

Instructions

Difficulty: Moderately Easy

Step1

Open up PowerPoint and choose a slide that is appropriate for your presentation.

Step2

Click on Customize Quick Access Toolbar (at top left next to Office Button)>Choose More Commands

Under Choose Commands From>All Commands

Scroll down to the option: More Controls. Click Add & OK.

Scroll down to "Shockwave Flash Object."

Step3

Draw a box the size you want.

Step4

Minimize PowerPoint

Open Word and paste URL

Delete "=" and replace with "/"

Delete the "watch?"

Copy new address

Step5

Open PowerPoint

Right click on the box and choose "Properties."

Locate Movie and paste in the URL

Step6

Save your presentation to where you want it. Then open it and check to make sure the video is working properly.
