

Adjective Slide

Your job is to create a colorful PowerPoint slide using adjectives to describe a noun. Follow the directions below to create your slide.

- 1. You will take a digital picture of a noun that you find somewhere in the school building. Once the picture has been taken, I will download it in to your folder.*
- 2. Before sitting down at the computer, you will need to come up with 5 adjectives that describe your noun. Be creative. Use a thesaurus if you need to. Be sure you know how to spell your adjectives correctly. Have the adjectives written down and ready to go when you get the opportunity to get on the computer.*
- 3. Insert your picture in to a blank slide. Size the picture to be no bigger than $\frac{1}{2}$ the size of the whole slide. Move the picture as close to the middle of your slide as possible.*
- 4. Insert a text box on your slide. Type one of your adjectives. Once you have typed the adjective, change the type of font, the size of the font, and the color of the font to make it appealing. Once this adjective looks the way you want it to look, move the text box someplace outside of the picture of your noun.*
- 5. Repeat step 4 again 3 more times. You should have 4 adjectives typed in different text boxes with color font, in different fonts, and different font sizes.*
- 6. Your final adjective will be typed in WordArt. Click the slanted A at the bottom of the screen. Choose a WordArt style. Type the adjective. Click OK. Be sure the WordArt is sized down to fit your slide and is about the same size as the rest of your adjectives.*
- 7. Insert a text box at the bottom of your slide. Type your name in Times New Roman size 12 font.*
- 8. Save the PowerPoint in your folder on the Polser server. You will need to name the file **adj slide**. Be sure you save it in your folder.*

You will receive 2 Language grades for this slide. We will print the slide and hang it for Open House.

How Will You Be Graded?

Did you include a digital picture of a noun in your slide? 5 points

Did you include 5 different adjectives describing your noun? 4 points each

Did you include 4 different colors of fonts for 4 of your adjectives? 7 points each

Did you include 4 different types of fonts for 4 of your adjectives? 7 points each

Did you include WordArt for one of your adjectives? 7 points

Did you include a text box with your name? 10 points

Did you save your PowerPoint in the right place with the right name? 2 points
