DENTON INDEPENDENT SCHOOL DISTRICT  
Office of Administrative Services  
P.O. Box 2387  
Denton, Texas 76202

January 28, 2021

To the Board of Trustees and the Citizens of the Denton  
Independent School District:

The Comprehensive Annual Financial Report (CAFR) of the Denton Independent School District (“DISD” or the “District”) for the year ended June 30, 2020, is hereby submitted. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the District. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the DISD. All disclosures necessary to enable the reader to gain an understanding of the District’s financial activities have been included.

The DISD is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1984 as amended in 1996 and Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance). Information relating to this single audit, including the schedule of expenditures of federal awards, findings and recommendations and independent auditors’ reports on internal controls and compliance with applicable laws and regulations, is included in the single audit section.

This report includes all funds of the Denton Independent School District. The DISD maintains a fully accredited early childhood through grade twelve program and is accredited by both the Texas Education Agency and AdvancED. The District provides a full range of services. These services include general education for grades pre-kindergarten through twelve, special education for students from birth through twenty-one years of age, accelerated education for students requiring remediation, a variety of technical courses and a number of elective and advanced placement courses for those students who wish additional experiences or challenges.

Generally Accepted Accounting Principles (GAAP) requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management’s Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The District’s MD&A can be found immediately following the report of the independent auditors.

## **GOVERNING BODY**

The seven members of the Board of Trustees serve - without compensation - a three-year term of office. On a rotating basis, two or three places are filled during annual elections held in May. Vacancies may be filled by appointment until the next election. Candidates must be qualified voters of the District.

Regular meetings are typically scheduled the second and fourth Tuesdays of the month and are held in the District's administration building. Special meetings and study sessions are scheduled as needed and announced in compliance with public notice requirements.

The Board has final control over local school matters limited only by the state legislature, by the courts and by the will of the people as expressed in school Board elections. Board decisions are based on a majority vote of the quorum present. Generally, the Board adopts policies, sets direction for curriculum, employs the Superintendent, and oversees the operations of the District and its schools. Besides general Board business, Trustees are charged with numerous statutory regulations including appointing the tax assessor/collector, calling trustee and other school elections and canvassing the results, organizing the Board and electing its officers. The Board is also responsible for setting the tax rate, setting salary schedules, and acting as a board of appeals in personnel and student matters, confirming recommendations for textbook adoptions and adopting and amending the annual budget.

## **ECONOMIC CONDITION AND OUTLOOK**

The Denton Independent School District is in the city of Denton, in Denton County of North Central Texas and encompasses approximately 180 square miles. While the major portion of the District boundaries includes the 97.411 square miles of the City of Denton, all or part of the following additional cities, communities or major developments in Denton County comprise the 180 square miles: Argyle, Bartonville, Copper Canyon, Corinth, Cross Roads, Cross Oaks Ranch, Double Oak, Lantana, Little Elm, Oak Point, Paloma Creek, Pecan Creek, Providence, Robson Ranch, Savannah and Shady Shores. According to the U.S. Census Bureau and the City of Denton, Denton County's population increased 3.28 percent from 2018 to 2019 census estimate, which resulted in a population of 887,207 in 2019 compared to 859,064 in 2018. The city of Denton reported a growth rate of 2.2 percent for the same period with a population of 141,541 compared to 138,541 in 2018. Denton has a diverse labor pool of both skilled and professional workers. At June 30, 2020, the Texas Workforce Commission reported an available workforce in the City of Denton of 76,099 with an unemployment rate of 8.4% which reflects the effect of the COVID-19 pandemic on the local economy.

Denton is located 38 miles northwest of Dallas and 36 miles northeast of Fort Worth. Denton businesses have easy access to air, rail, and highways. The area has four airports: Alliance Airport, Dallas/Fort Worth International Airport, Dallas Love Field, and Denton Municipal Airport. The Kansas City Southern and Union Pacific railroads also provide service to Denton. The Denton County Transportation Authority (DCTA) provides public transportation within the City of Denton and between Denton and Dallas. Transportation offerings include passenger rail via the A-Train (connects to Dallas Area Rapid Transit rail in Carrollton), bus service via Connect, and a commuter vanpool program.

Denton is home to two universities and one college: The University of North Texas, Texas Woman's University and North Central Texas College. This access to higher education enhances the quality of life in Denton. These three institutions are a major source of public employment for Denton and the surrounding area. In the private sector, more than 100 private companies distribute, manufacture, produce goods and provide employment to area residents.

The student population has steadily increased over the past five years at an average growth rate of approximately 2.45 percent annually. The school district plans its budget based on estimated student enrollment and state aid earned based on student attendance. Total enrollment for the year ended June 30, 2020 was 30,919 with an average daily attendance rate of 94.08%. Enrollment is projected to be 30,794 for the 2020-2021 school year which takes into consideration the effect of the COVID-19 pandemic.

The Denton Independent School District continues to be the district of choice in Denton County, one of the fastest growing counties in the nation. As Charter Schools expand throughout the state, district enrollment has continued to rise with little effect from the Charter movement. Over the past five years student enrollment has grown by more than 400 students each year. As the district of choice, Denton ISD has a stable future, and an opportunity to contribute to the economic vitality of the community by providing specialized, high-level education.

The school district's facilities are in excellent condition and its major maintenance plan continues to improve all its facilities and operations. The average age of instructional campuses in the District is twenty-six years. Fifteen of the twenty-four elementary campuses have been built since 2001. Of the fourteen secondary campuses in the District, eight campuses have been built since 2001, and both early childhood campuses were built since 2001. To accommodate the growing student population there are several reconstruction and construction projects scheduled over the next several years. The 2020 total tax rate for the school district is \$1.47/\$100 valuation. The tax rate has two components: maintenance and operations and debt service. The maintenance and operations portion funds the daily operations of the school district. The debt service portion funds the principal and interest on general obligation long-term debt.

### **MAJOR INITIATIVES**

The Denton Independent School District (DISD) continues to exceed the standards of the Texas Accountability System outlined by the Texas Education Agency. In 2019-2020, all DISD campuses met these standards with many campuses receiving several distinctions, however, due to the COVID-19 Pandemic the State of Texas rated all schools in the state were labeled "Not Rated: Declared State of Disaster."

Of note, the graduation rate of our students per the latest Texas Academic Performance Report (TAPR) is 96.9 percent. The class of 2020 earned more than \$23.4 million in scholarships, \$2.7 of that was awarded from local sources.

Under the state assessment system, the district and all its campuses were highly rated by the Texas Education Agency for the eighth year. While there is little comparative data due to the cancellation of the Spring 2020 State Assessment of Academic Readiness (STAAR) due to the COVID-19 Pandemic, students in the district continued to perform at a very high academic level.

All schools in the Denton ISD are accredited by the Texas Education Agency. In addition, the high schools are accredited through AdvanceED. The district and Board of Trustees are committed to providing the best educational programs possible in the critical areas of Science, Technology, Engineering, Arts and Math. These content areas and the Board's expectation of excellence is embedded in their goals and are monitored at each Board of Trustees Meeting.

One of the many areas of strong academic commitment is evident with the district's K-12 International Baccalaureate Programme (IB), an elite universal educational program. Denton ISD is one of a handful of districts nationwide to offer IB programs at the full continuum. The IB program is

offered at two elementary schools, one middle school, and one high school. The IB Programme continues to independently assess and evaluate each of these four campuses ensuring they meet their incredibly high academic international standards.

Denton ISD continues to focus on early childhood education by not only committing physical and financial resources to our youngest learners, but also by partnering with local nonprofits to bring Ready Rosie a parenting enrichment program to parents, grandparents, and caregivers within the community. The district continues its partnership with two local non-profit childcare centers, Fred Moore Day Nursery School and Denton City County Day School to expand early childhood education to our families. In addition, the district implemented full-day Pre-K for qualifying students at multiple campuses across the district.

To serve our 30,919 students, Denton ISD employs 4,268 educators and staff. Of those, 31.1 percent have 11 or more years of experience in education – many more (12.4 percent) have more than 20 years of experience. Less than one percent of our budget is expended on the salaries of central administration, based on the latest TAPR.

Denton ISD continues to experience record-breaking student enrollment growth, which drives a robust building and construction program. Multiple projects and upgrades for the district's facilities that are 40 or more years old are currently underway. The district is balancing the erection of the replacement campuses alongside the planning and development of new campuses on the district's far eastern borders.

Through demonstrated steadfast leadership, partnership with the 18 communities we serve and consistent vision, our organization continues to empower lifelong learners who will become engaged citizens that positively impact their local and global community.

## **DISTRICT ACCOMPLISHMENTS**

Denton ISD's quest for excellence extends beyond the classroom. The district offers top academic, artistic, athletic, and technological programs.

- For the thirteenth consecutive year, Denton ISD has been honored with the "Best Communities for Music Education" designation from the NAMM Foundation for its outstanding, longtime commitment to music education. The designation is awarded to districts that demonstrate outstanding achievement in efforts to provide music assess and education to all students.
- The Crownover Middle School Wind Ensemble, Crownover Middle School Symphonic Band, McMath Middle School Tiger Jazz Band, and the Denton High School Lab Band 1 were recognized with National Honors by The Foundation for Music Education's "Mark of Excellence". The "Mark of Excellence" project seeks to recognize and award outstanding achievement in performance by high school and middle school bands, choirs, and orchestras. The top 25 percent of entrants are recognized as National Winners.
- Choir students from Houston Elementary and Blanton Elementary represented Denton and the State of Texas at the Organization of American Kodaly Educators National Honor Children's Choir in Portland Oregon. The OAKE annual conference is a national event bringing together music educators and clinicians over the course of four days and culminating in the performance of singers selected to participate in the National Choirs.

- Six students from Borman Elementary and six students from Adkins Elementary had their artwork displayed in an art exhibit for the Texas Association of School Boards and School Administrators Fall Conference in Austin, Texas.
- Nine students from the Braswell High School, Denton High School and Guyer High School band, choir, and orchestra programs were selected by the Texas Music Educators Association (TMEA) as All-State honorees for the 2019-2020 school year.
- The Guyer and Ryan High School football teams advanced to their respective state championship football games for the 2019 season. Since 1962, Guyer and Ryan are the only schools from the same school district to play for a state title in the same season. They accomplished this feat twice in this decade previously making history in 2010.

Other honors and recognitions that have been bestowed on Denton ISD staff include:

- Two Denton ISD campuses earned the prestigious CREST Award which recognizes the top counseling staffs in the state by the Texas School Counselor Association. CREST stands for Counselors Reinforcing Excellence for Students in Texas and is a program that focuses on ten areas that leave the greatest impact school counselors have on the achievement, career aspirations, personal gains, and social aspects of students' lives. The program helps counselors evaluate their current counseling guidelines and techniques while also promoting their services to students and parents.
- The District Athletic Director was inducted into the Texas Hall of Fame by the Texas High School Coaches Association, an organization committed to helping coaches be the best they can be for the benefit of 1.5 million student-athletes in Texas.
- A Guyer High School math teacher was the lone recipient of the Presidential Award for Excellence in Mathematics and Science Teaching (PAEMST) for the state of Texas. Established in 1983, PAEMST is the highest award given by the U. S. Government to K-12 teachers of mathematics and science. A panel of distinguished mathematicians, scientists, and educators at the State and national levels assess the applications before recommending nominees to the White House Office of Science and Technology Policy.
- A Strickland Middle School teacher was named Outstanding Middle School Teacher 2019 at the joint annual conference of the National Council for the Social Studies, Texas Council for the Social Studies, and the National Council for Geographic Education.
- The Purchasing Department earned its first-ever Texas Association of School Business Officials Award of Merit for Purchasing and Operations. The Award of Merit for Purchasing Operations recognizes the achievements of educational organizations in implementing best practices of purchasing. Award recipients demonstrate professional purchasing operations and share their best practices in policies and procedures with colleagues throughout the state.

### **RELEVANT FINANCIAL POLICIES**

The District's financial policies address accounting and fiscal operations of the District with emphasis on asset management, operating reserves, and fund balances. The District's financial policies are reviewed annually to comply with internal accounting issues, Federal and State laws, and the governing body's directives.

The Board and administration of the Denton ISD are responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or

misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived and (2) the valuation of costs and benefits requires estimates and judgments by management.

The Denton Independent School District reports a significant amount of data to the State of Texas through the state's Public Education Information Management System (PEIMS). The state then uses this data in compiling its Texas Academic Performance Report. The state also produces a summary of this data in the form of a School Report Card. The data covers such items as "per pupil" revenues and expenditures for each campus and district, a comparison of district and campus test scores, various demographic information and a comparison of each campus with forty peer group members of similar socio-economic and ethnic demographics. The Texas Academic Performance Report is used to rate campuses and school districts with various levels of accreditation depending upon district and campus test scores. This system functions in a similar capacity to "Service Efforts and Accomplishments."

Two factors that impact the District significantly are the tax rate and property value. In 2019-2020 the maintenance and operations tax rate was \$0.99 The debt service tax rate was \$0.48 for a total rate of \$1.47. The District's certified property values increased 11.01% for 2018-2019 and 11.85% for 2019-2020. The certified property values for 2019-2020 increased by \$1,624,325,979 or 9.01%.

*Single Audit.* As a recipient of federal, state, and local financial assistance, the District is also responsible for ensuring that an adequate internal control structure is in place to assure compliance with applicable laws and regulations related to those programs. The internal control structure is subject to periodic evaluation by management and the audit staff of the District.

As part of the District's single audit, tests were made to determine the adequacy of the internal control structure, including that portion related to federal financial assistance awards, as well as to determine that the District has complied with applicable laws and regulations. The results of the District's single audit for the year ended June 30, 2019, provided no instances of material weaknesses in the internal control structure and no instances of noncompliance that are required to be reported under Government Auditing Standards.

*Budgetary Controls.* In addition, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the District's governing body. Activities of the general fund, child nutrition fund and debt service fund are included in the annual appropriated budget. Project-length financial plans are adopted for the capital projects funds. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is established by fund and function. Budgetary control is enhanced by an encumbrance accounting system that includes an on-line purchasing system for all campuses and departments. The purchasing system will not allow a purchase exceeding legally appropriated budgetary amounts. Outstanding encumbrances at the end of a fiscal year generally are rolled forward into the subsequent fiscal period with the subsequent budget amended accordingly. As demonstrated by the statements and schedules included in the financial section of this report, the school district continues to meet its responsibility for sound financial management.

## **INDEPENDENT AUDIT**

State law and District policy require an annual audit by independent certified public accountants. The District's Board of Trustees selected the accounting firm of Hankins, Eastup, Deaton, Tonn and Seay P.C.

In addition to meeting the requirements set forth in state statutes, the audit was designed to meet the requirements of the federal Single Audit Act of 1984 as amended in 1996 and the Uniform Guidance. The auditors' report on the basic financial statements and combining and individual fund statements and schedules are included in the financial section of this report.

### **AWARDS**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Denton Independent School District for its comprehensive annual financial report (CAFR) for the year ending June 30, 2019. The Certificate of Achievement is a prestigious national award that recognizes conformance with the highest standards for preparation of state and local government financial reports.

