

# Burning CDs with Windows XP

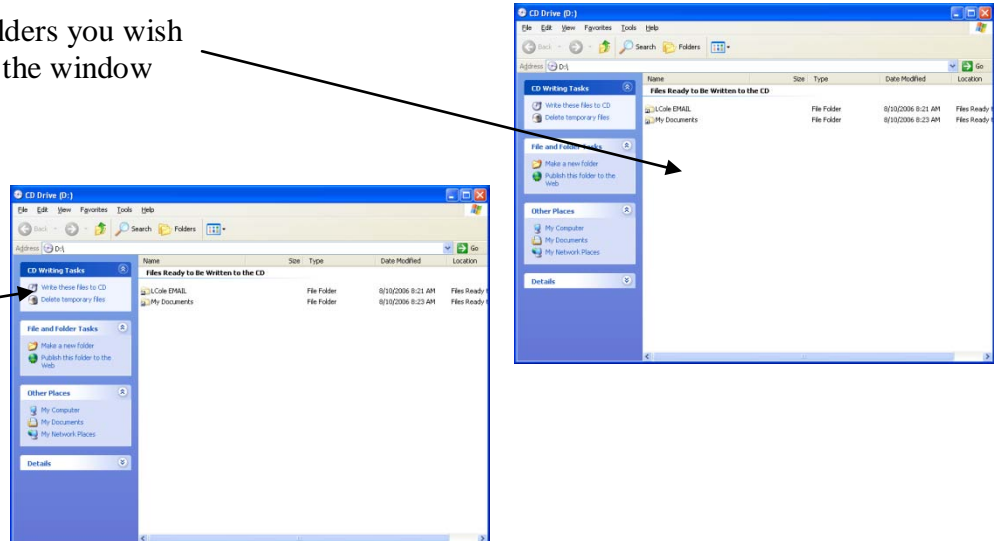

Place the blank CD in the CD-RW drive  
Click on **Open writable CD folder using Windows Explorer**

*If this window does not appear, open My Computer and open your CD drive.*

Drag the files and/or folders you wish to burn to the CD on to the window

Click "write these files to CD"

Name your CD  
Click **Next**

Click **Finish**  
New files can be added to the cd by repeating these instructions.
