

Notes for Section 1

How to solve a problem (according to George Pólya (1887–1985):

1. Understand the problem
2. Devise a plan
3. Carry out the plan
4. Look back

Some Problem-Solving Strategies:

1. Use a systematic list or table
2. Look for patterns
3. Use a picture or graph
4. Guess and check
5. Use algebra