To be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. The CAFR must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. The Denton Independent School District has received a Certificate of Achievement for the last thirty-four consecutive years. We believe our current comprehensive report continues to conform to the Certificate of Achievement program requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The Association of School Business Officials International (ASBO) awards its Certificate of Excellence in Financial Reporting (COE) to governmental entities whose comprehensive annual financial report has been judged to meet the standards required of this award. The ASBO award program is intended to help governmental units prepare reports in such a format and with such content as to greatly enhance the ability of users of these reports (trustees, citizens, management, regulatory agencies, investors, etc.) to better understand the District's activity.

The Denton Independent School District has received the ASBO Certificate of Excellence Award for its comprehensive annual financial report for thirty-five consecutive years. We believe this report may also qualify for this award and we are submitting it to ASBO to determine its eligibility for another certificate.

### **ACKNOWLEDGMENTS**

The preparation of the comprehensive annual financial report on a timely basis was made possible by the dedicated service of the entire staff of the business office. Each member of the department has our sincere appreciation for the contributions made in the preparation of this report. Without the leadership and support of the Board of Trustees of the Denton Independent School District, the preparation of this report would not have been possible.

### Independent Auditor's Report

To the Board of Trustees  
Denton Independent School District  
Denton, Texas

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Denton Independent School District (the District), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America. This includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standard* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Denton Independent School District as of June 30, 2020, and the respective changes in financial position and cash flows and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## Other Matters

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the *management's discussion and analysis* on pages 17 through 24 and the Teacher Retirement System schedules on pages 84 through 90 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Denton Independent School District's basic financial statements. The combining and individual nonmajor fund financial statements and the required TEA schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance, and is also not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements, the required TEA schedules, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, the required TEA schedules, and the Schedule of Expenditures of Federal Awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

## Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 15, 2020 on our consideration of Denton Independent School District's internal control over financial reporting and on our test of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Denton Independent School District's internal control over financial reporting and compliance.

December 15, 2020

**DENTON INDEPENDENT SCHOOL DISTRICT  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE YEAR ENDED JUNE 30, 2020  
(UNAUDITED)**

As management of Denton Independent School District, we offer readers of the District's financial statement this narrative overview and analysis of the financial activities of the District for the year ended June 30, 2020. Please read this narrative in conjunction with the independent auditors' report on page 15, and the District's Basic Financial Statements that begin on page 27.

**FINANCIAL HIGHLIGHTS**

- The liabilities and deferred inflows of resources of the governmental activities of Denton Independent School District exceeded its assets and deferred outflows at the close of the most recent fiscal year resulting in a negative net position of \$34,284,118.
- The District's total net position of its governmental activities increased by \$18,396,443 during the current fiscal year from the result of current year operations.
- As of the close of the current fiscal period, the District's governmental funds reported combined ending fund balances of \$575,332,952. Over 13% of this total amount (\$77,340,346) is unassigned and available for use within the District's commitments and assignment policies.
- At the end of the current fiscal period, the unassigned fund balance of the general fund of \$77,340,346 was 26.35% of the total general fund expenditures.

**OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves. The government-wide financial statements include the Statement of Net Position and the Statement of Activities (on pages 27 through 29). These provide information about the activities of the District as a whole and present a longer-term view of the District's property and debt obligations and other financial matters. They reflect the flow of total economic resources in a manner similar to the financial reports of a business enterprise.

Fund financial statements (starting on page 30) report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds. For governmental activities, these statements tell how services were financed in the short term as well as what resources remain for future spending. They reflect the flow of current financial resources, and supply the basis for tax levies and the appropriations budget. For proprietary activities, fund financial statements tell how goods or services of the District were sold to departments within the District or to external customers and how the sales revenues covered the expenses of the goods or services. The remaining statements, fiduciary statements, provide financial information about activities for which the District acts solely as a trustee or agent for the benefit of those outside of the District. The District has no component units for which it is financially accountable.

The notes to the financial statements (starting on page 43) provide narrative explanations or additional data needed for full disclosure in the government-wide statements or the fund financial statements.

The combining statements for nonmajor funds contain even more information about the District's individual funds. The section labeled Single Audit Section contains data used by monitoring or regulatory agencies for assurance that the District is using funds supplied in compliance with the terms of grants.

## **Reporting the District as a Whole**

### **The Statement of Net Position and the Statement of Activities**

The analysis of the District's overall financial condition and operations begins on page 27. Its primary purpose is to show whether the financial position of the District is improving or deteriorating as a result of the year's activities. The Statement of Net Position includes all the District's assets, deferred outflows of resources, liabilities and deferred inflows of resources at the end of the year while the Statement of Activities includes all revenues and expenses generated by the District's operations during the year. These apply the accrual basis of accounting (the basis used by private sector companies).

All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. The District's revenues are divided into those provided by outside parties who share the costs of some programs, such as tuition received from students from outside the district and grants provided by the U.S. Department of Education to assist children with disabilities or from disadvantaged backgrounds (program revenues), and revenues provided by the taxpayers or by TEA in equalization funding processes (general revenues). All the District's assets are reported whether they serve the current year or future years. Liabilities are considered regardless of whether they must be paid in the current or future years.

These two statements report the District's net position and changes in them. The District's net position provides one measure of the District's financial health, or financial position. Over time, increases or decreases in the District's net position are one indicator of whether its financial health is improving or deteriorating. To fully assess the overall health of the District, however, you should consider nonfinancial factors as well, such as changes in the District's average daily attendance or its property tax base and the condition of the District's facilities.

In the Statement of Net Position and the Statement of Activities, we divide the District into two kinds of activities:

- Governmental activities—Most of the District's basic services are reported here, including the instruction, counseling, co-curricular activities, food services, transportation, maintenance, community services, and general administration. Property taxes, tuition, fees, and state and federal grants finance most of these activities.
- Business-type activities—The District charges a fee to “customers” to help it cover all or most of the cost of services it provides in the child nutrition program and in its athletic stadium concessions activities.

## **Reporting the District's Most Significant Funds**

### **Fund Financial Statements**

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives.

The fund financial statements begin on page 30 and provide detailed information about the most significant funds—not the District as a whole. Laws and contracts require the District to establish some funds, such as grants received under the No Child Left Behind Act from the U.S. Department of Education. The District's administration establishes many other funds to help it control and manage money for particular purposes (like campus activities).

All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

- **Governmental funds.** *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*. The District maintains thirty-four governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, debt service fund, and capital projects fund, each of which are considered to be major funds. Data from the other thirty-one governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report. The District adopts an annual appropriated budget for its general fund, debt service fund and food service fund. A budgetary comparison schedule has been provided to demonstrate compliance with these budgets. The basic governmental fund financial statements can be found on pages 30 through 35 of this report.
- **Proprietary funds.** The District reports the activities for which it charges users (whether outside customers or other units of the District) in proprietary funds using the same accounting methods employed in the Statement of Net Position and the Statement of Activities. In fact, the District's enterprise funds (one category of proprietary funds) are the business-type activities reported in the government-wide statements but containing more detail and additional information, such as cash flows. The internal service funds (the other category of proprietary funds) report activities that provide supplies and services for the District's other programs and activities—such as the District's self-insurance programs and the print shop.
- **Fiduciary funds.** *Fiduciary funds* are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the District's own programs. The District is the trustee, or *fiduciary*, for these funds and is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position that can be found on page 42. These activities are excluded from the District's government-wide financial statements because the District cannot use these assets to finance its operations.

## GOVERNMENT-WIDE FINANCIAL ANALYSIS

The following analysis presents both current and prior year data and discuss significant changes in the accounts. Our analysis focuses on the net position (Table I) and changes in net position (Table II) of the District's governmental and business-type activities.

## **Governmental Activities**

**Net Position.** The net position of the District's governmental activities at June 30, 2020 was a \$34,284,118 deficit. Investment in capital assets (e.g. land, building, furniture, vehicles and equipment) less any related debt used to acquire those assets that is still outstanding was \$34,082,184 at June 30, 2020. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets are reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. An additional portion of the District's governmental activities net position (\$78,811,327) represents resources that are subject to external restrictions on how they may be used.

**Changes in Net Position.** The District's total revenues of its governmental activities were \$427,522,677. A significant portion, approximately 68.9 percent, of the revenue comes from property taxes. Another 16.9 percent comes from state aid - formula grants while only 1.9 percent relates to charges for services. This reflects a \$26.7 million or 6.9% increase in revenues from 2018-2019. The total revenues were used to fund the cost of all programs and services in the amount of \$409,126,234, and to pay down the District's debt. This reflects a \$29.8 million or 7.8% increase in expenses from 2018-2019, primarily due to additional instructional costs.

**Governmental Activities.** The District's total net position of its governmental activities increased \$18,396,443 from the results of current year operations. The total cost of all government activities for the fiscal year ended June 30, 2020 was \$409,126,234. Funding for these governmental activities is by specific program revenue or through general revenues such as property taxes, state aid and investment earnings. Program revenues directly attributable to specific activities funded some of the governmental activities costs. These program revenues amounted to \$50,099,049 (grant revenues, tuition and facility leasing, for example). The remaining cost of governmental activities not directly funded by program revenues was \$359,027,185, which were primarily funded by property taxes in the amount of \$294,541,287 and state revenue plus grants and contributions of \$72,093,674.

## **Business-type Activities**

**Net Position.** The net position of the District's business-type activities at June 30, 2020 were a \$6,503,618 deficit. Investment in capital assets (e.g. furniture, vehicles and equipment) was \$1,039,565 at June 30, 2020.

**Changes in Net Position.** The District's total revenues of its business-type activities were \$10,541,137. The revenues come from two primary sources - approximately 65.7 percent from federal reimbursements for the school breakfast and lunch program, and approximately 34.3 percent from charges for services. The total revenues were used to fund program costs that totaled \$12,872,478.

**Business-type Activities.** The District's total net position of its business-type activities decreased \$2,331,341 from the results of current year operations. The total cost of all business-type activities for the fiscal year ended June 30, 2020 was \$12,872,478. Funding for these business-type activities is primarily by specific program revenue. Program revenues directly attributable to the two activities funded virtually of the costs. These program revenues amounted to \$10,510,558. The volume of activity in the District's business-type activities during the year was down from the prior year due to the substantial decrease in revenue during the months the District was closed to in-person instruction as a result of the COVID-19 pandemic.

**Table I**  
**NET POSITION**

	Governmental Activities		Business-type Activities		Total

Total Expenses	379,334,433	409,126,234	11,743,600	12,872,478	391,078,033	421,998,712
Increase (Decrease) in Net Position	21,393,140	18,396,443	519,111	(2,331,341)	21,912,251	16,065,102
Net Position - beginning of year	(74,073,701)	(52,680,561)	(4,691,388)	(4,172,277)	(78,765,089)	(56,852,838)
Net Position - end of year	\$ (52,680,561)	\$ (34,284,118)	\$ (4,172,277)	\$ (6,503,618)	\$ (56,852,838)	\$ (40,787,736)

The cost of all governmental activities for the current fiscal period was \$409,126,234. However, as shown in the Statement of Activities on pages 28 and 29, the amount that our taxpayers ultimately financed for these activities through District taxes was only \$294,541,287 because some of the costs were paid by those who directly benefited from the programs (\$7,991,152) or by State equalization funding (\$72,060,766).

## THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements, bond covenants, and segregation for particular purposes.

As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$575,332,952 a decrease of \$106,370,438 from the prior year. Approximately 19 percent of this total amount (\$109,327,181) constitutes *committed, assigned and unassigned fund balance*, which is available for spending at the District's discretion. The remainder of fund balance is *nonspendable or restricted* to indicate that it is not available for new spending because it is already restricted to pay debt service (\$78,797,084), or for capital projects (\$386,382,291), or already spent on prepaid items (\$268,603), inventories (\$556,793) or endowment principal (\$1,000).

The general fund is the primary operating fund of the District. At the end of the current fiscal year, unassigned fund balance of the general fund was \$77,340,346, while the total fund balance was \$102,768,410. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to the total fund expenditures. Unassigned fund balance represents 26.35 percent of the total general fund expenditures, while the total fund balance represents 35.01 percent of that same amount.

The fund balance of the District's general fund increased by \$1,102,640 during the current fiscal year, compared to a \$10,239,825 increase in the previous year. Key factors related to this change are as follows:

- A \$9,614,736 increase in property tax revenues combined with a \$14,138,362 increase in state per capita and foundation revenue contributed to an \$18,893,616 overall increase in total revenues. However, expenditures increased \$25,261,064 or 9.41% with increases in most functional categories.

The debt service fund has a total fund balance of \$78,803,292, all of which is reserved for the payment of debt service. The net increase in fund balance during the period in the debt service fund was \$2,873,102, compared to a \$13,035,980 increase in the previous year. Tax revenues were \$10,646,083 higher than the previous year and debt service expenditures (net of a remarketing) were \$20,283,498 higher.

Other changes in fund balances should also be noted. The fund balance in the capital projects fund decreased by \$112,512,332 due primarily to \$124,435,756 spent on construction-related costs. Although these and other capital expenditures reduce available fund balances, they create new assets for the District as reported in the Statement of Net Position and discussed in Note 5 to the financial statements.

Over the course of the year, the Board of Trustees revised the District's budget several times. These budget amendments fall into three categories. The first category includes amendments and supplemental appropriations that were approved shortly after the beginning of the year and reflect the actual beginning balances (versus the amounts we estimated in June, 2019). The second category includes changes that the Board made during the year to reflect new information regarding revenue sources and expenditure needs. The principal amendment in this case was an increase in the anticipated amount of State funding to be received. The third category involves amendments moving funds from programs that did not need all the resources originally appropriated to them to programs with resource needs.

The District's General Fund balance of \$102,768,410 reported on page 34 differs from the General Fund's budgetary fund balance of \$99,987,090 reported in the budgetary comparison schedule on page 83. For the year ended June 30, 2020, actual general fund expenditures on a budgetary basis were \$293,528,095, above the original budget expenditures of \$284,879,985. The actual expenditures were below the revised final budget of \$303,896,153. The majority of the actual variance of \$10,368,058 consists of savings achieved in payroll costs in the instructional area, savings achieved in utilities costs in the facilities maintenance and operations area and a delay in the purchase of buses in the transportation area. Actual revenue on a budgetary basis was \$295,995,935 compared to the original budget of \$283,529,985 and a revised budget of \$302,095,962. The actual variance of \$6,100,027 was due primarily to lower than expected state funding.

## CAPITAL ASSETS AND DEBT ADMINISTRATION

### Capital Assets

At June 30, 2020, the District had \$862,132,927 (net of accumulated depreciation) invested in a broad range of capital assets, in its governmental activities, including facilities and equipment for instruction, transportation, athletics, administration, and maintenance. This amount represents a net increase of \$91,599,243, or 11.89 percent, above last year.

This fiscal year's major additions included:

Initial construction costs on a new high school, paid for with proceeds of general obligation bonds issued in a prior year.	\$53,714,440
Initial construction costs on a new middle school, paid for with proceeds of general obligation bonds issued in a prior year.	20,656,152
Continuing construction costs on a new elementary school, paid for with proceeds of general obligation bonds issued in a prior year.	8,086,141
Initial construction costs on renovations and additions to an existing high school, paid for with proceeds of general obligation bonds	10,119,621
Totaling	<u>\$92,576,354</u>

In addition, at June 30, 2020 the District has \$1,052,948 (net of accumulated depreciation) invested in equipment in its business-type activities, an increase of \$556,221 or 112% above last year. The primary additions during the current fiscal year consists of cafeteria serving line replacements at several campuses, plus construction costs related to kitchen remodel at one high school.

