tax revenue growth to 2.5% unless you have additional student growth. With this new design, the formula change gives back additional dollars to taxpayers by lowering the tax rate within parameters set by the state. Although we have seen a setback in average daily attendance due to COVID-19, fortunately for Denton ISD, demographic modeling reflects continued student growth for the foreseeable future.

Projecting attendance for the 2022-23 school year is complicated due to the lower than normal attendance experienced in 2021-22, a result of the COVID-19 pandemic. Districts were provided a hold harmless Average Daily Attendance (ADA) in 2021-22 for the first four six weeks to help sustain their funding level. However, the hold harmless ADA did not extend throughout the remainder of the year; nor does it extend into next fiscal year. As a district, we are projecting a 95% ADA of an estimated enrollment of 33,000, which is a conservative approach. Demographic modeling reflects an increase in enrollment of 1,374 students, with a total enrollment of 33,380. This is modeled in the graph on page ES-6 and ES-7. The ADA by Year comparison is modeled in the graph on page ES-8.

Considering our projected attendance projections, as well as the increase in appraised value, we are projecting our state foundation revenue to decrease \$12.7 million or 15.99% from 2021-22 to 2022-23, as shown in the General Fund Revenue Sources graph on page ES-10. As always, it is important to remember increases in appraised value do not increase the overall revenue in the general fund. The state foundation funding formula creates a reciprocal relationship of state revenue and appraised value (required tax collections). The higher the appraised value the more taxes are required to be collected by the local taxing entity and the state offsets that amount by sending less state revenue to equal the same amount per student. It is important to keep in mind that higher local appraised values benefit the state budget as they send less state revenue.

The long-term concern for our revenue picture continues to be the health of the state budget. When HB 3 was passed by the 86th Legislative session, there was worry that the state budget would not be able to sustain the funding of the property tax relief and increased state funding beyond the first biennium, as there was not a dedicated funding source. Lawmakers of the 87th Legislative session were consistent in prioritizing the funding of HB 3. The Formula Transition Grant is scheduled to end after the 2023-24 fiscal year. We continue to see a decline in this

funding as our property values continue to increase. We will continue to vigilantly monitor economic conditions as we operate during the 2022-23 school year and plan for the 2023-24 school year.

**Denton ISD
ADA Comparison by Year
2017-2023**

Revenue and Expenditure Comparisons

The District's overall revenue structure is healthy and consistent. Local tax dollars continue to fund the significant percentage of our General Fund revenue picture. With the structural changes enacted by HB 3, the local tax revenue as a percentage of total General Fund revenue dropped as anticipated in 2021-22 from 72.05% to 70.99% of total General Fund operational revenue, see page ES-10. The tax revenue in the 2022-23 budget is increasing by 3.05%. This is due to the very large increase in property value growth we are experiencing and the reciprocal relationship between state revenue and tax revenue in the state foundation revenue formula. This also factors in the district anticipating being at the tax rate floor for Maintenance and Operations. No major changes are anticipated in federal dollars associated with the General fund.

Considering the overall revenue picture as shown on page ES-11, local tax revenue accounts for 79.35% of total revenue. The overall federal revenue stream is consistent.

When we compare our expenditures, the first comparison as shown on page ES-12, reflects the payroll vs. non-payroll percentage is consistent and moving in an efficient direction. The most efficient budget will run with an approximate 80% payroll and 20% non-payroll split. In recent years with diminishing revenues and increases in salary scales to retain great staff members, and be competitive in the market, this level of split is almost impossible to maintain. However, the 81.78% budgeted amount for payroll in 2022-23 is a very reasonable and consistent percentage. Looking at the past three years, the payroll percentage has been extremely consistent. The overall expenditure breakdown, as shown on page ES-13, shows consistency within the General, Child Nutrition, and Debt Service funds.

