

Spanish Accent Codes

In Microsoft Word type the codes using the number keypad. Make sure your NUM Lock key has been pressed. Hold down the alt key and type the numbers for the letter. When you have finished typing the last number, let go of the ALT key and the letter will appear on your screen.

On a laptop or tablet, first press NUM LOCK. Then use the Function numbers (the specially marked numbers found in the middle of the keyboard rather than up at the top).

á = alt 160

Á= alt 0193