More detailed information about the District's capital assets is presented in Note 4 to the financial statements.

### Debt Administration

At year-end, the District had \$1,167,168,659 in bonds outstanding (including accreted interest on bonds) versus \$1,210,973,212 last year—a decrease of 3.62 percent. New debt incurred during the fiscal period consisted of the remarketing of the Series 2014B bonds. The District's underlying rating for unlimited tax bonds is "AA" by S&P, and "AA-" by Fitch but is considered AAA as a result of guarantees of the Texas Permanent School Fund.

State statutes limit the amount of general obligation debt a governmental entity may issue to 10 percent of its total assessed valuation. The current debt limitation for the District is \$1,991,498,578, which is significantly in excess of the District's outstanding general obligation debt.

Other obligations include accrued vacation benefits and special termination benefits. More detailed information about the District's long-term liabilities is presented in Note 5 to the financial statements.

## **ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES**

The Board of Trustees approved a maintenance and operation property tax rate of \$0.99 and a debt service rate of \$0.48 for the fiscal year 2019-2020, making the total tax rate necessary to fund the 2019-2020 budget \$1.47. This represents a decrease of \$0.07 from the prior year.

This change in the tax rate was due to the implementation of House Bill 3 (HB3) approved during the 86<sup>th</sup> Legislative Session. Beginning in the 2019 tax year HB3 requires a school district's Tier 1 M & O tax rate to be the lesser of \$1.00 or the total number of cents levied by the District for the M & O rate in 2018 multiplied by the state compression percentage of 93 percent. In 2018, the District's Tier 1 M & O rate was \$1.00, reducing the rate to \$0.93. The voter approval tax rate is set to the sum of \$0.93 plus: the greater of 4 cents or the District's enrichment tax rate after tax compression. In 2018, the enrichment tax rate was \$0.06. HB3 made no changes to the calculation of a District's debt service tax rate. The District continues to experience an increase in property values over the prior year. The actual increase in certified and under review values for the 2019 tax year was \$1,910,765,060 or 11.85%.

During the 86<sup>th</sup> Legislative Session changes were approved relating to the compensation of school district employees. An amount equal to 30% of the overall gain in funding was to be allocated to District employees, except for administrators. Of that amount 75% was to be allocated to teachers, counselors, librarians and nurses with a priority of differentiated compensation for classroom teachers with more than five years of experience. The remaining 25% was to be used for all other staff, except for administrators. The 2019-2020 Compensation Plan included approximately \$8,238,488 to be used for the increases included in HB3. In addition, staffing for the opening of Union Park Elementary School was included.

The Board of Trustees of the Denton Independent School District adopted a total tax rate of \$1.4076 per \$100 of assessed value for 2020-2021. The M & O tax rate will decrease to \$.9276 and the debt service tax rate will remain at \$0.48 for a total rate of \$1.4076. The District's certified values increased \$1,624,325,979 or 9.01% for 2020.

State funding for 2020-2021 is projected to be \$18,651,390 or 28.59% of the total budget compared to \$80,009,783 or 28.08% for 2019-2020.

During the 2012-2013 school year the District worked with TASB to examine pay equity for employees and to determine if pay practices were internally fair and externally competitive. Several adjustments have been implemented since the 2013-2014 school year. The 2020-2021 budget includes approximately \$5,500,000 for the Salary Compensation Plan.

With the passage of HB3 in the last legislative session, the Legislature increased state funding in public education, improved equity, and lowered property tax rates. The new revenue formula approved by the legislature continues to be based on student attendance in the regular classroom and in special settings. However, the new formula restricts overall state foundation and local tax revenue growth to 2.5% unless the District has additional student growth. The focus for the 2020-2021 budget was the impact of COVID-19 adjusted attendance data which the Texas Education Agency used for the final two six weeks attendance for the 2019-2020 school year and did not properly reflect the District's historical attendance trends and created complexity in projecting the 2020-2021 data. Denton ISD will receive approximately \$5,641,607 more in state funding for 2020-2021 than in the prior year's adopted budget. Property tax collections are expected to increase by \$9,768,286.

## **CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT**

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for funds the District receives. If you have questions about this report or need additional financial information, contact the District's business office, at Denton Independent School District, 1307 North Locust, Denton, Texas 76201, (940) 369-0000.

DENTON INDEPENDENT SCHOOL DISTRICT  
RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES,  
AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES  
FOR THE YEAR ENDED JUNE 30, 2020

<b>Total Net Change in Fund Balances - Governmental Funds</b>	<b>\$ (106,370,438)</b>
Current year capital asset additions are expenditures in the fund financial statements, but they are shown as increases in capital assets in the government-wide financial statements. The net effect of reclassifying the current year capital asset additions is to increase net position.	125,963,858
Depreciation is not recognized as an expense in governmental funds since it does not require the use of current financial resources. The net effect of the current year's depreciation is to decrease net position in the government-wide financial statements.	(30,191,556)
Interest is accrued on outstanding debt in the government-wide financial statements, whereas in the fund financial statements interest expenditures are reported when due.	684,602
Revenues from property taxes are deferred in the fund financial statements until they are considered available to finance current expenditures, but such revenues are recognized when assessed, net of an allowance for uncollectable amounts, in the government-wide financial statements.	250,861
Current year amortization of the premium/discount on bonds payable is not recorded in the fund financial statements, but is shown as a reduction in long-term debt in the government-wide financial statements.	9,409,501
Current year interest accretion on capital appreciation bonds is not recognized in the fund financial statements, but is shown as an increase in long-term debt in the government-wide financial statements.	(985,447)
The net profit (loss) of internal service funds is not included in the fund financial statements but is reported with governmental activities in the government-wide financial statements.	(916,851)
Current year principal payments on bonds payable are expenditures in the fund financial statements, but are shown as reductions in long-term debt in the government-wide financial statements.	102,995,000
Current year net increases in accrued vacation benefit obligations and special termination benefit obligations are shown as expenditures in the fund financial statements but are shown as additions in long-term debt in the government-wide financial statements.	(210,292)
The implementation of GASB 68 required that certain expenditures be de-expended and recorded as deferred resource outflows. These contributions made after the measurement date of 8/31/2019 caused the ending net position to increase in the amount of \$6,279,113. Contributions made before the measurement but during the 2019 FY were also de-expended and recorded as a reduction in the net pension liability for the District. This also caused an increase in the net position in the amount of \$1,041,307. These contributions were replaced with the District's pension expense for the year of \$19,797,387, which caused a decrease in the change in net position. The impact of all of these is to decrease net position by \$12,476,967.	(12,476,967)

The notes to the financial statements are an integral part of this statement.

DENTON INDEPENDENT SCHOOL DISTRICT  
RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES,  
AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES  
FOR THE YEAR ENDED JUNE 30, 2020

---

The implementation of GASB 75 required that certain expenditures be de-expended and recorded as deferred resource outflows. TRS OPEB contributions made during the current fiscal year caused the ending net position to increase in the amount of \$1,813,010. These contributions were replaced with the District's OPEB expense for the year, which was \$3,691,060 and caused a decrease in net position. The impact of both of these is to decrease net position by \$1,878,050.	(1,878,050)
Proceeds from bond sales are recorded as other resources in the fund financial statements but are shown as an increase in long-term debt in the government-wide financial statements.	(67,925,000)
Premium received on bond sales are recorded as other resources in the fund financial statements but are shown as an increase in long-term debt in the government-wide financial statements.	(1,531,030)
Payments to refund bonds payable are shown as other financing uses in the fund financial statements, but are shown as a reduction in long-term debt in the government-wide financial statements.	9,742,930
The basis of capital asset dispositions do not affect the fund financial statements but are shown as a reduction of capital assets in the government-wide financial statements.	(4,173,059)
Current year amortization of deferred charge on bond refunding is not recorded in the fund financial statements, but is shown as a reduction of the deferred loss in the government-wide financial statements.	(3,991,619)

DENTON INDEPENDENT SCHOOL DISTRICT  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2020

**NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Denton Independent School District's (the "District") combined financial statements have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units in conjunction with the Texas Education Agency's Financial Accountability System Resource Guide (FAR). The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies of the District are described below.

**A. REPORTING ENTITY**

The Board of Trustees, a seven member group, has fiscal accountability over all activities related to public elementary and secondary education within the jurisdiction of the District. The board of trustees are elected by the public. The trustees as a body corporate have the exclusive power and duty to govern and oversee the management of the public schools of the district. All powers and duties not specifically delegated by statute to the Texas Education Agency (Agency) or to the State Board of Education are reserved for the trustees, and the Agency may not substitute its judgment for the lawful exercise of those powers and duties by the trustees. The District is not included in any other governmental "reporting entity" as defined in Section 2100, Codification of Governmental Accounting and Financial Reporting Standards.

The District's basis financial statements include the accounts of all District operations. The criteria for including organizations as component units within the District's reporting entity, as set forth in Section 2100 of GASB's Codification of Governmental Accounting and Financial Reporting Standards, include whether:

- the organization is legally separate (can sue and be sued in their own name)
- the District holds the corporate powers of the organization
- the District appoints a voting majority of the organization's board
- the District is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the District
- there is fiscal dependency by the organization on the District

Based on the aforementioned criteria, Denton Independent School District has no component units.

**B. BASIS OF PRESENTATION**

The government-wide financial statements (the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. The effect of interfund activity, within the governmental and business-type activities columns, has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific program. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given program and 2) operating or capital grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Taxes and other items not properly included among program revenues are reported instead as general revenues.

DENTON INDEPENDENT SCHOOL DISTRICT  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2020

Fund Financial Statements:

The District segregates transactions related to certain functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Separate statements are presented for governmental and proprietary activities. These statements present each major fund as a separate column on the fund financial statements; all non-major funds are aggregated and presented in a single column.

Governmental funds are those funds through which most governmental functions typically are financed. The measurement focus of governmental funds is on the sources, uses and balance of current financial resources. The District has presented the following major governmental funds:

1. **General Fund** - This fund is established to account for resources financing the fundamental operations of the District, in partnership with the community, in enabling and motivating students to reach their full potential. All revenues and expenditures not required to be accounted for in other funds are included here. This is a budgeted fund and any fund balances are considered resources available for current operations. Fund balances may be appropriated by the Board of Trustees to implement its responsibilities.
2. **Debt Service Fund** - This fund is established to account for payment of principal and interest on long-term general obligation debt and other long-term debts for which a tax has been dedicated. This is a budgeted fund. Any unused sinking fund balances are transferred to the General Fund after all of the related debt obligations have been met.
3. **Capital Projects Fund** - This fund is established to account for proceeds, from the sale of bonds and other resources to be used for Board authorized acquisition, construction, or renovation, as well as, furnishings and equipping of major capital facilities. Upon completion of a project, any unused bond proceeds are transferred to the Debt Service Fund and are used to retire related bond principal.

Additionally, the District reports the following fund types:

1. **Special Revenue Funds** - These funds are established to account for federally financed or expenditures legally restricted for specified purposes. In many special revenue funds, any unused balances are returned to the grantor at the close of specified project periods. For funds in this fund type, project accounting is employed to maintain integrity for the various sources of funds.
2. **Enterprise Fund** - The District utilizes enterprise funds to account for the Districts' activities for which outside users are charged a fee roughly equal to the cost of providing the goods or services of those activities. The District uses this fund to account for its food service operations and for its athletic stadium concessions, because these programs are self-supporting and do not require subsidies from the general fund.
3. **Internal Service Funds** - The District utilizes Internal Service Funds to account for revenues and expenses related to services provided to parties inside the District on a cost reimbursement basis. These funds facilitate distribution of support costs to the users of support services. The District has internal service funds for its health and workers compensation self-insurance plans in addition to its print shop.

DENTON INDEPENDENT SCHOOL DISTRICT  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2020

4. **Permanent Fund** - The District utilizes a permanent fund to account for resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes to support the District's programs. The District uses this fund to account for the Lewis Price Memorial Fund, the earnings on which are to be used for playground equipment.
5. **Agency Funds** - These custodial funds are used to account for activities of student groups and other organizational activities requiring clearing accounts. Financial resources for the Agency funds are recorded as assets and liabilities; therefore, these funds do not include revenues and expenditures and have no fund equity. If any unused resources are declared surplus by the student groups, they are transferred to the General Fund with a recommendation to the Board for an appropriate utilization through a budgeted program.

The enterprise funds and internal service funds are proprietary fund types. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Operating expenses for the proprietary funds include the cost of personal and contractual services, supplies and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

**C. MEASUREMENT FOCUS/BASIS OF ACCOUNTING**

Measurement focus refers to what is being measured; basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

The government-wide statements and fund financial statements for proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting. The economic resources measurement focus means all assets and liabilities (whether current or non-current) are included on the statement of net position and the operating statements present increases (revenues) and decreases (expenses) in net total position. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recognized at the time the liability is incurred.

Governmental fund financial statements are reported using the current financial resources measurement focus and are accounted for using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual; i.e., when they become both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The District considers property taxes as available if they are collected within 60 days after year-end. A 90 day availability period is used for recognition of all other Governmental Fund revenues. Expenditures are recorded when the related fund liability is incurred. However, debt service expenditures, as well as expenditures related to compensated absences are recorded only when payment is due.

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

DENTON INDEPENDENT SCHOOL DISTRICT  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2020

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS-Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS-Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as-you-go plan and all cash is held in a cash account.

The revenue susceptible to accrual are property taxes, charges for services, interest income and intergovernmental revenues. All other Governmental Fund Type revenues are recognized when received.

Revenues from state and federal grants are recognized as earned when the related program expenditures are incurred. Funds received but unearned are reflected as unearned revenues, and funds expended but not yet received are shown as receivables.

Revenue from investments, including governmental external investment pool, is based upon fair value. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. Most investments are reported at amortized cost when the investments have remaining maturities of one year or less at time of purchase. External investment pools are permitted to report short-term debt investments at amortized cost, provided that the fair value of those investments is not significantly affected by the impairment of the credit standing of the issuer, or other factors. For that purpose, a pool's short-term investments are those with remaining maturities of up to ninety days.

In accordance with the FAR, the District has adopted and installed an accounting system which exceeds the minimum requirements prescribed by the State Board of Education and approved by the State Auditor. Specifically, the District's accounting system uses codes and the code structure presented in the Accounting Code Section of the FAR.

**D. BUDGETARY CONTROL**

Formal budgetary accounting is employed for all required Governmental Fund Types, as outlined in TEA's FAR module, and is presented on the modified accrual basis of accounting consistent with generally accepted accounting principles. The budget is prepared and controlled at the function level within each organization to which responsibility for controlling operations is assigned.