I emphasize again the long-term concern for our revenue picture continues to be the health of the state budget. When HB 3 was passed by the 86th Legislative session, there was worry that the state budget would not be able to sustain the funding of the property tax relief and increased state funding beyond the first biennium, as there was not a dedicated funding source. Lawmakers of the 87th Legislative session were consistent in prioritizing the funding of HB 3. The Formula Transition Grant is scheduled to end after the 2023-24 fiscal year. We continue to see a decline in this funding as our property values continue to increase. We will continue to vigilantly monitor economic conditions as we operate during the 2022-23 school year and plan for the 2023-24 school year.

General Fund – Fund Balance

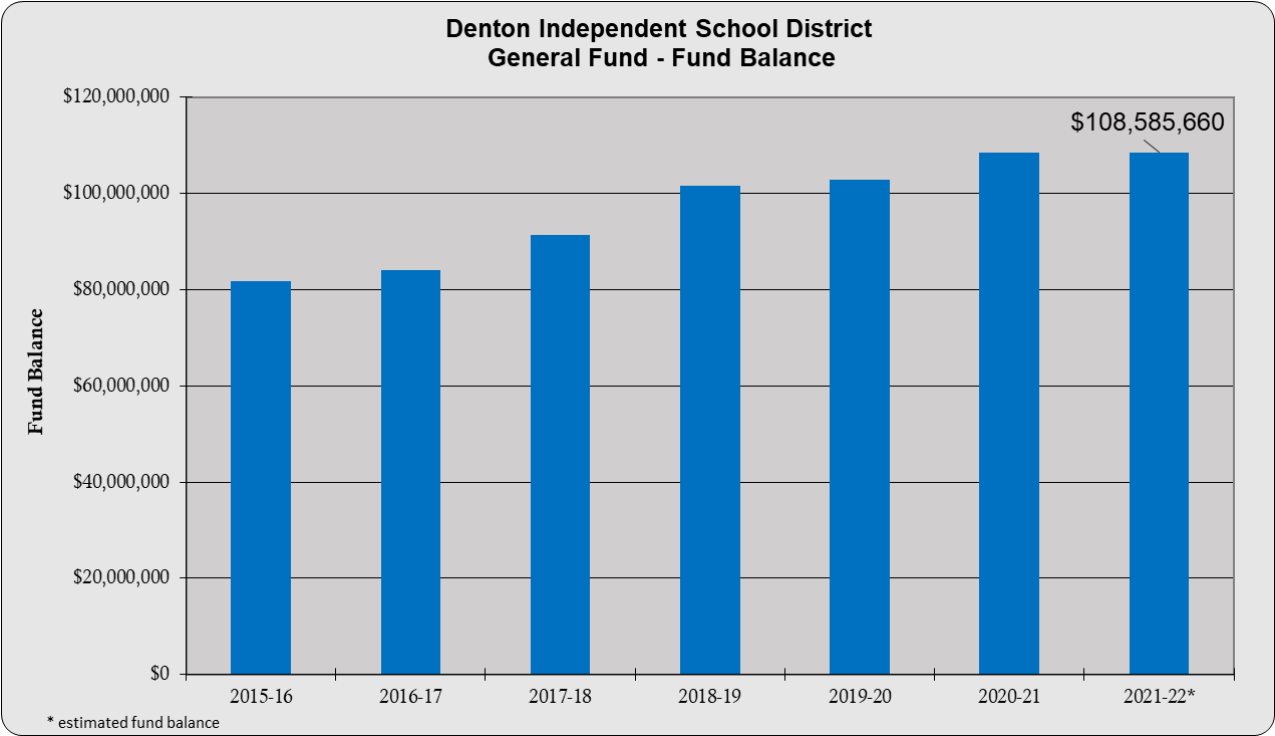

The General Fund fund balance has shown consistent growth in line with the board goal of maintaining a total general operating fund balance of 25% of the District's total general operating fund expenditures (Board Policy CE-Local). Overall, the General Fund fund balance has consistently reflected an amount over 25%. As depicted in the following graphs, the past six years have shown a very prudent and conservative system of financial management by the Board and leadership team. The average of 35% over the past seven years is evidence of this type of management and adherence to stated policies. The information reflected in the graphs was extracted from the independently audited financial statements for the corresponding year.

