

## How Can I Be Involved?

- Read and discuss the Title I Home/School Compact with your child's teacher and your child. The Home/School Compact is an agreement that you, your child, and your child's teacher make to share responsibility for the academic success of your child.

- Seek information about what your child is expected to learn and how it is measured.
- Attend Family Fun Learning Nights held throughout the year.
- Attend teacher-led informational meetings specific for your child's grade held through the year.

- Talk to the teachers, counselors, and administrators at school. They want your child to be successful at home and at school.
- If there is a problem at school, talk to your child's teacher or counselor, they want to work together side-by-side with you to remove any barriers.
- Stay in contact with your child's teacher.

- Become involved in PTA and other activities on campus for parents, including various committees, volunteering, or chaperoning during field trips.

- Share your ideas about how to make our school a better place with the administrators on campus.

- Tell others about the successes and great things that are happening here at Borman. Help spread the good news!

## Frank Borman Elementary School Title I Parent Involvement

Frank Borman  
Elementary School  
1201 Parvin St.  
Denton TX 76205

Tel: 940-369-2500

## Why Parent Involvement?

Raising children and educating them are hard jobs. They cannot be done in isolation. Great parents and teachers need support and help. We need each other. A highly regarded author on education wrote:

**“Creating effective family/school/student partnerships may well be the single most important factor contributing to student success.”**

**(Saving Our Schools, Robert D. Barr)**

We agree. Parents have abilities and tools that we do not have. We need parents to help us understand the children we teach and to help us reinforce the academics and present a positive future full of possibilities. We need parents who will allow us to walk with them — together — to form children who become . . .

**Knowledgeable and responsible citizens who are capable of life-learning and who have developed the necessary skills to contribute productively to a complex and ever-changing world.**

And we want you to know we will do whatever it takes to make that happen. But we can't do it alone. We need you. Can we work together?

Here at Borman, we offer many extra programs to enrich students academic experience. Inquire about these for your child. Robotics, D.R.U.M., STOMP, Art Studio Club, Choir, Orchestra, 21st Century After-School Program, Science Camp, Let's Move Program, and Running Club.