The official school budget is prepared for adoption for required Governmental Fund Types prior to June 20 of the preceding fiscal year for the subsequent fiscal year beginning July 1. The budget is formally adopted by the Board of Trustees at a public meeting held at least ten days after public notice has been given. The budget is prepared by fund, function, object, and organization. The budget is controlled at the organizational level by the appropriate department head or campus principal within Board allocations. Therefore, organizations may transfer appropriations as necessary without the approval of the board unless the intent is to cross fund, function or increase the overall budget allocations. Control of appropriations by the Board of Trustees is maintained within Fund Groups at the function code level and revenue object code level.

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the General Fund, the Debt Service Fund and the Child Nutrition Fund. The special revenue funds and the Capital Projects Fund adopt project-length budgets which do not correspond to the District's fiscal year. Each annual budget is presented on the modified accrual basis of accounting which is consistent with generally accepted accounting principles. The budget is amended throughout the year by the Board of Trustees. Such amendments are reflected in the official minutes of the Board.

DENTON INDEPENDENT SCHOOL DISTRICT  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2020

A reconciliation of fund balances for both appropriated budget and nonappropriated budget special revenue funds is as follows:

	June 30, 2020 <u>Fund Balance</u>
Appropriated Budget Funds	\$ -0-
Nonappropriated Budget Funds	<u>4,006,653</u>
All Special Revenue Funds	<u>\$4,006,653</u>

**E. CASH AND CASH EQUIVALENTS**

The cash portion of this caption in the accompanying fund financial statements is comprised of demand accounts, imprest funds and money market savings accounts. The District maintains a demand account on an imprest basis through which most obligations are paid. Checking account balances for most government fund expenditures are pooled into one demand account.

The cash equivalents portion of this caption is comprised of investments in state investment pools. All daily receipts are deposited to demand accounts until the funds are invested under the terms of the District's depository contract.

All District's deposits and investments, other than the state investment pool, are legally insured by the Federal Deposit Insurance Corporation and additionally protected by appropriate pledges of securities issued by the State of Texas, other Texas municipalities or the Federal government.

**F. ENCUMBRANCE ACCOUNTING**

The District employs encumbrance accounting, whereby encumbrances for goods or purchased services are documented by purchase orders and contracts. An encumbrance represents a commitment of Board appropriation related to unperformed contracts for goods and services. The issuance of a purchase order or the signing of a contract creates an encumbrance but does not represent an expenditure for the period, only a commitment to expend resources. Appropriations lapse at June 30 and encumbrances outstanding at that time are either canceled or appropriately provided for in the subsequent year's budget.

**G. PREPAID ITEMS**

Prepaid balances are for payments made by the District in the current year to provide services occurring in the subsequent fiscal year, and prepaid items are shown as nonspendable fund balance to signify that they are not available for other subsequent expenditures. Prepaid balances are reported using the consumption method, in which the prepaid item is recorded as an asset when paid and is charged to expenditure or expense each fiscal year in an amount equal to the related benefits received that year.

**H. INVENTORIES**

The consumption method is used to account for inventories of food products, school supplies and athletic equipment. Under this method, these items are carried in an inventory account of the respective fund at cost, using the first-in, first-out method of accounting and are subsequently charged to expenditures when consumed. In the General Fund, reported inventories are offset by a fund balance reserve indicating that they are unavailable as current expendable financial resources.

The amount of unused commodities at balance sheet date is also reported as inventory and unearned revenue. Commodities on hand at June 30, 2020 totaled \$235,555.

DENTON INDEPENDENT SCHOOL DISTRICT  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2020

**I. INTERFUND RECEIVABLES AND PAYABLES**

During the course of normal operations, the District has numerous transactions between funds: The most significant are:

- (A) Inventory is maintained in the General Fund but available for consumption by all funds on a cost reimbursement basis, and
- (B) Short-term interfund loans, due to the fact that checking account balances for most governmental funds are pooled into one demand account.

**J. CAPITAL ASSETS**

Capital assets, which includes property, plant, equipment, and infrastructure assets, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and in the fund financial statements for proprietary funds. All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated assets are valued at acquisition value on the date donated. Repairs and maintenance are recorded as expenses. Renewals and betterments are capitalized. Interest has not been capitalized during the construction period on property, plant and equipment.

Assets capitalized have an original cost of \$5,000 or more and over one-year of useful life. Depreciation has been calculated on each class of depreciable property using the straight-line method. Estimated useful lives are as follows:

Buildings	20-40 Years
Furniture and Equipment	5-10 Years

**K. COMPENSATED ABSENCES**

It is the District's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the District does not have a policy to pay any amounts when employees separate from service with the District. All vacation pay is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

**L. CASH EQUIVALENTS**

For purposes of the statement of cash flows, investments are considered to be cash equivalents if they are highly liquid with maturity within one year or less.

**M. NET POSITION**

Net position represents the difference between assets, deferred inflows, deferred outflows and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciations, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvements of those assets, and adding back unspent proceeds. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislations adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

DENTON INDEPENDENT SCHOOL DISTRICT  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2020

**N. LONG-TERM OBLIGATIONS**

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed in the year incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

**O. FINANCIAL REPORTING MODEL**

The District follows the financial reporting model for state and local governments that includes the addition of management's discussion and analysis, government-wide financial statements, required supplementary information and the elimination of the effects of internal service activities to the already required fund financial statements and notes.

The GASB determined that fund accounting has and will continue to be essential in helping governments to achieve *fiscal accountability* and should, therefore, be retained. The GASB also determined that government-wide financial statements are needed to allow users of financial reports to assess a government's *operational accountability*. The GASB model integrates fund-based financial reporting and government-wide financial reporting as complementary components of a single comprehensive financial reporting model.

**P. DEFERRED OUTFLOWS/INFLOWS OF RESOURCES**

Deferred outflows and inflows of resources are reported in the statement of financial position as described below:

A *deferred outflow of resources* is a consumption of a government's net assets (a decrease in assets in excess of any related decrease in liabilities or an increase in liabilities in excess of any related increase in assets) by the government that is applicable to a future reporting period. The District has three items that qualify for reporting in this category:

**Deferred outflows of resources for refunding** - Reported in the government-wide statement of net position, the deferred charge on bond refundings results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The amount of deferred outflows reported in the governmental activities for the deferred charge on bond refundings at June 30, 2020 was \$54,390,450.

DENTON INDEPENDENT SCHOOL DISTRICT  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2020

**Deferred outflows of resources for pension** - Reported in the government-wide financial statement of net position, this deferred outflow results from pension plan contributions made after the measurement date of the net pension liability and the results of differences between expected and actual actuarial experiences. The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the next fiscal year. The other pension related deferred outflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with pensions through the pension plan which is currently approximately 6.7 years.

A deferred outflow for pension expense results from payments made to the TRS pension plan by the District after the plan's measurement date. The amount of deferred outflows reported in the statement of net position for deferred pension expenses at June 30, 2020 was \$46,848,979.

**Deferred outflows of resources for OPEB**- Reported in the government-wide financial statement of net position, this deferred outflow results from OPEB plan contributions made after the measurement date of the net OPEB liability and the results of differences between expected and actual investment earnings and changes in proportionate share. The deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the next fiscal year. The other OPEB related deferred outflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with OPEB through the OPEB plan which is currently approximately 8.6 years. The amount of deferred outflows reported in the statement of net position for deferred OPEB expense at June 30, 2020 was \$22,502,087.

*A deferred inflow of resources* is an acquisition of a government's net assets (an increase in assets in excess of any related increase in liabilities or a decrease in liabilities in excess of any related decrease in assets) by the government that is applicable to a future reporting period. The District has three items that qualify for reporting in this category:

**Deferred inflows of resources for unavailable revenues** - Reported only in the governmental funds balance sheet, unavailable revenues from property taxes arise under the modified accrual basis of accounting. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The District reported property taxes that are unavailable as deferred inflows of resources in the fund financial statements. The amount of deferred inflows of resources reported in the governmental funds at June 30, 2020 was \$4,131,001.

**Deferred inflows of resources for pension** - Reported in the government-wide financial statement of net position, these deferred inflows result primarily from differences between projected and actual earnings on pension plan investments. These amounts will be amortized over a closed five year period. In fiscal year 2020, the District reported deferred inflows of resources for pensions in the statement of net position in the amount of \$15,877,968.

**Deferred inflows of resources for OPEB** - Reported in the government-wide financial statement of net position, these deferred inflows result primarily from differences between expected and actual experience and from changes in assumptions. These amounts will be amortized over the average expected remaining service life (AERSL) of all members (8.6 years for the 2019 measurement year). In fiscal year 2020, the District reported deferred inflows of resources for OPEB in the statement of net position in the amount of \$48,798,312.

DENTON INDEPENDENT SCHOOL DISTRICT  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2020

**Q. RISK MANAGEMENT**

The District is exposed to various risks of loss related to torts theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal 2020, the district purchased commercial insurance to cover general liabilities. There were no significant reductions in coverage in the past fiscal year, and there were no settlements exceeding insurance coverage for each of the past three fiscal years.

**R. ESTIMATES**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

**NOTE 2. FUND BALANCE**

The District has implemented GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions" which provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balances more transparent.

Fund Balance Classification: The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

- Nonspendable: This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact. The District has classified prepaid items and inventories as being nonspendable as these items are not expected to be converted to cash and has classified the Lewis Price Memorial Fund principal as being nonspendable as these funds are contractually required to remain intact.
- Restricted: This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation. Debt service resources are to be used for future servicing of the District's bonded debt and are restricted through debt covenants. Capital projects fund resources are to be used for future construction and renovation projects and are restricted through bond orders and constitutional law.
- Committed: This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the District's Board of Trustees. The Board of Trustees establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. This can also be done through adoption and amendment of the budget. These amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements. The Board of Trustees have committed resources as of June 30, 2020 for campus activities.

DENTON INDEPENDENT SCHOOL DISTRICT  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2020

- Assigned: This classification includes amounts that are constrained by the District's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Board of Trustees or through the Board of Trustees delegating this responsibility to other individuals in the District. Under the District's adopted policy, the Board of Trustees may assign amounts for specific purposes but it has also delegated authority to assign fund balance to the Superintendent and the Assistant Superintendent of Administrative Services. This classification also includes the remaining positive fund balance for all governmental funds except for the General Fund. The District has assigned fund balance of the General Fund as of June 30, 2020 for several purposes as detailed below.
- Unassigned: This classification includes all amounts not included in other spendable classifications, including the residual fund balance for the General Fund.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Board of Trustees has provided otherwise in its commitment or assignment actions.

During the current fiscal period, the Board of Trustees adopted a fund balance policy that expresses an intent to maintain a level of assigned and unassigned fund balance in the general fund equal to 25 percent of the fund's operating expenditures.

The details of the fund balances are included in the Governmental Funds Balance Sheet (pages 20 and 21) and are described below:

**General Fund**

The General Fund has unassigned fund balance of \$77,340,306 at June 30, 2020. Deferred expenditures (prepaid items) of \$239,492 and inventories of \$101,678 are considered nonspendable fund balance. The District has assigned general fund fund balance resources for the following purposes as of June 30, 2020:

Extended School Day program	\$ 5,561,017
Non-bond new campus startup	601,414
Transportation	2,484,038
Per pupil campus allotment	3,261,594
Secondary curriculum	160,382
Special education	532,200
Career and Technology program	1,220,156
Bilingual program	149,102
Fine Arts program	99,245
Major maintenance projects	2,228,193
Technology	5,004,158
Athletics	2,636,512
Insurance deductibles	500,000
Vehicles/buses/equipment	648,883
	<u>\$25,086,894</u>

**Other Major Funds**

The Debt Service Fund has restricted funds of \$78,797,084 at June 30, 2020 consisting primarily of property tax collections that are restricted for debt service payments on bonded debt. Deferred expenditures (prepaid items) of \$6,208 are considered nonspendable fund balance. The Capital Projects Fund has restricted funds of \$386,382,291 at June 30, 2020 consisting of unspent bond funds and \$3,358,063 of non-bond funds assigned for future capital replacement projects.

DENTON INDEPENDENT SCHOOL DISTRICT  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2020

**Other Funds**

The fund balance of \$2,101,794 of the Campus Activity Fund (a special revenue fund) is shown as committed due to Board policy committing those funds to campus activities. The fund balance of Local Grants (a special revenue fund) consists of funds donated for specific purposes that are committed to those purposes, and the fund balance of COVID-19 Local Activity (a special revenue fund) consists of funds set aside and committed for local COVID-19 expenditures. The Lewis Trust Memorial Fund permanent endowment fund principal of \$1,000 is shown as nonspendable at June 30, 2020, while the accumulated unspent earnings of \$13,243 are shown as assigned fund balance.

**NOTE 3. DEPOSITS AND INVESTMENTS**

The District's funds are required to be deposited and invested under the terms of a depository contract. The depository bank deposits for safekeeping and trust with the District's agent bank approved pledged securities in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance.

1. Cash Deposits:

At June 30, 2020, the carrying amount of the District's deposits checking accounts and interest-bearing savings accounts was \$8,657,029 and the bank balance was \$8,910,437. The District's cash deposits at June 30, 2020 were entirely covered by FDIC insurance or by pledged collateral held by the District's agent bank in the District's name.

A reconciliation of cash and cash equivalents to the financial statements is as follows:

Petty cash	\$ 220
Checking accounts and interest-bearing savings accounts	8,657,029
Investment pools	<u>620,515,536</u>
Total	<u>\$629,172,785</u>
Governmental funds	\$622,391,317
Enterprise funds	2,855,982
Internal service funds	3,166,252
Fiduciary funds	744,991
Permanent fund	<u>14,243</u>
Total	<u>\$629,172,785</u>

DENTON INDEPENDENT SCHOOL DISTRICT  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2020

2. Investments:

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the District to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit. Statutes authorize the District to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas; (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) Mutual Funds, (8) Investment pools, (9) guaranteed investment contracts, (10) and common trust funds. The Act also requires the District to have independent auditors perform test procedures related to investment practices as provided by the Act. The District is in substantial compliance with the requirements of the Act and with local policies.

In compliance with the Public Funds Investment Act, the District has adopted a deposit and investment policy. That policy addresses the following risks:

- a. Custodial Credit Risk – Deposits: In the case of deposits, this is the risk that, in the event of a bank failure, the District's deposits may not be returned to it. As of June 30, 2020, the District's cash balances totaled \$8,910,437. This entire amount was either secured by a letter of credit held by the District's financial institution's agent in the District's name or covered by FDIC insurance. Thus, the District's deposits are not exposed to custodial credit risk.
- b. Custodial Credit Risk - Investments: For an investment, this is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. At June 30, 2020, the District held all of its investments in five public funds investment pools (TexPool, Lone Star, Texas Term, Texas Class and TexStar). Investments in external investment pools are considered unclassified as to custodial credit risk because they are not evidenced by securities that exist in physical or book entry form.
- c. Credit Risk - This is the risk that an issuer or other counterparty to an investment will be unable to fulfill its obligations. The rating of securities by nationally recognized rating agencies is designed to give an indication of credit risk. The credit quality rating for TexPool, Texas Term, Texas Class and TexStar at year-end was AAAm (Standard & Poor's), and the credit quality rating for Lone Star was AA Af (Standard & Poor's).
- d. Interest Rate Risk - This is the risk that changes in interest rates will adversely affect the fair value of an investment. The District manages its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio to less than one year from the time of purchase. The weighted average maturity for the TexPool, TexStar, Texas Term, Texas Class and Lone Star investments is less than 60 days.
- e. Foreign Currency Risk - This is the risk that exchange rates will adversely affect the fair value of an investment. At June 30, 2020, the District was not exposed to foreign currency risk.
- f. Concentration of Credit Risk - This is the risk of loss attributed to the magnitude of the District's investment in a single issuer (i.e., lack of diversification). Concentration risk is defined as positions of 5 percent or more in the securities of a single issuer. Investment pools are excluded from the 5 percent disclosure requirement.

