September, 2015

Principal Mr. Leath  
Assistant Principal Mrs. Bomar

## A Note from Mr. Leath...

### Upcoming Events

October 12: No school. Staff development day.  
October 14: Character Assembly.  
October 23: Fall Carnival

### Imagination

The Habitude we have been learning about this month is imagination. Imagination is the mind's ability to constantly create images containing thoughts and memories ignited from our senses. In those images, we create our ideals, role models, heroes, loves, concepts, perceptions, and ideas on how to thrive and survive. The students have been discussing this in class and why imagination matters. Questions that you can ask your students at home include: In what ways were you creative today? How did you see other students express their creativity today? What do you daydream about? Try to let your children play, laugh, and use humor to enhance experiences.

### Volunteers

Thank you so much to everyone who volunteers in our school and helps make this such a great environment for our students to learn. Our volunteers truly help our teachers focus on teaching. If you have been volunteering your time towards our school from your house, on weekends, at night, etc... please record the amount of time you give. This helps us keep track of the amount of additional support our campus receives. You can record your time on our website under the For Parents tab; then click on volunteer hour submission. Thank you for everything that you do to help our students be successful.

### Transportation Changes

If you are temporarily changing the method by which your child is going to be picked up for one day, please let the classroom teacher know that morning. If it's a last minute change, please call prior to 2:00 pm. If it is after 2:00 pm, the student will have to go home his/her normal method.

### Giving Medication at School

On page 11 of *Raising Mustangs*, we discuss what to do if a child has to take medication while at school. To be more specific, if a parent brings medication to the school or needs to provide any medical treatment, the parent can administer/provide it to his/her child. The procedure we will follow is to call the student down to the nurse's office so this can be done in a private location.

If you have any questions please contact us at 940-369-4500, [cleath@dentonisd.org](mailto:cleath@dentonisd.org), or stop by and say hello.