With the COVID-19 Pandemic, revenue and expenditures did not follow historical trends and projections. The goal has always been to provide the necessary instruction throughout the pandemic to keep our students on track. Continuing with this goal would have required the district to use some General Fund fund balance in the 2021-22 fiscal year without the ESSER funds becoming available. By creatively utilizing the ESSER funding for some allowable expenditures from the 2019-20 and 2020-21 fiscal years, and reclassing some expenditures from the 2021-22 budget, we have been able to maintain a healthy fund balance at the end of the 2021-22 fiscal year. This effect can be seen in the graph on page ES-16. While the 2022-23 budget proposal does represent a deficit budget, the district will monitor the budget throughout the year and focus on any potential savings. The already healthy fund balance will assist in bridging the gap of the proposed deficit. Also, our hope is to return to a more normal average attendance trend, as we have historically produced.

Ultimately, the use of ESSER funds has assisted the District in positively affecting the overall operations and instruction. This will be important because the federal grant assistance provided by ESSER will expire in 2024. Having a plan for both the ESSER funds, as well as how that will affect the General Fund fund balance will be critical. The District formed a District ESSER Committee in 2021 to help facilitate the planning.

With the uncertainty of the long-term impact of the COVID-19 pandemic, having a healthy fund balance in place is not only evidence of prudent management, but will allow the District to flex with any changes from upcoming legislative priorities and utilize a reasonable amount of fund balance to create a bridge to the new normal. This bridge will ensure the District is able to continue to meet student needs in the classroom and provide certainty for staff members.

Debt Service

Denton Independent School District has outstanding bond issues approved by the voters, with the latest sale being in 2020. These bond issues have funded capital expenditures to manage the growth of the District, long-term maintenance and renovation needs of current District facilities. The District's debt management practice allows up to 25%-30% outstanding bonded debt to be issued as variable rate bonds. The goal is to prudently hedge risk to give the taxpayers the most efficient financing terms. As reflected in the graph on the following page, the District's portfolio falls well within the guidelines established by the Board.

The District has sold all of the approved bond issues. The graph on page ES-17 reflects the debt service payment plan for 2022-23. The plan generates \$128.9 million in revenue at the current interest and sinking tax rate of \$.48. The \$128.9 million in revenue will be used to pay the current outstanding debt payments of \$102.6 million. The remaining \$26.2 million will be used to pay additional principal on callable bonds.

Currently, the District has callable options for series 2013 and 2014-B outstanding bonds. The District will collaborate with our financial advisor to develop the most efficient plan for these callable options. The plan will be to utilize the remaining current year revenue, as discussed above, as well as a portion of the current debt service fund balance, as shown on page ES-17. The fund balance is utilized to pay off callable debt and to fund August bond payments. Since bonds require semi-annual payments in August and February and current year tax dollars are normally received between October and December, we must use fund balance to fund the August payment. The anticipated fund balance for year ending June 30, 2022 is \$90.3 million and includes a \$9.4M prepayment of the 2014-B bonds. The resulting fund balance will assist in funding the August payment, which is approximately \$78.7 million and leaves a remainder of \$11.6 million which we could consider utilizing for any obligation of callable bonds.

Template for Estimating Total State Aid - Property of BOK Financial Securities, Inc.

by Omar Garcia, BOK Financial Securities, Inc.

This template is designed to calculate revenue based on the school finance provisions enacted by the 86th & 87th Sessions of the Texas Legislature and is based on my current understanding of those provisions and of previous laws. TEA is the official source for determining state aid.
MY UNDERSTANDING IS ABSOLUTELY SUBJECT TO CHANGE AT ANY TIME.

THE WHITE-SHADED DATA ENTRY CELLS CAN BE LEFT ALONE, BUT CAN BE CHANGED IF SO DESIRED..... THE LIGHT YELLOW-SHADED CELLS REQUIRE DATA ENTRY IF THE LIGHT GREEN-SHADED CELLS ARE AUTO-LOADED & SHOULD NOT BE CHANGED UNLESS YOU ARE ABSOLUTELY SURE THE DATA LOADED IS INCORRECT.