DENTON INDEPENDENT SCHOOL DISTRICT  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2020

Public funds investment pools in Texas ("Pools") are established under the authority of the Interlocal Cooperation Act, Chapter 79 of the Texas Government Code, and are subject to the provisions of the Public Funds Investment Act (the "Act"), Chapter 2256 of the Texas Government Code. In addition to other provisions of the Act designed to promote liquidity and safety of principal, the Act requires Pools to: 1) have an advisory board composed of participants in the pool and other persons who do not have a business relationship with the pool and are qualified to advise the pool; 2) maintain a continuous rating of no lower than AAA or AAA-m or an equivalent rating by at least one nationally recognized rating service; and 3) maintain the market value of its underlying investment portfolio within one half of one percent of the value of its shares.

The District's investments in Pools are reported at an amount determined by the fair value per share of the pool's underlying portfolio, unless the pool is 2a7-like, in which case they are reported at share value. A 2a7-like pool is one which is not registered with the Securities and Exchange Commission ("SEC") as an investment company, but nevertheless has a policy that it will, and does, operate in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940.

The District's investments at June 30, 2020, are shown below:

<u>Name</u>	<u>Carrying Amount</u>	<u>Fair Value</u>
TexPool	\$ 93,450,940	\$ 93,450,940
TexStar	94,087,770	94,087,770
Lone Star	175,164,159	175,164,159
Texas Term	128,927,103	128,927,103
Texas Class	<u>128,885,564</u>	<u>128,885,564</u>
Total	<u>\$620,515,536</u>	<u>\$620,515,536</u>

#### Fair Value Measurements

The District categorizes its fair value measurements with the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy below.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The District's assessment of the significance of particular inputs to these fair value measurements requires judgement and considers factors specific to each asset or liability.

The District's investment in Texpool, TexStar, Texas Term, Texas Class and Lone Star (statewide 2a7-like external investment pools) are not required to be measured at fair value but are measured at amortized cost.

DENTON INDEPENDENT SCHOOL DISTRICT  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2020

**NOTE 4. CAPITAL ASSETS**

Capital asset activity for the year ended June 30, 2020, was as follows:

	<u>Balance July 1</u>	<u>Additions/ Completions</u>	<u>Retirement/ Adjustments</u>	<u>Balance June 30</u>
Governmental Activities:				
Capital assets, not being depreciated:				
Land	\$ 68,197,400	\$ 2,521,806	\$ (4,010,306)	\$ 66,708,900
Construction in Progress	<u>40,166,766</u>	<u>105,007,714</u>	<u>(26,445,668)</u>	<u>118,728,812</u>
Total capital assets, not being depreciated	<u>108,364,166</u>	<u>107,529,520</u>	<u>(30,455,974)</u>	<u>185,437,712</u>
Capital assets, being depreciated:				
Buildings and Improvements	969,353,496	39,029,718	(176,153)	1,008,207,061
Furniture and Equipment	<u>51,814,934</u>	<u>5,850,288</u>	<u>(1,641,942)</u>	<u>56,023,280</u>
Total capital assets, being depreciated	<u>1,021,168,430</u>	<u>44,880,006</u>	<u>(1,818,095)</u>	<u>1,064,230,341</u>
Less accumulated depreciation for:				
Buildings and Improvements	(317,569,064)	(27,753,248)	13,400	(345,308,912)

**NOTE 5. LONG-TERM DEBT**

Long-term debt includes sixteen series of par bonds, capital appreciation (deep discount) serial bonds, compensated absences, interest rate swap agreements, and special termination benefits. All long-term debt represents transactions in the District's governmental activities. No long-term debt exists in the District's business-type activities.

The District has entered into a continuing disclosure undertaking to provide Annual Reports and Material Event Notices to the State Information Depository of Texas (SID), which is the Municipal Advisory Council. This information is required under SEC Rule 15c2-12 to enable investors to analyze the financial condition and operations of the District.

DENTON INDEPENDENT SCHOOL DISTRICT  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2020

The following is a summary of the changes in the District's Long-term Debt for the year ended June 30, 2020:

Description	Interest Rate Payable	Amount Original Issue	Amounts Outstanding 7/1/19	Additions	Refunded/ Retired	Amounts Outstanding 6/30/20	Due Within One Year
Bonded Indebtedness:							
2001 Bldg/Refunding	3.64-4.40%	60,920,000	\$ 9,715,000	\$ -	\$ 1,780,000	\$ 7,935,000	\$ 1,835,000
2005A Building	Variable	46,500,000	41,010,000	-	1,950,000	39,060,000	2,000,000

2018 Building	3.00-5.00%	400,125,000	400,125,000	-	7,630,000	392,495,000	10,065,000
Total Bonded Indebtedness			<u>1,167,039,104</u>	<u>67,925,000</u>	<u>112,715,000</u>	<u>1,122,249,104</u>	<u>31,628,016</u>
Accreted Interest	4.10-5.20%		43,934,108	985,447	-	44,919,555	4,406,984
Premiums on Bond Issuance			157,810,914	1,531,030	9,409,501	149,932,443	8,254,795
Accrued Vacation Benefits			874,422	352,538	135,580	1,058,380	325,000
Special Termination Benefits			6,666	-	6,666	-	-
Total Other Obligations			<u>202,593,110</u>	<u>2,869,015</u>	<u>9,551,747</u>	<u>195,910,378</u>	<u>13,011,779</u>
Total Obligations of District			<u>\$1,369,632,214</u>	<u>\$70,794,015</u>	<u>\$122,266,747</u>	<u>\$1,318,159,482</u>	<u>\$44,639,795</u>

Final maturity of the above bond series ranges from 2021 to 2049.

The District issues general obligation bonds for the governmental activities to provide funds for the acquisition and construction of major capital facilities. General obligation bonds are direct obligations and pledge the full faith and credit of the District. Current principal and interest requirements are payable solely from future revenues of the Debt Service Fund which consists principally of property taxes collected by the District and interest earnings. Certain outstanding bonds may be redeemed at their par value prior to their normal maturity dates in accordance with the terms of the related bond indentures. The District has never defaulted on any principal or interest payment.

Accrued vacation benefits and special termination benefits have typically been liquidated with general fund revenues in prior years.

There are a number of limitations and restrictions contained in the various general obligation bonds indentures. The District is in compliance with all significant limitations and restrictions at June 30, 2020.

DENTON INDEPENDENT SCHOOL DISTRICT  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2020

Interest Rate Swap Agreements

*2005 Swap Agreements*

As a means to reduce its borrowing cost in comparison to the issuance of traditional fixed rate bonds at the time of issuance, on January 27, 2005 the District entered into an interest rate swap transaction pursuant to agreements (the "2005 Swap Agreements") with Bear Stearns Financial Products Inc. ("BSFP") and UBS AG ("UBS"), each in an original notional amount of \$23,250,000, in order to synthetically fix the interest obligation on the District's \$46,500,000 Variable Rate Unlimited Tax School Building Bonds, Series 2005-A (the "Series 2005-A Bonds"). Subsequent to entering into the 2005 Swap Agreements, JPMorgan Chase & Co. purchased and merged with BSFP and as result JPMorgan Chase Bank, N.A. ("JPMCB") has been substituted for BSFP as a swap counterparty for the 2005 Swap Agreements.

Under the 2005 Swap Agreements, the District is obligated to make payments to JPMCB and UBS calculated on a notional amount that is equal to the scheduled outstanding principal amount of the Series 2005-A Bonds at a fixed rate of 3.42% per annum and JPMCB and UBS are each obligated to make floating rate payments to the District calculated on a notional amount that is equal to the scheduled outstanding principal amount of the Series 2005-A Bonds at a rate equal to 67% of the one-month London Interbank Offered Rate (LIBOR) for U.S. deposits. The Series 2005-A Bonds and the 2005 Swap Agreements have a stated final maturity date of August 1, 2035.

As of June 30, 2020, the debt service requirements of the Series 2005-A Bonds were as follows. As interest rates change in the future, the differences between the floating rates payable to the District under the 2005 Swap Agreements and the actual interest rates payable by the District on the Series 2005-A Bonds will vary.

<u>Year Ended</u> <u>June 30</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u> <u>Requirements</u>
2021	\$ 2,000,000	\$ 1,663,222	\$ 3,663,222
2022	1,880,000	1,578,444	3,458,444
2023	1,950,000	1,494,758	3,444,758
2024	2,030,000	1,407,796	3,437,796
2025	2,110,000	1,317,337	3,427,337
2026-2030	11,770,000	5,103,942	16,873,942
2031-2035	14,130,000	2,289,224	16,419,224
2036	<u>3,190,000</u>	<u>69,702</u>	<u>3,259,702</u>
Totals	<u>\$ 39,060,000</u>	<u>\$ 14,924,425</u>	<u>\$ 53,984,425</u>

Note: Interest was calculated at a rate, representing the sum of: (a) the actual fixed payment swap rate of 3.420% pursuant to the 2005 Swap Agreements; (b) the estimated cost of the liquidity facility for the Series 2005-A Bonds (0.550%); (c) the estimated cost of remarketing the Series 2005-A Bonds (0.050%); and (d) 0.350% per year to offset the potential differences between the floating rates payable to the District under the 2005 Swap Agreements and the actual interest rates payable by the District on the Series 2005-A Bonds.

*2006 Swap Agreement*

As a means to reduce its borrowing cost in comparison to the issuance of traditional fixed rate bonds at the time of issuance, on June 29, 2006 the District entered into an interest rate swap transaction pursuant to an agreement (the "2006 Swap Agreement") with Bear Stearns Financial Products Inc. ("BSFP"), in an original notional amount of \$30,000,000, in order to synthetically fix the interest obligation on the District's \$30,000,000 Variable Rate Unlimited Tax School Building Bonds, Series 2006-B (the "Series 2006-B Bonds"). Subsequent to entering into the 2006 Swap Agreement, JPMorgan Chase & Co. purchased and merged with BSFP and as a result JPMorgan Chase Bank, N.A. ("JPMCB") has been substituted for BSFP as swap counterparty for the 2006 Swap Agreement.

DENTON INDEPENDENT SCHOOL DISTRICT  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2020

Under the 2006 Swap Agreement, the District is obligated to make payments to JPMCB calculated on a notional amount equal to the scheduled outstanding principal amount of the Series 2006-B Bonds at a fixed rate of 4.077% per annum, and JPMCB is obligated to make floating rate payments to the District calculated on a notional amount this is equal to the scheduled outstanding principal amount of the Series 2006-B Bonds at a rate equal to equal to 62.5% of the 10-year constant maturity swap rate (a reported market fixed rate at which 10-year interest rate swaps for a one-month U.S. dollar LIBOR rate are entered into from time to time). The Series 2006-B Bonds and the 2006 Swap Agreement have a stated final maturity date of August 1, 2035.

As of June 30, 2020, the debt service requirements of the Series 2006-B Bonds were as follows. As interest rates change in the future, the differences between the floating rates payable to the District under the 2006 Swap Agreement and the actual interest rates payable by the District on the Series 2006-B Bonds will vary.

Year Ended June 30	Principal	Interest	Total Requirements
2021	\$ -	\$ 1,571,100	\$ 1,571,100
2022	-	1,571,100	1,571,100
2023	-	1,571,100	1,571,100
2024	860,000	1,548,581	2,408,581
2025	955,000	1,501,055	2,456,055
2026-2030	5,430,000	6,692,624	12,122,624
2031-2035	13,815,000	4,925,791	18,740,791
2036	<u>8,940,000</u>	<u>234,093</u>	<u>9,174,093</u>
Totals	<u>\$ 30,000,000</u>	<u>\$ 19,615,444</u>	<u>\$ 49,615,444</u>

Note: Interest was calculated at a rate, representing the sum of: (a) the actual fixed payment swap rate of 4.077% pursuant to the 2006 Swap Agreement; (b) the estimated cost of the liquidity facility for the Series 2006-B Bonds (0.250%); (c) the estimated cost of remarketing the Series 2006-B Bonds (0.060%); and (d) 0.700% per year to offset the potential differences between the floating rates payable to the District under the 2006 Swap Agreement and the actual interest rates payable by the District on the Series 2006-B Bonds.

*Other Information Common To Both The 2005 And 2006 Swap Agreements*

Arrangements made in respect of the 2005 Swap Agreements and 2006 Swap Agreement (collectively, the "Swap Agreements") do not alter the District's obligation to pay principal of and interest on the Series 2005-A Bonds and Series 2006-B Bonds. The Swap Agreements do not provide a source of security or other credit for the Series 2005-A Bonds and Series 2006-B Bonds. The District's obligations under the Swap Agreements are secured by a levy of an annual ad valorem tax on parity with the District's obligation to pay principal and interest on the Series 2005-A Bonds and Series 2006-B Bonds.

As of June 30, 2020, the District was not exposed to credit risk with JPMCB and UBS on the 2005 Swap Agreements as such agreements had a negative fair value of \$10,250,251. The District was not exposed to credit risk with JPMCB on the 2006 Swap Agreement as such agreement had a negative fair value of \$12,113,463. Collectively, as of June 30, 2020, the Swap Agreements had a net negative fair value of \$22,363,714.

As of June 30, 2020, JPMCB was rated "Aa2," "A+" and "AA" by Moody's Investors Service ("Moody's"), Standard & Poor's ("S&P") and Fitch Ratings ("Fitch"), respectively, while UBS was rated "Aa3," "A+" and "AA-" by Moody's, S&P and Fitch, respectively.

**DENTON INDEPENDENT SCHOOL DISTRICT  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2020**

The Swap Agreements are subject to mandatory redemption in the event of default or as follows:

2005 and 2006 Swap Agreement with JPMCB: If the ratings assigned to the District's unenhanced long-term debt obligations are withdrawn or reduced to "BBB" by S&P, "BBB" by Fitch or "Ba1" by Moody's (if Moody's, S&P and Fitch assign ratings to the District's unenhanced long-term debt obligations) or "BBB+" by S&P or Fitch (if Moody's does not assign ratings to the District's unenhanced long-term debt obligations), or if the ratings assigned to JPMCB's unenhanced long-term debt obligations are withdrawn or reduced to "BBB" by S&P or "Baa2" by Moody's.

2005 Swap Agreement with UBS: If the ratings assigned to either the District's or UBS's unenhanced long-term debt obligations are withdrawn or reduced to "BBB+" by S&P or "BBB+" by Fitch.

The Swap Agreements are also subject to optional termination by the District at any time over the term of the Swap Agreements at the then prevailing market value. JPMCB and UBS do not have the elective right to optionally terminate the Swap Agreements.

