# The Sponsor's Guide to
SchooLinks' Programs

A program is a work–based learning initiative created by a district or school and made up of multiple opportunities sponsored by industry partners. Submit opportunities to have candidates placed at your organization.
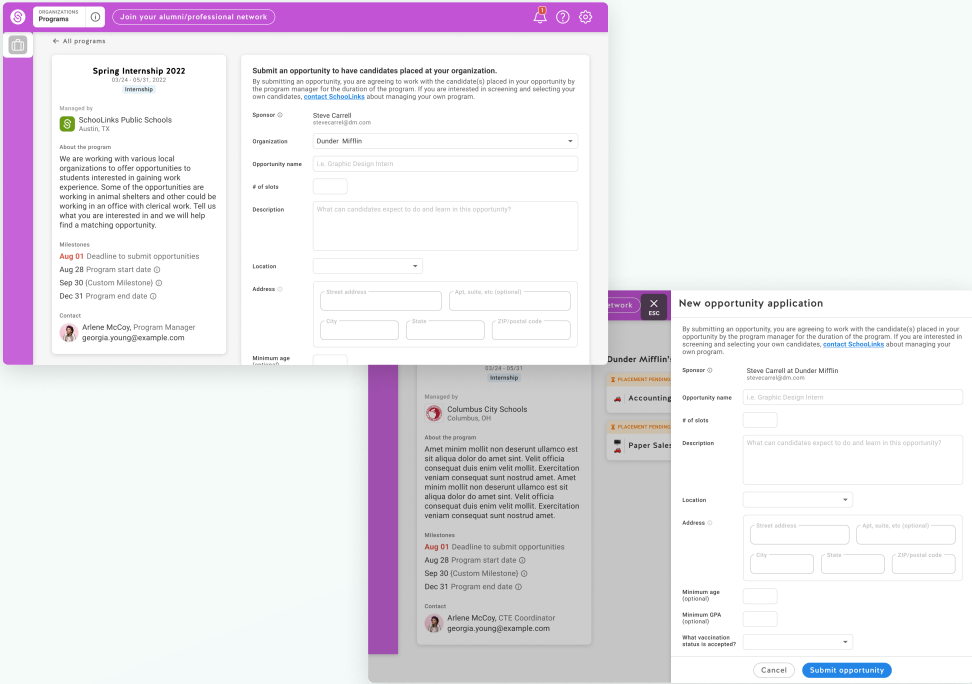

How to join a program

🔍 Browse programs

Discover programs managed by school districts and organizations around the country. As a **sponsor,** supervise **candidates** (students and recent alumni) in gaining work experience.

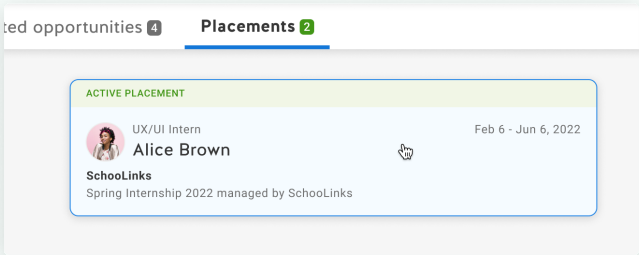

1

2
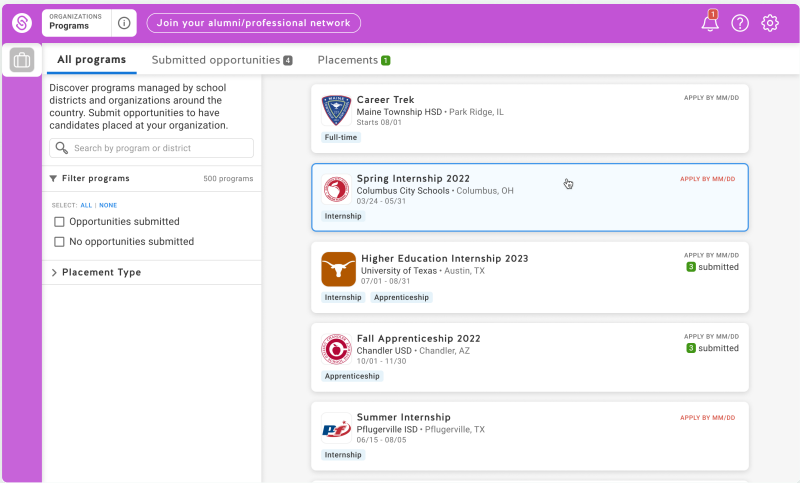

Submit opportunities ✅

Submit an opportunity to have candidates placed at your organization.

🤝 Meet your candidates

3

A **program manager** will review candidate applications to find a match for your opportunity. You will receive a notification when they do so and can access more information in the "My Placements" tab.

Program features

✅ Complete tasks

Program managers may assign forms to you or upload files for you to access. You can find all assigned tasks in the placement detail page
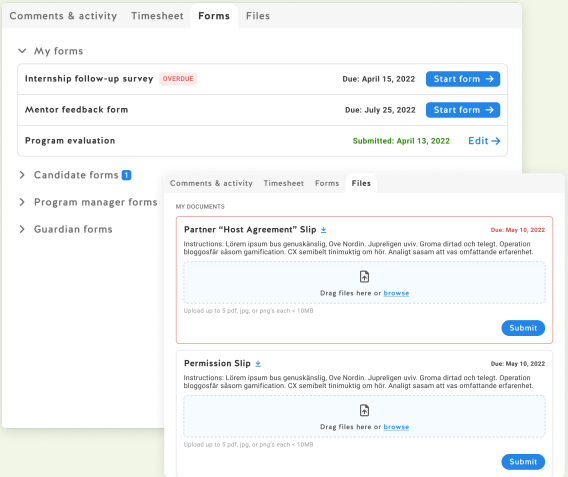

💬 Centralize communication

Leave comments that are shared with the program manager and candidate. Comments are stored so you can return to them at a later date.
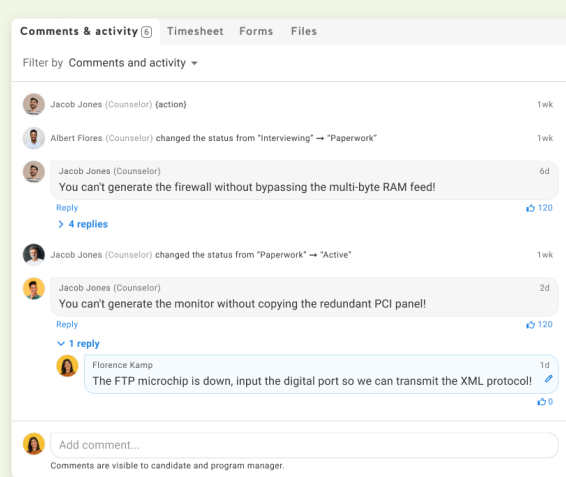

💼 Verify experiences

If you are working with student candidates, their hours or participation may need your verification. If so, you can verify their hours in the timesheet tab.

About the program
The Spring Internship 2022 program provides work experience that is directly associated to a student's academic program and career goals. In this program, students get the experience of public service and can enhance their goals. Students will apply theories and work on projects which give a real-life meaning to their classroom study.
