

PDC

Postcard

May 2021

Dear Teachers,

In this final issue of the PDC Postcard, you will find opportunities for adult learning. The month of June is dedicated to professional learning through Denton ISD's **Summer Seminar**. We are inviting you to take advantage of these virtual and face-to-face sessions. More importantly, enjoy your summer, you all deserve rest and the chance to re-energize!

Best,

Dr. Mike Mattingly
Associate Superintendent
Curriculum, Instruction, & Staff Development

TIACON

Those of you looking to get your TIACON fix the last two years have likely been disappointed to find that the conference has not been able to go on as it normally does with keynote speakers, hundreds of sessions, and time to rub shoulders with colleagues in and out of Denton ISD. We've certainly felt the absence of TIACON as well. As it relates to TIACON, however, the digital learning department has good news and better news!

The good news is that the digital learning team will have a mini-TIACON of sorts built into Summer Seminar. If you're looking to build on the rapid progress and proficiency you've built with digital resources like Canvas, Seesaw, Nearpod, Flipgrid, and your Promethean panel, we have you covered.

Now, for the great news: TIACON will be back and better than ever for the 2022 conference. We can't tell you how excited we are to resume planning for an in-person conference built just for you!

Elementary Curriculum

ELEMENTARY CURRICULUM SUMMER SEMINAR

June 7th- June 17th

Join us in learning with others around the district through these virtual sessions!

Featured Speakers:

Jeff Anderson
Julie Jackson
S3 Strategies

See the Denton ISD Summer Seminar Catalog for session descriptions and the links to sign up in Eduphoria.

Special Education

“Occupational therapy is the only profession that helps people across the lifespan to do the things they want and need to do through the therapeutic use of daily activities (occupations). Occupational therapy practitioners enable people of all ages to live life to its fullest by helping them promote health, and prevent—or live better with—injury, illness, or disability.

Common occupational therapy interventions include helping children with disabilities to participate fully in school and social situations, helping people recovering from injury to regain skills, and providing supports for older adults experiencing physical and cognitive changes.

Occupational therapy services typically include:

- an individualized evaluation, during which the client/family and occupational therapist determine the person’s goals
- customized intervention to improve the person’s ability to perform daily activities and reach the goals
- outcomes evaluation to ensure that the goals are being met and/or make changes to the intervention plan.

Occupational therapy practitioners have a holistic perspective, in which the focus is on adapting the environment and/or task to fit the person, and the person is an integral part of the therapy team. It is an evidence-based practice deeply rooted in science.”

April is the month where we recognize our outstanding Occupational Therapists in the district. This wonderful group of ladies work hard to meet the unique needs of the students they serve. If you see them, please let them know you appreciate them and the work they do.

Thank you, **Tina Leyva, Callie Shirey, Christina Smith, Brittany Ortiz, Kelly Nymeyer and Joan Draving!**

For a little info about the role of OTs, please see the information below from AOTA.org.

Special Education

EXCITING NEWS for the 18+ Transition Program and the Vocational Adjustment Classes.

The Department has purchased 8 large SUVs to be utilized for the 18+ Transition and Vocational Adjustment Classroom (VAC) students' Work Based Learning goals. BHS, GHS, RHS and the ATC have the 18+ Transition Program while all four comprehensive high schools have the VAC program.

Each of the aforementioned campuses will have 1 vehicle for each program beginning August 2021. The purpose of the vehicles is to transport students in the 18+ Transition Program or in a Vocational Adjustment Classroom to work sites to fulfill the goals documented and agreed upon by the ARD Committee.

Ms. Kristi Roberts will contact the teachers of these programs soon with details. For questions, please contact Ms. Kristi Roberts for information. Thank you to the Denton ISD School Board for approving this purchase for our students with disabilities.

Special Education Comprehensive Compliance Audit—Final Step

The final step of the audit is the completion of the Self-Evaluation. We are excited to have general and special education teachers, support staff and campus administrators as part of the seven teams that will be completing the Self-Evaluation for the seven categories created by the Texas Education Agency. The categories include Child Find, IEP Content and Development, IEP Implementation, Properly Constituted ARDs Committees, Instructional Strategies, Secondary Transition and Parent Engagement. The team will assist with answering probing questions; reviewing campus and district artifacts or documents; and assisting in the determining the District's status for each category. Their input will determine the priorities for continuous improvement for the Department of Special Education. In advance, we thank each member of the teams for your time and expertise!

Next year, we will review 23 categories for the Self-Evaluation. You too may be asked to participate on one of the 23 teams.

Better Hearing & Speech Month

2021 • BUILDING CONNECTIONS

May is the month where we recognize our outstanding and hardworking speech-language pathologists in the district. Also, May 18th is National Speech Pathologist Day! Please say thank you to an awesome group of SLPs who help kids with all types of language and communication issues. For more information about the role of an SLP or BHS&M activities, please go to ASHA.org