**NOTE 6. DEBT SERVICE REQUIREMENTS - BONDS**

Debt service requirements to maturity are as follows (excluding maturities on the 2005-A issue and 2006-B issue, which are reflected in Note 5 above):

<u>Year Ended June 30</u>	<u>Principal</u>	<u>Interest</u>	<u>Total Requirements</u>
2021	\$ 29,628,016	\$ 51,163,239	\$ 90,511,255
2022	24,962,371	46,720,950	71,683,321
2023	19,228,434	56,124,388	75,352,822
2024	16,908,618	55,453,828	72,362,446
2025	21,094,177	55,328,444	76,422,621
2026-2030	174,542,488	206,919,421	381,461,909
2031-2035	199,340,000	153,952,802	353,292,802
2036-2040	219,390,000	107,283,975	326,673,975
2041-2045	191,740,000	57,320,913	249,060,913
2046-2049	<u>156,355,000</u>	<u>14,591,375</u>	<u>170,946,375</u>
	<u>\$1,053,189,104</u>	<u>\$804,859,335</u>	<u>\$1,867,768,439</u>

**NOTE 7. DEFEASED BONDS OUTSTANDING**

In prior years, the District issued refunding bonds to defease certain outstanding bonds for the purpose of consolidation and to achieve debt service savings. Accordingly, the trust account assets and liabilities for the defeased bonds are not included in the District's financial statements. Although defeased, the refunded debt from those earlier issues will not be actually retired until the call dates have come due or until maturity if they are not callable issues. On June 30, 2020, \$164,290,000 of bonds outstanding are considered defeased.

**NOTE 8. SPECIAL TERMINATION BENEFITS**

During the year ended August 31, 1997, the District adopted a Voluntary Exit Program for the purpose of rewarding eligible employees with compensation upon their voluntary leave from employment with the District, without regard to having reached the retirement provisions of the Teacher Retirement System of Texas.

DENTON INDEPENDENT SCHOOL DISTRICT  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2020

From 1997 through 2001, any employee with a minimum of 25 years experience, at least 15 years of which had been with the District and at least the immediately preceding 5 years, was eligible to receive upon voluntary leave from employment a percentage of the employee's base salary, ranging from 50% to 100%, payable annually over a four-year period. During the year ended August 31, 2000, the District approved guidelines to phase out the program.

From 1999 through 2017, 119 employees elected participation in the program. The District's liability for these special termination benefits was considered a long-term liability and recorded in the Statement of Net Position at the present value of all future periodic payments to be made.

The final payments under this program were made during the fiscal year ended June 30, 2020.

**NOTE 9. ACCUMULATED UNPAID VACATION AND SICK LEAVE BENEFITS**

On resignation, retirement or death of certain employees, the District pays any accrued, unused vacation leave in a lump cash payment to such employee or his/her estate. The District's liability is considered a long-term liability and is recorded in the Statement of Net Position as a long-term debt payable.

A summary of changes in the accumulated vacation leave liability is as follows:

Balance, July 1, 2019	\$ 841,422
Additions – New Entrants and	
Salary Increments	352,538
Deductions – Payments to Participants	<u>(135,580)</u>
Balance, June 30, 2020	<u>\$1,058,380</u>

On retirement of an employee, the District pays to the employee lump cash payment equal to one-tenth of the employee's annual salary, if the employee has accumulated a minimum amount of unused sick leave. It is impractical to estimate the amount of future liability because of uncertainty of the number of such employees who will remain with the District until retirement. Accordingly, no liability has been recorded in the accompanying financial statements. The District's policy is to recognize the cost of compensated absences when actually paid to employees.

**NOTE 10. PROPERTY TAXES**

The Texas Legislature in 1979 adopted a comprehensive Property Tax Code which established an appraisal district and an appraisal review board in each county in the State of Texas. Denton Central Appraisal District (DCAD) is responsible for the appraisal of property for all taxing units in Denton County, including the District. Under the terms of a contract for appraisal services, the District paid DCAD \$1,706,090 in fiscal year 2020 for appraising property.

Property taxes are considered available when collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. The District levies its taxes on October 1 on the assessed (appraised) value listed as of the prior January 1 for all real and business personal property located in the District in conformity with Subtitle E, Texas Property Tax Code. Taxes are due upon receipt of the tax bill and are past due and subject to interest if not paid by February 1 of the year following the October 1 levy date. The assessed value of the property tax roll upon which the levy for the 2019-20 fiscal year was based was \$19,914,985,782. Taxes are delinquent if not paid by June 30. Delinquent taxes are subject to both penalty and interest charges plus 15 % delinquent collection fees for attorney costs.

The tax rates assessed for the year ended June 30, 2020, to finance General Fund operations and the payment of principal and interest on general obligation long-term debt were \$0.99 and \$0.48 per \$100 valuation, respectively, for a total of \$1.47 per \$ 100 valuation.

DENTON INDEPENDENT SCHOOL DISTRICT  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2020

Current tax collections for the year ended June 30, 2020 were 99.16% of the year-end adjusted tax levy. Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectible taxes within the General and Debt Service Funds are based on historical experience in collecting taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature. As of June 30, 2020, property taxes receivable, net of estimated uncollectible taxes, totaled \$3,509,439 and \$1,644,054 for the General and Debt Service Funds, respectively.

Property taxes are recorded as receivables and deferred inflows of resources at the time the taxes are assessed. Revenues are recognized as the related ad valorem taxes are collected. Additional amounts estimated to be collectible in time to be a resource for payment of obligations incurred during the fiscal year and therefore susceptible to accrual in accordance with Generally Accepted Accounting Principles have been recognized as revenue.

**NOTE 11. DEFINED BENEFIT PENSION PLAN**

**Plan Description.** Denton Independent School District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). TRS's defined benefit pension plan is established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

**Pension Plan Fiduciary Net Position.** Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at <https://trs.texas.gov/trs%20Documents/cafr2019.pdf>, selecting *About TRS* then *Publications* then *Financial Reports* or by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698.

**Benefits Provided.** TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description above.

Texas Government Code section 821.006 prohibits benefit improvements, if, as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

DENTON INDEPENDENT SCHOOL DISTRICT  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2020

In May, 2019, the 86<sup>th</sup> Texas Legislature approved the TRS Pension Reform Bill (Senate Bill 12) that provides for gradual contribution increases from the state, participating employers and active employees to make the pension fund actuarially sound. This action causing the pension fund to be actuarially sound, allowed the legislature to approve funding for a 13<sup>th</sup> check in September 2019. All eligible members retired as of December 31, 2018 received an extra annuity check in either the matching amount of their monthly annuity or \$2,000, whichever was less.

**Contributions.** Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year.

Employee contribution rates are set in state statute, Texas Government Code 825.402. The TRS Pension Reform Bill (Senate Bill 12) of the 86<sup>th</sup> Texas Legislature amended Texas Government Code 825.402 for member contributions and increased employee and employer contribution rates for fiscal years 2020 thru 2025.

	<u><b>Contribution Rates</b></u>	
	<u><b>2019</b></u>	<u><b>2020</b></u>
Member	7.7%	7.7%
Non-Employer Contributing Entity (State)	6.8%	6.8%
Employers	6.8%	6.8%
Denton ISD FY2020 Employer Contributions	\$ 7,320,420	
Denton ISD FY2020 Member Contributions	\$ 17,221,076	
Denton ISD FY2020 NECE On-Behalf Contributions	\$ 9,654,119	

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including the TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers including public schools are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding source or a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public school, the employer shall contribute 1.5% of covered payroll to the pension fund beginning in fiscal year 2020. The contribution rate called the Public Education Employer Contribution will replace the Non (OASDI) surcharge that was in effect in fiscal year 2019.

DENTON INDEPENDENT SCHOOL DISTRICT  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2020

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to.

- When employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.
- When a school district does not contribute to the Federal Old-Age, Survivors and Disability Insurance (OASDI) Program for certain employees, they must contribute 1.5% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees. This surcharge was in effect through fiscal year 2019 and was replaced with the Public Education Employer Contribution explained above.

**Actuarial Assumptions.** The total pension liability in the August 31, 2019 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date	August 31, 2018 rolled forward to August 31, 2019
Actuarial Cost Method	Individual Entry Age Normal
Asset Valuation Method	Market Value
Single Discount Rate	7.25%
Long-term expected Investment Rate of Return	7.25%
Municipal Bond Rate as of August 2019	2.63%
Inflation	2.30%
Salary Increases Including Inflation	3.05% to 9.05%
Benefit Changes During the Year	None
Ad hoc Post Employment Benefit Changes	None

The actuarial methods and assumptions are used in the determination of the total pension liability are the same assumptions used in the actuarial valuation as of August 31, 2018. For a full description of these assumptions please see the actuarial valuation report dated November 9, 2018.

**Discount Rate.** A single discount rate of 7.25 percent was used to measure the total pension liability. The single discount rate was based on the expected rate of return on plan investments of 7.25 percent. The projection of cash flows used to determine this single discount rate assumed that contributions from active members, employers and the non-employer contributing entity will be made at the rates set by the legislature during the 2019 session. It is assumed that future employer and state contributions will be 8.50 percent of payroll in fiscal year 2020 gradually increasing to 9.55 percent of payroll over the next several years. This includes all employer and state contributions for active and rehired retirees.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term rate of return on pension plan investments is 7.25%.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2019 are summarized below:

DENTON INDEPENDENT SCHOOL DISTRICT  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2020

Asset Class	FY2019 Target Allocation <sup>1</sup>	New Target Allocation <sup>2</sup>	Long-Term Expected Geometric Real Rate of Return <sup>3</sup>
<b>Global Equity</b>			
U.S.	18%	18%	6.4%
Non-U.S. Developed	13%	13%	6.3%
Emerging Markets	9%	9%	7.3%

<b>Total</b>	<u>100%</u>	<u>100%</u>	<u>7.23%</u>

**Discount Rate Sensitivity Analysis.** The following schedule shows the impact of the Net Pension Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (7.25%) in measuring the Net Pension Liability.

	1% Decrease in Discount Rate (6.25%)	Discount Rate (7.25%)	1% Increase in Discount Rate (8.25%)
Denton ISD's proportionate share of the net pension liability:	\$149,785,788	\$97,444,139	\$55,037,290

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions.** At June 30, 2020, Denton Independent School District reported a liability of \$97,444,139 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to Denton Independent School District. The amount recognized by Denton Independent School District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with Denton Independent School District were as follows:

District's Proportionate share of the collective net pension liability	\$ 97,444,139
State's proportionate share that is associated with the District	<u>143,387,199</u>
Total	<u>\$240,831,338</u>

Pension liabilities have typically been liquidated with general fund revenues in prior years.

<sup>1</sup> Target allocations are based on the Strategic Asset Allocation as of FY2019

<sup>2</sup> New allocations are based on the Strategic Asset Allocation to be implemented FY2020

<sup>3</sup> 10-Year annualized geometric nominal returns include the real rate of return and inflation of 2.1%

<sup>4</sup> New Target Allocation groups Government Bonds within the stable value allocation. This includes global sovereign nominal and inflation-linked bonds

<sup>5</sup> 5.8% (6.5%) return expectation corresponds to Risk Parity with a 10% (12%) target volatility

DENTON INDEPENDENT SCHOOL DISTRICT  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2020

The net pension liability was measured as of August 31, 2018 and rolled forward to August 31, 2019 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2018 thru August 31, 2019.

At August 31, 2019 the employer's proportion of the collective net pension liability was 0.1874534022%, an increase of 0.54% from its proportionate share of 0.1864531229% at August 31, 2018.

**Changes Since the Prior Actuarial Valuation** – The following were changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period.

- The single discount rate as of August 31, 2018 was a blended rate of 6.907 percent and that has changed to the long-term rate of return of 7.25 percent as of August 31, 2019.
- With the enactment of SB 3 by the 2019 Texas Legislature, an assumption has been made about how this would impact future salaries. It is assumed that eligible active members will each receive a \$2,700 increase in fiscal year 2020. This is in addition to the salary increase expected in the actuarial assumptions.
- The Texas Legislature approved funding for a 13<sup>th</sup> check. All eligible members retired as of December 31, 2018 will receive an extra annuity check in September 2019 in either the matching amount of their monthly annuity payment or \$2,000, whichever is less.

For the year ended June 30, 2020, Denton Independent School District recognized pension expense of \$22,524,109 and revenue of \$22,524,109 for support provided by the State.

At June 30, 2020, Denton Independent School District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources (The amounts shown below will be the cumulative layers from the current and prior years combined.):

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 409,353	\$ 3,383,415
Changes in actuarial assumptions	30,231,957	12,493,275
Difference between projected and actual investment earnings	978,451	-
Changes in proportion and difference between the employer's contributions and the proportionate share of contributions	8,950,105	1,278
Contributions paid to TRS subsequent to the measurement date	6,279,113	-
Total	\$46,848,979	\$15,877,968

The net amounts of the District's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	Pension Expense Amount
2021	\$ 6,299,378
2022	5,187,819
2023	6,379,499
2024	5,763,983
2025	1,937,110
Thereafter	(875,891)

DENTON INDEPENDENT SCHOOL DISTRICT  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2020

**NOTE 12. DEFINED OTHER POST-EMPLOYMENT BENEFIT PLANS**

**Plan Description.** The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS- Care). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan that has a special funding situation. The plan is administered through a trust by the Teacher Retirement System of Texas (TRS) Board of Trustees. It is established and administered in accordance with the Texas Insurance Code, Chapter 1575.

**OPEB Plan Fiduciary Net Position.** Detail information about the TRS-Care's fiduciary net position is available in the separately-issued TRS Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at <http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR>; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

**Benefits Provided.** TRS-Care provides health insurance coverage to retirees from public schools, charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high-deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. There are no automatic post-employment benefit changes; including automatic COLAs.

The premium rates for retirees are reflected in the following table:

<b>TRS-Care Monthly for Retirees</b>		
	<b><u>Medicare</u></b>	<b><u>Non-Medicare</u></b>
Retiree*	\$ 135	\$ 200
Retiree and Spouse	529	689
Retiree* and Children	468	408
Retiree and Family	1,020	999

\* or surviving spouse

**Contributions.** Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the state's contribution rate which is 1.25% of the employee's salary. Section 1575.203 establishes the active employee's rate which is .65% of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25 percent or not more than 0.75 percent of the salary of each active employee of the public. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act. The following table shows contributions to the TRS-Care plan by type of contributor.

DENTON INDEPENDENT SCHOOL DISTRICT  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2020

	<u>Contribution Rates</u>	
	<u>2019</u>	<u>2020</u>
Active Employee	0.65%	0.65%
Non-Employer Contributing Entity (State)	1.25%	1.25%
Employers	0.75%	0.75%
Federal/private Funding remitted by Employers	1.25%	1.25%
 Denton ISD FY20 Employer Contributions		\$1,813,010
Denton ISD FY20 Member Contributions		\$1,453,726
Denton ISD FY20 NECE On-behalf Contributions		\$2,249,249

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to, regardless of whether or not they participate in the TRS Care OPEB program. When hiring a TRS retiree, employers are required to pay to TRS Care, a monthly surcharge of \$535 per retiree.

TRS-Care received supplemental appropriations from the State of Texas as the Non-Employer Contributing Entity in the amount of \$73.6 million in fiscal year 2019.

**Actuarial Assumptions.** The total OPEB liability in the August 31, 2018 was rolled forward to August 31, 2019. The actuarial valuation was determined using the following actuarial assumptions.

Rates of Mortality	General Inflation
Rates of Retirement	Wage Inflation
Rates of Termination	Expected Payroll Growth
Rates of Disability	

**Additional Actuarial Methods and Assumptions:**

Valuation Date	August 31, 2018 rolled forward to August 31, 2019
Actuarial Cost Method	Individual Entry Age Normal
Inflation	2.30%
Single Discount Rate	2.63%
Aging Factors	Based on specific plan experience
Expenses	Third-party administrative expenses related to the delivery of health care benefits are included in the age-adjusted claim costs
Projected Salary Increases	3.05% to 9.05%, including inflation
Election Rates	Normal Retirement: 65% participation prior to age 65 and 50% participation after age 65
Ad hoc post-employment benefit changes	None

The impact of the Cadillac Tax that is returning in fiscal year 2023, has been calculated as a portion of the trend assumption. Assumptions and methods used to determine the impact of the Cadillac Tax include:

- 2018 thresholds of \$850/\$2,292 were indexed annually by 2.30 percent.
- Premium data submitted was not adjusted for permissible exclusions to the Cadillac Tax.

DENTON INDEPENDENT SCHOOL DISTRICT  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2020

- There were no special adjustments to the dollar limit other than those permissible for non-Medicare retirees over 55.

Results indicate that the value of the excise tax would be reasonably represented by a 25 basis point addition to the long-term trend rate assumption.

**Discount Rate.** A single discount rate of 2.63% was used to measure the total OPEB liability. There was a decrease of 1.06 percent in the discount rate since the previous year. Because the plan is essentially a “pay-as-you-go” plan, the single discount rate is equal to the prevailing municipal bond rate. The projection of cash flows used to determine the discount rate assumed that contributions from active members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the OPEB plan’s fiduciary net position was projected to not be able to make all future benefit payments of current plan members. Therefore, the municipal bond rate was applied to all periods of projected benefit payments to determine the total OPEB liability.

**Discount Rate Sensitivity Analysis.** The following schedule shows the impact of the Net OPEB Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (2.63%) in measuring the Net OPEB Liability.

	1% Decrease in Discount Rate (1.63%)	Current Single Discount Rate (2.63%)	1% Increase in Discount Rate (3.63%)
District’s proportionate share of the Net OPEB Liability:	\$136,183,990	\$112,798,512	\$94,504,009

**Healthcare Cost Trend Rates Sensitivity Analysis -** The following presents the net OPEB liability of the plan using the assumed healthcare cost trend rate, as well as what the OPEB liability would be if it were calculated using a trend rate that is one-percentage lower or one-percentage point higher than the assumed healthcare cost trend rate of 8.5%.

	1% Decrease (7.5%)	Current Healthcare Cost Trend Rate (8.5%)	1% Increase (9.5%)
District’s proportionate share of the Net OPEB Liability:	\$92,017,077	\$112,798,512	\$140,636,109

**OPEB Liabilities, OPEB Expenses, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs.** At June 30, 2020, the District reported a liability of \$112,798,512 for its proportionate share of the TRS’s Net OPEB Liability. This liability reflects a reduction for State OPEB support provided to the District.

The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District’s Proportionate share of the collective Net OPEB Liability	\$112,798,512
State’s proportionate share that is associated with the District	<u>149,883,993</u>
Total	<u>\$262,682,505</u>

OPEB liabilities have typically been liquidated with general fund revenues in prior years.

DENTON INDEPENDENT SCHOOL DISTRICT  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2020

The Net OPEB Liability was measured as of August 31, 2018 and rolled forward to August 31, 2019 and the Total OPEB Liability used to calculate the Net OPEB Liability was determined by an actuarial valuation as of that date. The employer's proportion of the Net OPEB Liability was based on the employer's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2018 thru August 31, 2019.

At August 31, 2019 the employer's proportion of the collective Net OPEB Liability was 0.2385189074%, an increase of 0.35% compared to the August 31, 2018 proportionate share of 0.2376840183%.

**Changes Since the Prior Actuarial Valuation** – The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB liability since the prior measurement period:

- The discount rate changed from 3.69 percent as of August 31, 2018 to 2.63 percent as of August 31, 2019. This change increased the TOL.
- The health care trend rates were reset to better reflect the plan's anticipated experience. This change increased the TOL.
- The participation rate for pre-65 retirees was lowered from 70 percent to 65 percent. The participation rate for post-65 retirees was lowered from 75 percent to 50 percent. 25 percent of the pre-65 retirees are assumed to discontinue their coverage at age 65. There was no lapse assumption in the prior valuation. These changes decreased the TOL.
- The percentage of retirees who are assumed to have two-person coverage was lowered from 20 percent to 15 percent. In addition, the participation assumption for the surviving spouses of employees that die while activity employed was lowered from 20 percent to 10 percent. These changes decreased the TOL.
- Change of Benefit Terms Since the Prior Measurement Date – There were no changes in benefit terms since the prior measurement date.

For the year ended June 30, 2020, the District recognized OPEB expense of \$3,950,327 and revenue of \$3,950,327 for support provided by the State.

At June 30, 2020, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to other post-employment benefits from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 5,533,726	\$18,458,280
Changes in actuarial assumptions	6,265,078	30,340,032
Difference between projected and actual investment earnings	12,169	-
Changes in proportion and difference between the employer's contributions and the proportionate share of contributions	9,151,314	-
Contributions paid to TRS subsequent to the measurement date	1,539,800	-
Total	\$22,502,087	\$48,798,312

The net amounts of the employer's balance of deferred outflows and inflows of resources (not including the deferred contribution paid subsequent to the measurement date) related to OPEB will be recognized in OPEB expense as follows:

DENTON INDEPENDENT SCHOOL DISTRICT  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2020

Year ended June 30:	OPEB Expense Amount
2021	\$ (4,931,715)
2022	(4,931,715)
2023	(4,935,654)
2024	(4,937,907)
2025	(4,937,290)
Thereafter	(3,161,744)

**NOTE 13. MEDICARE PART D**

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003, which was effective January 1, 2006, established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare D allows for the Texas Public School Retired Employee Group Insurance Program (TRS-Care) to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. These on-behalf payments are recognized as equal revenues and expenditures/expenses by the District. For the year ended June 30, 2020, the contribution made on behalf of the District was \$941,953.

**NOTE 14. INTERFUND BALANCES AND TRANSFERS**

General Fund	536,407	1,280,472
Enterprise Fund:		
General Fund	31,796	5,199
<b>TOTAL</b>	<b><u>\$1,853,874</u></b>	<b><u>\$1,853,874</u></b>

DENTON INDEPENDENT SCHOOL DISTRICT  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2020

Virtually all of the above interfund balances are short-term loans due to the fact that checking account balances for most governmental funds are pooled into one demand account. There are no interfund balances that are not expected to be repaid within one year.

Interfunds transfers for the year ended June 30, 2020 consisted of the following individual amounts:

<u>Fund</u>	<u>Transfers to Other Funds</u>	<u>Transfers from Other Funds</u>
General Fund:		
Capital Projects Fund	\$ 344,931	\$ -
Special Revenue Fund	3,120,995	2,504
Internal Service Fund	41,725	1,502,393
Capital Projects Fund:		
General Fund	-	344,931
Special Revenue Fund:		
General Fund	2,504	3,120,995
Internal Service Fund:		
General Fund	<u>1,502,393</u>	<u>41,725</u>
TOTAL	<u>\$5,012,548</u>	<u>\$5,012,548</u>

The purpose of the \$344,931 transfer was to transfer local funds from the general fund to the capital projects fund to set them aside for future capital replacements needs. The purpose of the \$2,504 transfer is to transfer a portion of the aquatic program loss to the campus activity fund. The purpose of the \$1,502,393 transfer is to transfer excess funds from the healthcare internal service fund and workers compensation internal service fund to the general fund for use in operations. The \$3,120,995 transfer consists of \$1,448,079 transferred from the general fund to the Local Grants special revenue fund to begin accounting for local grants in that fund, and \$1,672,916 transferred from the general fund to the COVID-19 Local Activity special revenue fund to set aside funds for paying local COVID-19 expenditures. The purpose of the \$41,725 transfer from the general fund to the Print Shop internal service fund was to transfer funds to cover the net position deficit in that fund.

**NOTE 15. HEALTH CARE**

For many years the District sponsored a modified self-insurance plan to provide health care benefits to staff members and their dependents. Transactions related to the plan were accounted for in the Health Insurance Fund, an internal service fund of the District.

Effective January 1, 2012, the District changed to the State-sponsored TRS Active-Care health insurance plan. During the year ended June 30, 2020, the District contributed \$260 monthly to the TRS Active Care plan. Employees, at their option, authorized payroll withholdings to pay any additional contribution and contributions for dependents.

DENTON INDEPENDENT SCHOOL DISTRICT

**NOTE 17. SELF-INSURED WORKERS' COMPENSATION**

During the year ended August 31, 1992, the District established a workers compensation self-insurance fund for District employees to minimize the total cost of workers compensation to the District. All premiums were paid to a third party administrator acting on behalf of a self-funded pool. Like the health care self-insurance fund, the District has retained the risk of loss, and thus uses an Internal Service Fund to account for the activity. The District records activities of the plan in accordance with governmental accounting standards. These costs are reported as interfund services provided and used to the extent of amounts actuarially determined. Accordingly, they are treated as operating revenues of the Internal Service Fund and operating expenditures of the General Fund. Additional payments, if any, to the self-insurance funds are treated as an equity transfer. Advanced Risk Management Techniques, Inc., through an actuarial review of the self-insurance program, projected an estimated outstanding loss of \$997,051 as of June 30, 2020. Claims administration is provided by TASB.

DENTON INDEPENDENT SCHOOL DISTRICT  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2020

This estimated outstanding loss is the actuarially-estimated cost of unpaid claims, including case reserves, the development of known claims, incurred but not reported claims, and allocated loss adjustment expenses. It represents the discounted present value of estimated future cash payments, less anticipated investment income, required to meet unpaid claims. It was calculated based on a 5% yield on investments.

The accrued liability for Workers' Compensation self-insurance of \$997,051 includes incurred but not reported claims. This liability reported in the fund at June 30, 2020, is based on the requirements of Governmental Accounting Standards Board Statement No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is a probable that a liability has been incurred as of the date of the financial statements, and the amount of loss can be reasonably estimated. Because actual claim liabilities depend on such complex factors as inflation, changes in legal doctrines, and damage awards, the process used in computing the liability does not result necessarily in an exact amount. The liability booked was the present value of the estimate of the actuary. Aggregate stop-loss coverage for 2020 was \$500,000.

Changes in the workers' compensation claims liability amounts in fiscal 2019 and 2020 are represented below:

	Year Ended June 30, 2019	Year Ended June 30, 2020
Unpaid claims, beginning of year	\$1,090,789	\$ 951,944
Incurred claims (including IBNR'S)	603,766	488,920
Claim payments	<u>742,611</u>	<u>443,813</u>
Unpaid claims, end of fiscal year	<u>\$ 951,944</u>	<u>\$ 997,051</u>

The amount of claims and judgements due within one year is estimated to be \$600,000.

**NOTE 18. DUE FROM OTHER GOVERNMENTS**

The District participates in a variety of federal and state programs from which it receives grants to partially or fully finance certain activities. In addition, the District receives entitlements from the State through the School Foundation and Per Capita Programs. Amounts due from federal and state governments as of June 30, 2020, are summarized below. All federal grants shown below are passed through the TEA and are reported on the combined financial statements as Due from Other Governments.

Fund	State Grants & Entitlements	Federal Grants	Local Governments	Total
General	\$12,063,377	\$ -	\$46,133	\$12,109,510
Special Revenue	<u>221,393</u>	<u>2,202,090</u>	<u>-</u>	<u>2,423,483</u>
Total	<u>\$12,284,770</u>	<u>\$2,202,090</u>	<u>\$46,133</u>	<u>\$14,532,993</u>

**NOTE 19. CONTINGENT LIABILITIES**

The Tax Reform Act of 1986 imposed regulations on tax-exempt bond issues. Governmental bonds issued after August 31, 1986 are subject to the rebate provisions of the Tax Reform Act of 1986. The rebate applies to earnings from bond issue proceeds investments which exceed bond issue stated interest rates. The exact amount of liability, if any, is not known until as long as five years from the bond issuance date. At June 30, 2020, the estimated rebate liability on outstanding bond series was \$41,909.

DENTON INDEPENDENT SCHOOL DISTRICT  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2020

**NOTE 20. LITIGATION AND CONTINGENCIES**

The District is a party to various legal actions none of which is believed by administration to have a material effect on the financial condition of the District. Accordingly, no provision for losses has been recorded in the accompanying combined financial statements for such contingencies.

Minimum foundation funding received from the Agency is based primarily upon information concerning average daily attendance at the District's schools which is compiled by the District and supplied to the Agency. Federal funding for Food Services under child nutrition programs is based primarily upon the number and type of meals served and on user charges as reported to the USDA. Federal and state funding received related to various grant programs are based upon periodic reports detailing reimbursable expenditures made in compliance with program guidelines to the grantor agencies.

The programs are governed by various statutory rules and regulations of the grantors. Amounts received and receivable under these various funding programs are subject to periodic audit and adjustment by the funding agencies. To the extent, if any, that the District has not complied with all the rules and regulations with respect to performance, financial or otherwise, adjustment to or return of funding monies may be required. In the opinion of the District's administration, there are no significant contingent liabilities relating to matters of compliance and, accordingly, no provision has been made in the accompanying financial statements for such contingencies.

The Denton Central Appraisal District is a defendant in various lawsuits involving the property values assigned to property located within the District's boundaries on which the District assesses property taxes. The District could be required to refund property taxes paid on values which were greater than the ultimate final assessed valuation assigned by the court. Such lawsuits could continue several years into the future.

**NOTE 21. REVENUES FROM LOCAL AND INTERMEDIATE SOURCES**

During the current year, revenues from local and intermediate sources consisted of the following:

	General Fund	Special Revenue Fund	Debt Service Fund	Capital Projects Fund	Total
Property Taxes	\$197,223,643	\$ -	\$95,596,809	\$ -	\$292,820,452

Junior ROTC	12.000	293,237	293,237
Indirect Costs	N/A	<u>828,106</u>	<u>828,106</u>
Total for General Fund		<u>\$5,255,575</u>	<u>\$5,255,575</u>

**NOTE 24. EXCESS OF EXPENDITURES OVER APPROPRIATIONS BY FUNCTION**

The Texas Education Agency requires the budgets for the Governmental fund types to be filed with the Texas Education Agency. The budget should not be exceeded in any functional category under TEA requirements. Expenditures exceeded appropriations in no functional categories for the year ended June 30, 2020.

**NOTE 25. SHARED SERVICE ARRANGEMENTS**

The District is the fiscal agent for a Shared Services Arrangement (“SSA”) which provides a regional day school for the deaf to various member districts. All services are provided by the fiscal agent. The member districts and the State provide the funds to the fiscal agent. According to guidance provided in TEA’s Resource Guide, the District has accounted for the fiscal agent’s activities of the SSA in Special Revenue Funds No. 315, 316, 317, 340, 435 and 446 and such activities have been accounted for using Model 3 in the SSA section of the Resource Guide.

In a manner similar to that described above, the District is also the fiscal agent for an adult education SSA accounted for in Special Revenue Fund No. 309, a vocational education SSA accounted for in Special Revenue Fund No. 331, and a TANF SSA accounted for in Special Revenue Fund No. 312.

DENTON INDEPENDENT SCHOOL DISTRICT  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2020

The District participates in a shared services arrangement for juvenile justice alternative education services with ten other school districts. Although the District contributes to the shared services arrangement based on its participation, the District does not account for revenues or expenditures in this program and does not disclose them in these financial statements. The District neither has a joint ownership interest in fixed assets purchased by the fiscal agent, nor does the District have a net equity interest in the fiscal agent. The fiscal agent is neither accumulating significant resources nor fiscal exigencies that would give rise to a future additional benefit or burden to Denton ISD. The fiscal agent manager is responsible for all financial activities of the shared services arrangement. During the year ended June 30, 2020, the District had no students in the program for whom it was required to make contributions.

**NOTE 26. SUBSEQUENT EVENT**

On August 15, 2020 the District sold \$278,025,000 Series 2020 unlimited tax school building bonds, to provide funds for ongoing and future construction and renovation projects.

**NOTE 27. RISKS AND UNCERTAINTIES**

The outbreak of COVID-19, a respiratory disease caused by a new strain of coronavirus, has been characterized as a pandemic (the “Pandemic”) by the World Health Organization and is currently affecting many parts of the world, including the United States and the State of Texas. On January 31, 2020, the Secretary of the United States Health and Human Services Department declared a public health emergency for the United States and on March 13, 2020, the President of the United States declared the outbreak of COVID-19 in the United States a national emergency. Subsequently, the President’s Coronavirus Guidelines for America and the United States Centers for Disease Control and Prevention called upon Americans to take actions to slow the spread of COVID-19 in the United States.

On March 13, 2020, the Governor of Texas (the “Governor”) declared a state of disaster for all counties in the State in response to the Pandemic, which disaster declaration he has subsequently extended. Pursuant to Chapter 418 of the Texas Government Code, the Governor has broad authority to respond to disasters, including suspending any regulatory statute prescribing the procedures for conducting State business or any order or rule of a State agency that would in any way prevent, hinder, or delay necessary action in coping with the disaster, and issuing executive orders that have the force and effect of law. The Governor has issued a series of executive orders relating to COVID-19 preparedness and mitigation. Under Executive Order GA-26, public schools, which ceased in-person instruction from the middle of March to the end of May and transitioned totally to remote instruction, resumed operations in the summer under protocols outlined in guidance from the TEA.

TEA has informed Texas school districts that COVID-19 related school closings and/or absenteeism will not impact ADA calculations and school funding so long as a school district commits to support students instructionally while they are at home. The District has developed remote instructional resources for its students and has begun delivering remote instruction in conjunction with in-person instruction. Therefore, the District does not anticipate a reduction in State funding as a result of the school closures at this time.

The District continues to monitor the spread of COVID-19 and is working with local, State and national agencies to address the potential impact of the Pandemic upon the District. While the potential impact of the Pandemic on the District cannot be quantified at this time, the continued outbreak of COVID-19 could have an adverse effect on the District’s operations and financial condition.

The Pandemic has negatively affected travel, commerce, and financial markets globally, and is widely expected to continue negatively affecting economic growth and financial markets worldwide. These negative impacts may reduce or negatively affect property values within the District. The District’s bonded debt is secured by an unlimited ad valorem tax, and a reduction in property values may require an increase in the ad valorem tax rate required to pay the bonds as well as the District’s share of operations and maintenance expenses payable from ad valorem taxes.

DENTON INDEPENDENT SCHOOL DISTRICT  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2020

**NOTE 28. EXPENDITURES BY CHARACTER**

Section 21.256, Texas Education Code, requires an annual audit and authorizes the State Board of Education, with the approval of the State Auditor, to prescribe minimum regulations and report forms for the annual audit. The Financial Accounting System Resource Guide of the Texas Education Agency prescribes the forms and formats to be filed with the Texas Education Agency. The prescribed format of the Combined Statement of Revenues, Expenditures and Changes in Fund Balances - All Governmental Fund Types and Expendable Trust Funds, requires expenditures to be classified by function, meaning capital outlay directly associated with a particular function is charged to that function.

Expenditures by fund and character are as follows:

	<u>Governmental Fund Types</u>				Total (Memorandum Only)
	<u>General Fund</u>	<u>Special Revenue Fund</u>	<u>Debt Service Fund</u>	<u>Capital Projects Fund</u>	
Current	\$291,999,993	\$22,524,249	\$ -	\$ -	\$314,524,242
Capital Outlay	1,528,102	-	-	124,435,756	125,963,858
Debt Service:					
Principal	-	-	102,995,000	-	102,995,000
Interest and Fiscal Charges	-	-	51,530,839	-	51,530,839
Total Expenditures	<u>\$293,528,095</u>	<u>\$22,524,249</u>	<u>\$154,525,839</u>	<u>\$124,435,756</u>	<u>\$595,013,939</u>

**NOTE 29. PROPRIETARY FUND NONCASH ACTIVITIES**

The following noncash investing or financing activity occurred in the National Breakfast and Lunch Program enterprise fund during the year ended June 30, 2020:

Receipt and use of donated USDA commodities	<u>\$955,694</u>

Contributions as a Percentage of Covered Payroll	0.81%	0.82%	0.79%

Note: GASB Codification, Vol. 2, P50.238 requires that the data in this schedule be presented as of the District's respective fiscal years as opposed to the time periods covered by the measurement dates ending August 31 of the preceding year.

Information in this schedule should be provided only for the years where data is available. Eventually 10 years of data should be presented.

DENTON INDEPENDENT SCHOOL DISTRICT  
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION  
FOR THE YEAR ENDED JUNE 30, 2020

PENSION LIABILITY:

*Changes of benefit terms:*

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

*Changes of assumptions:*

The following were changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period.

- The single discount rate as of August 31, 2018 was a blended rate of 6.907 percent and that has changed to the long-term rate of return of 7.25 percent as of August 31, 2019.
- With the enactment of SB 3 by the 2019 Texas Legislature, an assumption has been made about how this would impact future salaries. It is assumed that eligible active members will each receive a \$2,700 increase in fiscal year 2020. This is in addition to the salary increase expected in the actuarial assumptions.
- The Texas Legislature approved funding for a 13<sup>th</sup> check. All eligible members retired as of December 31, 2018 will receive an extra annuity check in September 2019 in either the matching amount of their monthly annuity payment or \$2,000, whichever is less.

OPEB LIABILITY:

*Changes of benefit terms:*

There were no changes in benefit terms since the prior measurement date.

*Changes of assumptions:*

The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB liability since the prior measurement period:

- The discount rate changed from 3.69 percent as of August 31, 2018 to 2.63 percent as of August 31, 2019. This change increased the TOL.
- The health care trend rates were reset to better reflect the plan's anticipated experience. This change increased the TOL.
- The participation rate for pre-65 retirees was lowered from 70 percent to 65 percent. The participation rate for post-65 retirees was lowered from 75 percent to 50 percent. 25 percent of the pre-65 retirees are assumed to discontinue their coverage at age 65. There was no lapse assumption in the prior valuation. These changes decreased the TOL.
- The percentage of retirees who are assumed to have two-person coverage was lowered from 20 percent to 15 percent. In addition, the participation assumption for the surviving spouses of employees that die while activity employed was lowered from 20 percent to 10 percent. These changes decreased the TOL.

## NONMAJOR GOVERNMENTAL FUNDS SPECIAL REVENUE FUNDS

Special Revenue Funds are used to account for proceeds of specific revenue sources that are legally restricted to expenditure for specified purposes.

Activities accounted for in the Special Revenue Funds are:

Head Start - funds granted for the Head Start program for preschool children  
ESEA I, A Improving Basic Programs - funds granted to serve students needing reading and math assistance  
IDEA-Part B Formula - funds granted for children with disabilities  
IDEA-Part B Preschool - funds granted for preschool children with disabilities  
Summer Feeding Program - funds granted to provide summer meals to community children  
ESEA II, A Training and Recruiting - funds for training to improve teacher and principal quality  
Title III, A English Lang. Acquisition - funds to improve the education of limited English proficient children  
Title IV, B Community Learning - funds for community learning center activities  
Medicaid Admin. Claim MAC - funds to reimburse Medicaid state plan administrative costs  
A.I.R.-DLL - funds granted for a Spanish reading recovery program  
Summer School LEP - funds for summer education of limited English proficient students  
ESEA Title IV, Part A - funds granted for students needing reading and math assistance  
SSA Adult Education - funds granted to provide adult education literacy services  
SSA-TANF Family Assistance - funds granted to promote services to undereducated adults under TANF  
SSA-IDEA, Part B Discretionary - funds granted for special education private residential placements  
SSA-Vocational Ed Basic Grant - funds granted to provide career and technical education  
SSA-IDEA C Deaf-Early Intervention - funds granted to provide service to hearing impaired infants and toddlers  
Visually Impaired - funds granted for visually impaired students  
Advanced Placement Incentives - funds granted under the Texas Advanced Placement Award incentive program  
State Instructional Materials - funds granted for textbook and technology needs  
SPED Fiscal Support - funds granted to assist in the cost of providing for special education students  
Ready to Read - funds from state license plate fees for reading programs  
Math Stipends - funds granted to pay stipends to eligible teachers who successfully complete mathematics academics  
Summer CTE - funds granted to help identify and promote career and technical education programs  
Grow Your Own - funds granted for teachers who complete a literacy or mathematic achievement academy  
SSA-Adult Basic Education - funds granted to provide adult education and literacy services  
SSA Regional Day School-Deaf - funds granted to provide a regional day school program for the deaf (RDSD)  
Deaf Educ Management Board - funds contributed by member districts to support the RDSD program  
Campus Activity Funds - accounts for funds raised by a campus for the benefit of that campus  
Local Grants - accounts for funds received from local individuals and businesses for District needs  
COVID-19 Local Activity - accounts for funds expended from local dollars for costs related to the COVID-19 pandemic

## PERMANENT FUNDS

Permanent Funds are used to account for resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes to support the District's programs.

Activities accounted for in the Permanent Fund are:

Lewis Price Memorial Fund - accounts for the original corpus and accumulated earnings related to a gift for playground equipment

## Statistical Section

This part of the Denton Independent School District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

Contents	Page
Financial Trends	112
These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.	
Revenue Capacity	122
These schedules contain information to help the reader assess the government's most significant local revenue source, the property tax.	
Debt Capacity	128
These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.	
Demographic and Economic Information	134
These schedules offer demographic and economic indicators to help the reader understand the environment within the government's financial activities take place.	
Operating Information	138
These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs.	

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Source of information: Municipal Advisory Council of Texas

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Denton Independent School District. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

(1) The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of each entity's taxable assessed value that is within the District's boundaries and dividing it by each entity's total taxable assessed value.

## ***SINGLE AUDIT SECTION***

---

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER  
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Trustees  
Denton Independent School District  
Denton, Texas 76201

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Denton Independent School District, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise Denton Independent School District's basic financial statements, and have issued our report dated December 15, 2020.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of the audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

December 15, 2020

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON  
INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Trustees  
Denton Independent School District  
Denton, Texas 76201

**Report on Compliance for Each Major Federal Program**

We have audited Denton Independent School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Denton Independent School District's major federal programs for the year ended June 30, 2020. Denton Independent School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of finding and questioned costs.

***Management's Responsibility***

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

***Auditor's Responsibility***

Our responsibility is to express an opinion on compliance for each of Denton Independent School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Denton Independent School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Denton Independent School District's compliance.

***Opinion on Each Major Federal Program***

In our opinion, Denton Independent School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

## Report on Internal Control Over Compliance

Management of Denton Independent School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Denton Independent School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Denton Independent School District's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

DENTON INDEPENDENT SCHOOL DISTRICT  
SCHEDULE OF FINDINGS AND QUESTIONED COSTS  
FOR THE YEAR ENDED JUNE 30, 2020

I. Summary of Auditor's Results

1. Type of auditor's report issued on the financial statements: Unmodified.
2. Internal control over financial reporting:  
Material weakness(es) identified: None  
Significant deficiency(ies) identified that are not considered to be material weaknesses: None reported
3. Noncompliance which is material to the financial statements: None
4. Internal controls over major federal programs:  
Material weakness(es) identified: None  
Significant deficiency(ies) identified that are not considered to be material weaknesses: None reported
5. Type of auditor's report on compliance for major federal programs: Unmodified.
6. Did the audit disclose findings which are required to be reported in accordance with 2 CFR 200.516(a)?: No
7. Major programs include:  
Child Nutrition Cluster:  
CFDA 10.553 School Breakfast Program  
CFDA 10.555 National School Lunch Program – Cash Assistance  
CFDA 10.555 National School Lunch Program – NonCash Assistance  
CFDA 10.559 Summer Feeding Program – Cash Assistance
8. Dollar threshold used to distinguish between Type A and Type B programs: \$750,000.
9. Low risk auditee: Yes

II. Findings Related to the Financial Statements

None

III. Other Findings

None

DENTON INDEPENDENT SCHOOL DISTRICT  
NOTES ON ACCOUNTING POLICIES FOR FEDERAL AWARDS  
YEAR ENDED JUNE 30, 2020

1. The District uses the fund types specified in Texas Education Agency's Financial Accountability System Resource Guide. Special Revenue Funds are used to account for resources restricted to, or designated for, specific purposes by a grantor. Federal and state financial assistance generally is accounted for in a Special Revenue Fund. Generally, unused balances are returned to the grantor at the close of specified project periods.
2. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The Governmental Fund types are accounted for using a current financial resources measurement focus. All Federal grant funds were accounted for in a Special Revenue Fund which is a Governmental Fund type. With this measurement focus, only current assets and current liabilities and the fund balance are included on the balance sheet. Operating statements of these funds present increases and decreases in net current position.

The modified accrual basis of accounting is used for the Governmental Fund types and Agency Funds. This basis of accounting recognizes revenues in the accounting period in which they become susceptible to accrual, i.e., both measurable and available, and expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on Long-Term Debt, which is recognized when due, and certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant, and, accordingly, when such funds are received, they are recorded as deferred revenues until earned.

3. The District participates in numerous state and Federal grant programs that are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, if any, refunds of any money received may be required and the collectability of any related receivable at June 30, 2020, may be impaired. In the opinion of the District, there are not significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provisions has been recorded in the accompanying combined financial statements for such contingencies.
4. The period of availability for federal grant funds for the purposes of liquidation of outstanding obligations made on or before the ending date of the federal project period extended 30 days beyond the federal project period ending date, in accordance with provisions in the Uniform Guidance.
5. During the current year, the District received the following funds which are not included in the Schedule of Expenditures of Federal Awards.

Total Expenditures of Federal Awards	\$22,181,839
Medicaid Reimbursement (SHARS)	<u>3,925,168</u>
Federal Revenues per Financial Statements	<u>\$26,107,007</u>
